Republic of Korea

Dear Mr. Glemarec,

BAGRI funding proposal for the GCF by IFAD regarding Line of credit for low emission and climate resilient smallholder agriculture in Niger Project

I refer to the project **Line of credit for low emission and climate resilient smallholder agriculture in Niger** as included in the funding proposal submitted by the International Fund for Agricultural Development (IFAD) to the Green Climate Fund on the 15 March 2019.

In this connexion, I confirm the commitment of the bank BAGRI, the future recipient of the donation and loan of \$ 10 million Green Climate Fund is committed to **co-finance up to \$ 1 million on the energy window.**

Through this partnership, BAGRI intends to become a major player on climate finance, strengthen the resilience of small producers and support of the Government of Niger in meeting its commitments on the Paris agreement on climate change.

I am much looking forward to the commencement of this first important project in my country from the GCF.

Sincerely
Mr. Abdoulaye DJADAH
Managing Director
