# Guidance from the twenty-third session of the Conference of the Parties: Co-Chairs' proposal

---

## **Summary**

This document presents the proposed actions to be undertaken by the Board in 2018 in response to guidance received from the Parties during the twenty-third session of the Conference of the Parties.

## I. Introduction

1. This document contains a proposal from the Co-Chairs in relation to guidance received from the twenty-third session of the Conference of the Parties (COP 23) to the United Nations Framework Convention on Climate Change (UNFCCC) to the GCF, as contained in UNFCCC decision -/CP.22\* titled “Report of the GCF to the COP and guidance to the GCF”.
2. In accordance with the Governing Instrument for the GCF, the Conference of the Parties (COP) provides annual guidance to the Board, and the Board takes appropriate actions in response to this guidance and reports back to the COP on how it has addressed the guidance received, through its annual report to the COP.
3. Furthermore, COP 23 concluded the sixth review of the Financial Mechanism of the Convention, as contained in UNFCCC decision -/CP.23 titled “Sixth review of the Financial Mechanism”.
4. Additionally, the following decisions adopted by the COP contain elements relevant to the GCF, and those requiring action from the GCF have been listed in table 1:
  - (a) Long-term climate finance (UNFCCC decision -/CP.23);
  - (b) Enhancing climate technology development and transfer through the Technology Mechanism (UNFCCC decision -/CP.23);
  - (c) Review of the functions of the Standing Committee on Finance (UNFCCC decision -/CP.23); and
  - (d) Fiji Momentum for Implementation (UNFCCC decision -/CP.23).
5. Table 1 provides information on how the Co-Chairs propose the Board address the guidance received from COP 23, including through the Board work plan for 2018 and proposed additional actions resulting from COP 23, as well other decisions adopted by COP 23 with elements requiring action by the GCF.
6. The draft decision in the annex provides decisions that further outline the Board’s intended actions to address matters emerging from COP 23.
