

GCF in numbers

A snapshot of key figures, facts and results of the Fund to date.

Status as of 1 September 2017

**GREEN
CLIMATE
FUND**

Anticipated tonnes of CO2
equivalent avoided

701
million

Anticipated number of people
with increased resilience

140
million

GROWING NUMBERS FILL GCF PIPELINE

The role of GCF continues to grow as the largest international climate fund helping developing counties respond to climate change.

GCF now has 74 projects and programmes in its pipeline - seeking a total of GCF funding valued at approximately USD 3.8 billion. This figure does not include the USD 2.2 billion, comprising 43 projects and programmes that the GCF Board has already approved since it started reviewing funding proposals in late 2015.

The current USD 3.8 billion pipeline, if approved, is projected to avoid 701 million tonnes carbon dioxide equivalent of greenhouse gases. Also, about 140 million people are estimated to benefit from reduced vulnerability and increased resilience to climate change.

The following figures represent a snapshot of GCF's expanding funding portfolio, as well as of its readiness and accreditation activities.

Executed funded activity agreements (FAAs)

20

PORTFOLIO
