FUND**

---

Anticipated tonnes of CO2  
equivalent avoided

552  
million

---

Anticipated number of people with  
increased resilience

87  
million

---

## GROWING NUMBERS FILL GCF PIPELINE

**The role of GCF continues to grow as the largest international climate fund helping developing countries respond to climate change.**

GCF now has 58 new projects and programmes in its pipeline - seeking a total of GCF funding valued at approximately USD 3.4 billion. This figure does not include the USD 2.2 billion, comprising 43 projects and programmes that the GCF Board has already approved since it started reviewing funding proposals in late 2015.

The current USD 3.4 billion pipeline, if approved, is projected to avoid 552 million tonnes carbon dioxide equivalent of greenhouse gases. Also, about 87 million people are estimated to benefit from reduced vulnerability and increased resilience to climate change.

The following figures represent a snapshot of GCF's expanding funding portfolio, as well as of its readiness and accreditation activities.

Executed funded activity agreements (FAAs)
