GCF Request for Proposals - Private Sector Facility

Mobilizing funds at scale to address mitigation and adaptation

The Green Climate Fund expresses its compliments to its National Designated Authority or Focal Point and wishes to draw attention to a recently launched global call for proposals to **unlock private sector investment in climate finance**.

Through this call, the Fund is allocating up to **USD 500 million** under its Private Sector Facility to identify **high impact projects and programmes that mobilize private sector investment** in climate change activity at scale.

This Request for Proposals (RfP) is open to programmes designed to crowd in private sector investments that fit within national climate change priorities and GCF's strategic impacts on mitigation and adaptation. GCF's support under this programme can include loans, equity, guarantees and grants.

Concept Notes for this RfP can be submitted until 30 August 2017 to privatesector@gcfund.org.

Detailed information is available on the following website: <http://www.greenclimate.fund/500m>

To **support broad uptake of this RfP**, the Green Climate Fund invites the office of the NDA or Focal Point to transmit this notification to key stakeholders in country.

Outreach to other parties that could have interest in this RfP would be welcomed, e.g. chambers of commerce, business and trade associations, and other private sector groups.

The Green Climate Fund takes this opportunity to express the assurances of its highest consideration to National Designated Authorities and Focal Points.
