Guiding principles and methodology for the performance review of members of the Technical Advisory Panel of the Green Climate Fund

1. The Technical Advisory Panel (TAP), in accordance with decision B.07/03, paragraph (f), was established to provide an independent technical assessment of and advice on funding proposals for the Board. The terms of reference of the independent Technical Advisory Panel (the TAP), approved through decision B.09/10, define the role and mandate, composition and structure, reporting, work modalities, and compensation of the TAP. The TAP is comprised of six expert members with balanced representation between developing and developed countries, with gender balance, and with collective expertise covering a range of specialties related to adaptation, mitigation, the private sector, financing, and development and implementation of projects in developing countries. Each TAP member is nominated by the Investment Committee for endorsement by the Board, for a period of three years.
2. At the tenth meeting of the Board in June 2015, the first three experts were endorsed as initial members of the Panel. These members reviewed the first set of funding proposals submitted for the Board's consideration at its eleventh meeting. At its twelfth meeting in March 2016, the Board endorsed three additional candidates, completing the roster of the Panel. In their decision, the Board noted that, with this endorsement, the Panel deviated, on an exceptional basis, from the geographic balance established in the terms of reference. A review of the Structure and Effectiveness of the Technical Advisory Panel, mandated by the Board, was presented to the Board at its eighteenth meeting, and included recommendations on the TAP's general composition, internal processes, assessments, and overall value.
3. This document includes guiding principles and the methodology for the performance review of each member of the TAP. The review shall serve a double purpose: first, to inform the process of contract renewal of the current TAP members and recruitment of new members, and second, to help the members of the TAP to gain insights on how she/he is perceived by other TAP members and stakeholders, and have an opportunity to adjust behavior and develop skills that will enable her/him to excel at her/his role.

I. Guiding principles

4. The review should:
 - (a) Take into account the accountability of the TAP to the Board of the GCF;
 - (b) Cover the entire period of each TAP member's term, which commenced in accordance with relevant decisions B.10/09 and B.12/05; and
 - (c) Be conducted with a spirit of openness and positivity towards giving and receiving feedback.

II. Methodology

5. The performance review of TAP members will be undertaken by an independent consultant or firm that will:
 - (a) Facilitate the self-assessment of the performance of TAP members with regard to the duties adopted in annex XII to decision B.09/10;
 - (b) Develop and implement an online 360-degree assessment exercise eliciting feedback from:

- (i) Members of the Board and alternate Board members;
 - (ii) Relevant individual staff members of the Secretariat;
 - (iii) Other TAP members; and
 - (iv) A sample of accredited entities.
6. The 360-degree assessment exercise will collect qualitative and quantitative feedback on the TAP members' performance in the relevant assessments in which the TAP member participated, either as lead or secondary reviewer.
7. The assessment will also include evaluation of the essential competencies for the role – technical expertise, integrity, ethical behaviour, teamwork, communications, and ability to meet deadlines.
8. The independent consultant or firm will:
 - (a) Collate and review the information from the self-assessment, the review of relevant Funding Proposals' assessments, and the 360-degree assessment exercise;
 - (b) Provide feedback to the individual TAP members, for validation of the results and to give them valuable feedback on how their performance is perceived by other TAP members and stakeholders;
 - (c) Report to the Board the collated information on the performance review of the TAP members at the twentieth meeting of the Board to enable the Board to assess the TAP members' performance and take appropriate action;
 - (d) Keep all personal information absolutely confidential, disclosing only to those who have the agreed privilege to view the data.

D. Evaluation of Financial Proposal

The financial proposal of all proposers which have attained the minimum score in the technical evaluation will be evaluated subsequently. The lowest evaluated Financial Proposal (Fm) is given the maximum financial score (Sf) of 100. The formula for determining the financial scores (Sf) of all other Proposals is calculated as following:

$Sf = 100 \times Fm / F$, in which “Sf” is the financial score, “Fm” is the lowest price, and “F” is the price of the proposal under consideration.

E. Consolidated evaluation

The weights given to the Technical (T) and Financial (P) Proposals are:

$T = 0.70$, and $P = 0.30$

Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal; $T + P = 1$) as following: $S = St \times T\% + Sf \times P\%$.

The firm achieving the highest combined technical and financial score will be invited for contract negotiations.

F. Award

The Award will be made to the responsive proposer who achieves the highest combined technical and financial score, following negotiation of an acceptable contract. GCF reserves the right to conduct negotiations with the Proposer regarding the contents of their offer. The award will be in effect only after acceptance by the selected proposer of the terms and conditions and the technical requirements.
