CLARIFICATION NO. 3

Request for Proposals for Provision of consultancy services for Scoring and Selection of Respondents to the Request for Proposals for Mobilization of Funds at Scale

The GCF is hereby communicating to all potential Proposers answers to the requests for clarifications received.

Clarification requested	GCF Response
Is the GCF envisioning that the consultant will participate in one or more meetings at the GCF headquarters or remotely?	The process will definitely involve working closely with GCF staff in Headquarters and some remotely.
Could you please provide an indicative start date of the assignment?	Mid October.
Do the qualification requirements (i.e. advanced degree, at least 10 years work experience, etc.) apply only to the key professional experts of the team or to all the team members? In other words, are only professionals who meet those requirements allowed to work on the assignment?	The requirement applies to the consulting team reviewing the concept notes.
Do we need to provide CVs only for key professional experts or also for additional staff (other professional, technical, support) that will be working on the assignment?	CVs for all staff involved in this consulting mandate should be provided
As to the CVs, could you please clarify the number of relevant projects we can indicate under section #12 of form TECH-6?	Up to 3 relevant projects that illustrate the tasks that must be illustrated
As to form FIN-3, could you please clarify the difference between foreign and local staff in relation to this RFP?	For the purposes of this RFP, Foreign staff means staff who, at the time of responding to this RFP, have their domicile outside the country where the firm is registered and Local Staff means staff who, at the time of responding to this RFP, have their domicile inside the country where the firm is registered
As to the remuneration breakdown in form FIN-3, could you please clarify if we need to indicate fully loaded rates (i.e. inclusive of overhead) or specify separately the overhead rate we apply?	The costs should be all inclusive, with a breakdown and justification for the costing; so where overhead rates are being proposed, a breakdown should be provided to specify the rates but the final amount quoted should be the total cost of the services, all inclusive
