

Annex XIII: The IEU's Three-Year Objectives and Work Plan

1. Following the decision by the Board, this Annex presents modifications as necessary, of the IEU's rolling three-year work plan and budget. Since the presentation of the evaluation policy of the Fund has been postponed to B.22, there are no major modifications to the three-year work plan and budget.¹ Some minor changes in the three-year work plan are noted as follows:

- (a) Modification: In Table 3, 1(b) the IEU will produce an "evaluation policy for the Fund" and not the "independent evaluation policy."
- (b) New: In Table 3, 2 (c), the IEU will support six additional projects in 2019 under LORTA to help approved projects measure their impacts and changes resulting from GCF investments and help them measure the changes rigorously.
- (c) Modification: In Table 3, 3(a), the IEU will deliver a plan for capacity building and learning through evaluations at B.23 (and not at B.21).

2. To summarize, the overall objectives of the IEU are derived from the Governing Instrument and include:²

- (i) Informing the decision-making of the Board, identifying and disseminating lessons learned, contributing to guiding the Fund and stakeholders as a learning institution, and providing strategic guidance;
- (ii) Conducting periodic independent evaluations of the Fund's performance to provide an objective assessment of the Fund's results and the effectiveness and efficiency of its activities; and
- (iii) Providing evaluation reports to the Conference of Parties (COP) to the United Nations Framework Convention on Climate Change (UNFCCC) for purposes of periodic reviews of the financial mechanism of the Convention.

3. The IEU's principal aims for the period 2017-2020 are summarized below. Objectives and activities associated with these aims are summarized in Table 1.

- (a) **Build the IEU and complete staffing:** An important objective for the IEU is to ensure that the IEU is adequately staffed so that it can deliver its work plan, including its overall learning and accountability objectives. IEU staff will reflect the best standards in evaluative training, practice, theory and ethics. The IEU will be a well-managed unit. The IEU will also ensure that its vision and practices are adequately shared, internally and externally, and that the IEU's strategy, independent evaluation policy and procedures for functioning and governance are properly articulated (see Annex III).
- (b) **Undertake and deliver high quality evaluations:** The IEU will undertake strategic high-quality performance, portfolio, thematic, country, programmatic and project evaluations identified by the IEU and useful for the Board, GCF Secretariat and the COP.^{3,4} They will also serve as building blocks for fund-level evaluations that assess the effectiveness and efficiency of the GCF and contribute to the replenishment process. The IEU will deliver at least four evaluations per year. It will also review the use of the GCF's results-based framework and performance framework and provide recommendations to the Board. It will also support a Learning-Oriented Real-Time Impact Assessment

¹ Once the Evaluation policy is approved, the IEU will present a revised and updated three-year work plan.

(LORTA) window to support real-time learning within the GCF through real-time assessments.⁵

- (c) **Build and deliver an evaluation-based learning, advisory and capacity strengthening program:**⁶ The IEU's evaluation-based learning and capacity building program will respond to evaluation-related capacity needs of the GCF Board, Secretariat, Accredited Entities (AEs), Nationally Designated Agencies (NDAs), and other stakeholders in the evaluation and climate change space.⁷ The IEU will work towards ensuring that programs and activities funded by the GCF maintain sufficient quality in terms of data, design and information to inform evaluations.
- (d) **Engage strategically to learn, share and adopt best practices in the climate change evaluation space:** The IEU will engage with key actors in the evaluation space and be at the forefront of evaluation practice and theory while collaborating with stakeholders of the GCF and involving them in the IEU's activities.⁸ It will adopt high quality methods and standards for evaluative evidence in the climate change space. Accordingly, it will continue to build and strengthen partnerships, as it has in 2018, to leverage geographic presence, thematic expertise, and capacities to help with the IEU's other objectives in the context of capacity building, particularly with GCF partners, AEs, NDAs and focal points as well as other evaluation-related staff in partner organizations. This will also contribute to building the IEU's niche and its reputation as a leader in evaluation and learning, which is synonymous with quality and credibility.
