<tr>
<td><strong>Impact statement:</strong> Improved access to clean energy services for all households including the poor ones and the ones headed by women</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
| **Outcome 1:** reduced time spent by women in household chores  
Indicator: Average number of hours per week spent on domestic work and unpaid care, by sex for women  
Target: 70 hours of weekly domestic work |
| **Result 1.1.**  
Indicator 1.1.1. Increased new connections for women consumers including women heads of households and their dependents  
Target: 367,303 women around 9,000 households headed by women to be defined  
Indicator 1.1.2. Reduced incidence of respiratory disease due to clean energy solutions Improvement to clean cooking  
Target: to define 1000 improved stoves  
Indicator 1.1.3. Improving the quality of basic services  
Target: to define 15 health centers, 27 schools and 5 water pumps |
| Activities will include:  
- New connection services to households headed by poor and socially excluded women (FHH)  
- Allocation of improved stoves to poor and female-headed households  
- Energy connected Health centers, schools, markets  
- Training in renewable and clean energy technologies  |
| Database with desegregated data  
Evaluation report  |
| By 2019  |
| Consultant |
| To be defined |
| Number of women and disabled persons (male and female) trained in clean energy technologies  
Target: 30 (20 women; 10 disabled of which at least 5 will be female)  |
| By 2020  |
| Consultant |
| To be defined |

8 All budget will be an integrated part of the TA grants financed by AfDB.
### Outcome 2: Increased participation of women, in clean and renewable energy

**Indicator 2.1:** Number of women joining Burkina Faso women's energy network  
Target: 100

**Indicator 2.2:** Number of women and youth participating in ER investment teams

### Output 2.2 Creation of Women in energy Network

**Indicator 2.2.1:** Number of staff in financial institutions trained on gender responsive climate finance  
Target: 20

**Output 2.3** Capacity building of women and youth in RE  
**Indicator 2.3.1:** Number of women and youth trained in RE technologies and business development related to renewable energy transactions.  
Target: to be defined

| Activities will include: | Number of women and disabled persons(male and female) business development services  
Target 30(20 women; 10 disabled of which at least 5 will be female) | By 2020 | Consultant | To be defined |
|--------------------------|-----------------------------------------------------------------|---------|------------|--------------|
| - Support to financial institutions to develop products for climate finance  
  - Diagnostic study on women in renewable energies in Burkina Faso  
  - Development of a database on women in renewable energies (virtual)  
  - Launch of the women's network in renewable energies  
  - Annual newsletter of Women in RE highlighting women's achievements in the sector | Number of women with internships in institutions working on RE or RE financing  
Target: 10 | By 2020 | Consultant | To be defined |
| - Diagnostic study on women in renewable energies in Burkina Faso | A finalized diagnostic report | By 2019 | Consultant recruited for RE capacity building | US$ 30,000 |
| - Development of a database on women in renewable energies (virtual) | Virtual database developed and updated every year | By 2020 | | |
| - Launch of the women's network in renewable energies | Number of women joining the Women in RE network  
Target: 100 women | | | |
