Meeting of the Board
12 – 14 November 2019
Songdo, Incheon, Republic of Korea
Provisional agenda item 22

GCF/B.24/Inf.03
18 October 2019

Status of the GCF portfolio: approved projects and fulfilment of conditions

Summary

This document provides an update on approved projects in the GCF portfolio and fulfilment of conditions for the reporting period from 1 May to 31 August 2019.

Table of Contents

I.	Introduction	1
II.	Overview of the GCF portfolio	1
	2.1 Status of approved projects	1
	2.2 Status of the Readiness and Preparatory Support Programme	10
	2.3 Status of the Project Preparation Facility	12
III.	Overview of fulfilment of conditions	12
	3.1 Stages after Board approval	12
	3.2 Updates of approved projects, by stage and fulfilment of conditions	13
	3.3 Changes in conditions	13
IV.	Approved projects with outstanding issues	14

I. Introduction

1. The Governing Instrument for the GCF,¹ in paragraph 23(d), established the mandate for the Secretariat to carry out monitoring functions and prepare reports on the performance of the implementation activities under the GCF.
2. In addition, the Board requested the Secretariat to provide a report on the status of fulfilment of all conditions decided by the Board (decision B.14/07, paragraph (j), and annex III to document GCF/B.17/21, based on decision B.17/09, paragraph (c)); and to provide reports on the status of implementation of funding proposals approved by the Board (decision B.16/02, paragraph (n)).
3. This document presents an update on the overall status of the 111 funding proposals approved by the Board up to its twenty-third meeting (B.23) and the fulfilment of conditions for the reporting period from 1 May to 31 August 2019.

II. Overview of the GCF portfolio

2.1 Status of approved projects

4. Since the consideration of first projects by the Board in November 2015 at its eleventh meeting, the Board has approved 111 funding proposals (projects).² As at 31 August 2019, the total approval of GCF funding stood at USD 5.2 billion,³ with USD 13.6 billion of co-financing mobilized. In total, the approved projects, including co-financing, amount to USD 18.8 billion.
5. The GCF portfolio of approved projects is expected to abate a total of 1.5 billion tonnes of carbon dioxide equivalent of greenhouse gases and reach 311 million (direct and indirect) beneficiaries, based on the estimations of accredited entities (AEs). Figure 1 presents the key information on approved projects.

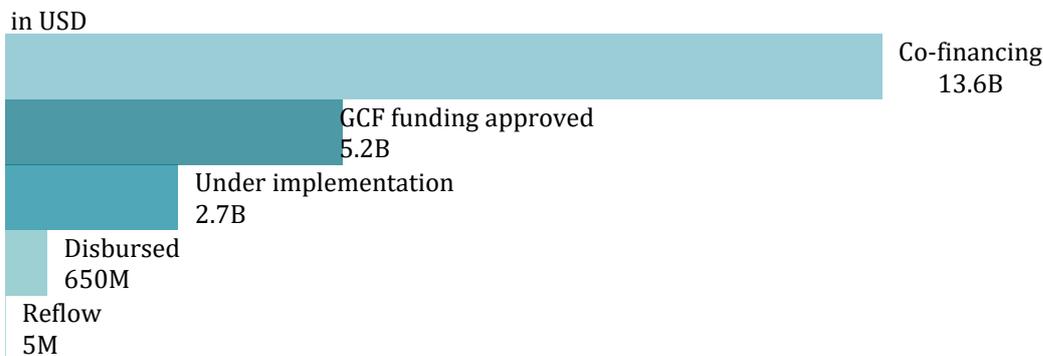

¹ The Governing Instrument was approved by the Conference of the Parties to the United Nations Framework Convention on Climate Change (UNFCCC) at its seventeenth session and is annexed to UNFCCC decision 3/CP.17. Available at <<http://unfccc.int/resource/docs/2011/cop17/eng/09a01.pdf>>.

² A full list of the 111 funding proposals is available on the GCF website at <<https://www.greenclimate.fund/what-we-do/projects-programmes>>. FP029 by the Development Bank of Southern Africa has lapsed as at 23 October 2017. FP006 and FP030 by the Inter-American Development Bank have lapsed as at 26 September and 28 July 2018, respectively. FP054 by the Corporación Andina de Fomento has lapsed as at 27 June 2019.

³ Portfolio values in this document are presented in nominal terms, unless otherwise specified. For the 12 FPs approved in euros (FP021, FP025 [partially in euro], FP041, FP042, FP043, FP059, FP86, FP093, FP095, FP102, FP103 and FP105), the exchange rate applied was EUR 0.894 = USD 1.000 in accordance with the United Nations Operational Rates of Exchange, effective as at 15 August 2019.

Figure 1: Key information on approved projects

Status of projects			Mitigation and adaptation impacts	
111 Projects approved	61 Projects under implementation	51 Projects receiving funds	1.5B tCO ₂ eq to be abated	311M Beneficiaries

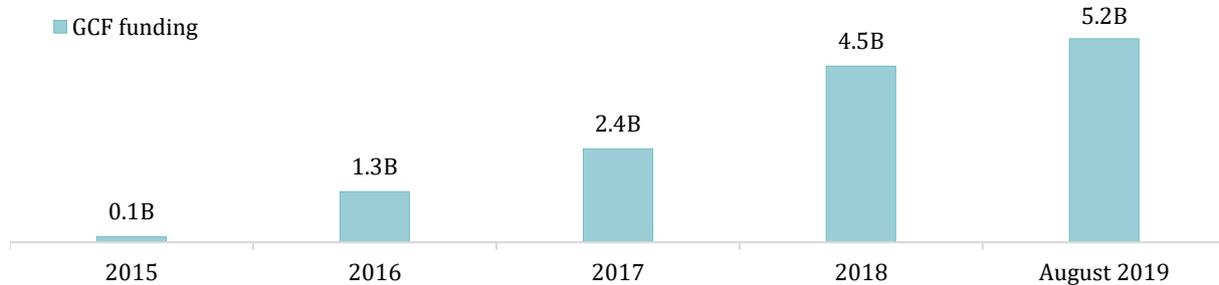

Abbreviations: B = billion, M = million, tCO₂eq = tonnes of carbon dioxide equivalent.

Note: A project under implementation means a project with an effective funded activity agreement.

6. Figure 2 presents the trend of the cumulative growth of approved projects and GCF funding since 2015.⁴

Figure 2: Growth of GCF funding (in USD)

Abbreviation: B = billion.

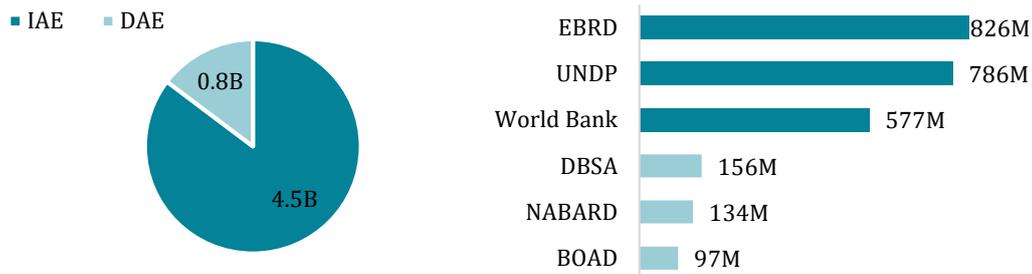

7. The majority of GCF funding (85 per cent) is being channelled through international access entities (IAEs) to finance 86 projects. The remaining 15 per cent of the funding flows to 25 projects, 7 per cent of which goes to 15 projects through national direct access entities (DAEs) and 8 per cent to 10 projects through regional DAEs.

8. The low concentration in DAEs is mainly due to the fact that there are DAEs financing projects through the GCF-accredited multilateral development banks that usually serve as intermediaries between the GCF and DAEs. Another factor is that the accreditation levels of IAEs allow them to implement larger projects that need relatively greater amounts of funding than DAEs. In addition, DAEs vary across the countries in terms of their capacity to handle large projects.

⁴ No funding proposals were approved at the twelfth, seventeenth and twentieth meetings of the Board (B.12, B.17 and B.20, respectively).

9. The current 111 projects are distributed across 37 AEs, of which 21 are IAEs and 16 are DAEs. Among IAEs, the European Bank for Reconstruction and Development accounts for the largest volume of GCF funding (16 per cent of the total approved amount), followed by the United Nations Development Programme (15 per cent) and World Bank (11 per cent). Among DAEs, the Development Bank of Southern Africa accounts for the largest volume of GCF approved funding (3 per cent), followed by India’s National Bank for Agriculture and Rural Development (3 per cent) and the West African Development Bank (2 per cent) (see figure 3).

Figure 3: GCF funding by access modality of accredited entities, including the top 3 (in USD)

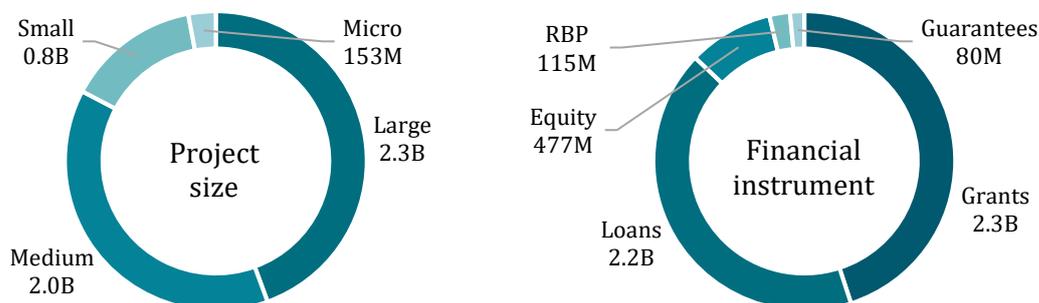

Abbreviations: B = billion, BOAD = Banque Ouest Africaine de Développement (West African Development Bank), DAE = direct access entity, DBSA = Development Bank of Southern Africa, EBRD = European Bank for Reconstruction and Development, IAE = international access entity, M = million, NABARD = National Bank for Agriculture and Rural Development, UNDP = United Nations Development Programme.

10. In terms of project size, the category with the largest share of GCF funding is large (44 per cent) followed by medium (38 per cent), small (14 per cent) and micro (3 per cent) (see figure 4).⁵ As per annex I to decision B.08/02, the project size categories are as follows: micro (< USD 10 million), small (USD 10–50 million), medium (USD 50–250 million) and large (> USD 250 million).

11. The portfolio utilizes a wide range of financial instruments as authorized by the Governing Instrument. The largest portion of the portfolio is financed by grants (45 per cent), followed by loans (42 per cent), equity (9 per cent), results-based payments (2 per cent) and guarantees (2 per cent) (see figure 4).

Figure 4: GCF funding by project size and financial instrument (in USD)

Abbreviations: B = billion, M = million, RBP = results-based payments.

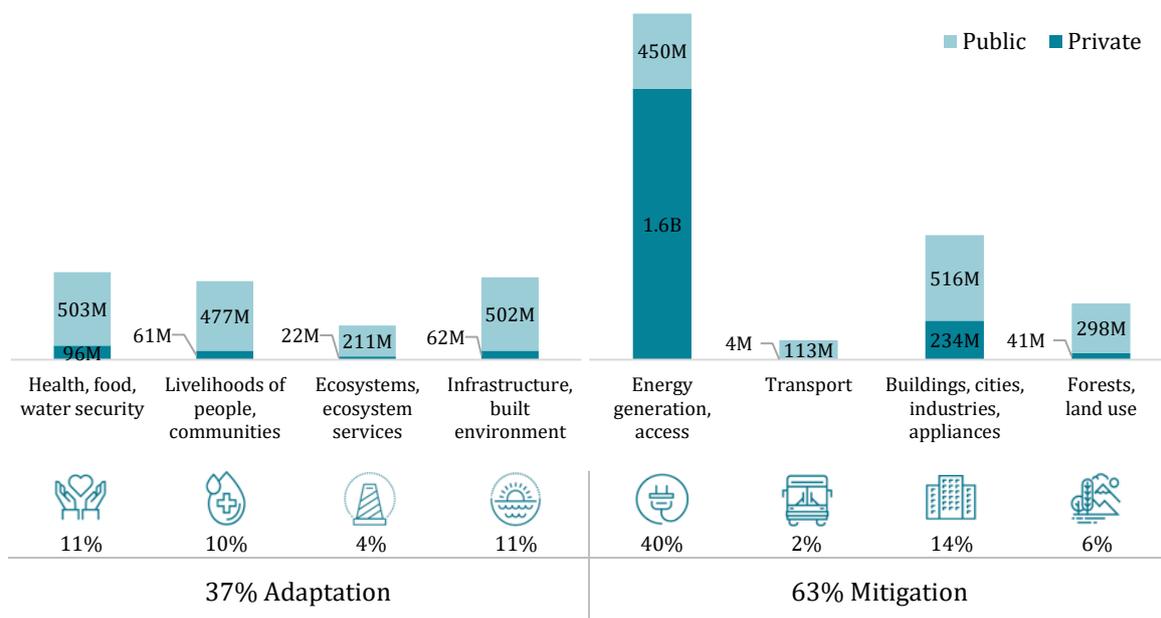

⁵ As per annex I to decision B.08/02, the project size categories are as follows: micro (< USD 10 million), small (USD 10–50 million), medium (USD 50–250 million) and large (> USD 250 million)

12. Figure 5 shows GCF funding allocations by theme and by the eight results areas, four each for adaptation and mitigation.⁶ Regarding thematic area, 37 per cent is allocated to adaptation projects and 63 per cent to mitigation projects.

13. Among adaptation results areas, health, food and water security has the strongest emphasis (11 per cent), and ecosystems and ecosystem services has the lowest coverage (4 per cent).

14. Among mitigation results areas, energy access and power generation has the largest portion of GCF funding (40 per cent) while low-emission transport accounts for the smallest (2 per cent).

Figure 5: GCF funding by results area (in USD)

Abbreviations: B = billion, M = million, % = per cent of total GCF funding.

2.1.1. Initial resource mobilization targets

15. As per the investment framework and programming document from the initial resource mobilization,⁷ the breakdown by sector, thematic area and adaptation allocation for least

⁶ As per the Board's request by decision B.17/08, paragraph (b), the Secretariat identified eight results areas where targeted GCF investment would have the most impact (see B.20/Inf.15).

⁷ As per decision B.06/06 and decision B.07/06, the GCF will aim for the following portfolio targets: (1) a 50:50 funding balance between adaptation and mitigation over time; (2) a floor of fifty per cent of the allocated adaptation funding to be channelled to vulnerable countries, including the least developed countries (LDCs), small island developing States (SIDS) and African States; (3) a reasonable and fair allocation across a broad range of countries in order to ensure geographic balance of funding; and (4) maximization of fund-wide engagement with the private sector, including through a significant allocation to the Private Sector Facility. Also, in line with guidance in UNFCCC decision 7/CP.20, paragraph 13, where the Conference of the Parties requested the Board, in its implementation of the accreditation framework, to pay adequate attention to the priorities and needs of developing country Parties, including LDCs, SIDS and African States.

developed countries (LDCs), small island developing States (SIDS) and/or African States are presented in both nominal and grant equivalent terms.⁸

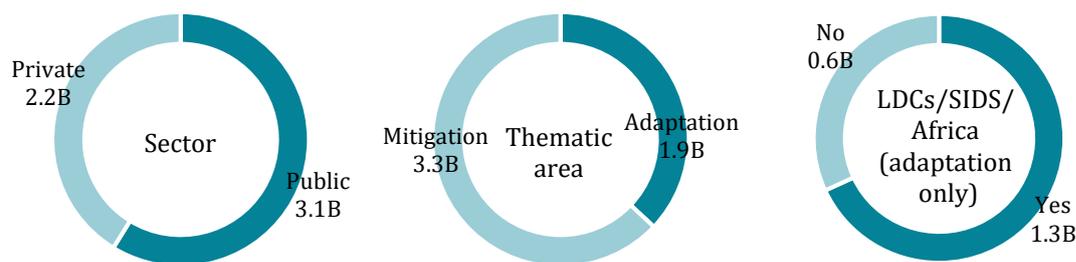

16. In nominal terms, the private and public sectors account for 41 per cent and 59 per cent of the GCF funding portfolio, respectively. However, in grant equivalent terms, 21 per cent flows into the private sector and 79 per cent to the public sector.

17. In nominal terms, on a thematic basis, 37 per cent is allocated to adaptation projects and 63 per cent to mitigation projects.⁹ In grant equivalent terms, the concentration by thematic area is more balanced but reversed against nominal values: 54 per cent is dedicated to adaptation projects while 46 per cent is dedicated to mitigation projects.

18. In terms of GCF funding for adaptation projects, 68 per cent in nominal terms and 70 per cent in grant equivalent terms are allocated for LDCs, SIDS and/or African States.¹⁰ It is worth noting that their shares in both nominal and grant equivalent terms are above the target of a floor of 50 per cent adaptation allocation for vulnerable countries, including LDCs, SIDS and African States (see figure 6).

Figure 6: GCF funding as per initial resource mobilization targets in nominal and grant equivalent terms (in USD)

Nominal terms

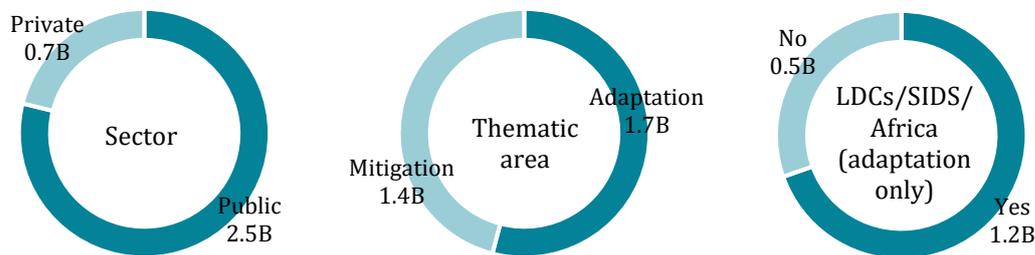

⁸The grant equivalents were estimated for each project using a uniform 5 per cent discount rate. The grant equivalent calculator tool developed by the Office of Risk Management and Compliance of the GCF to measure the grant-like element embedded in GCF financing has been used for the calculations.

⁹The breakdowns by mitigation and adaptation for cross-cutting projects are preliminary estimates for all approved projects based on the best information available to the Secretariat. The methodology to segregate the mitigation and adaptation components and the discount rate approach continues to be improved, so there may be modifications to the data.

¹⁰For multi-country projects, the amounts of GCF funding allocated to each country are estimated, based on the best information available to the Secretariat. Unless the allocation information is provided in funding proposals or by AEs, the funding amounts are evenly distributed to each country according to the number of targeted countries. As the estimates will be updated once expenditure information is received, there may be modifications to the data.

Grant equivalent terms

Abbreviations: B = billion, LDCs = least developed countries, SIDS = small island developing States.

19. The 111 projects in the GCF portfolio target 99 countries. This comprises 36 African countries,¹¹ 29 countries in the Asia-Pacific region,¹² 27 countries in Latin America and the Caribbean,¹³ and 7 countries in Eastern Europe.¹⁴ With respect to the share of LDCs and SIDS, the portfolio covers 31 LDCs¹⁵ and 30 SIDS,¹⁶ including 8 countries¹⁷ that fall under both the LDC and SIDS categories (see figure 7).

20. In terms of regional distribution, the largest portion of GCF funding (41 per cent) is allocated to the Africa region, followed by the Asia-Pacific region (32 per cent), Latin America and the Caribbean (22 per cent) and Eastern Europe (5 per cent) (see figure 7).

21. About 25 per cent of GCF funding has been committed to LDCs while 16 per cent has been to SIDS. Africa and Asia-Pacific are the regions that account for the largest shares of LDCs and SIDS, respectively (see figure 7).

¹¹ Benin, Burkina Faso, Burundi, Cameroon, Chad, Comoros, Côte d'Ivoire, Democratic Republic of the Congo, Djibouti, Egypt, Equatorial Guinea, Eswatini, Ethiopia, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Madagascar, Malawi, Mali, Mauritius, Morocco, Namibia, Niger, Nigeria, Rwanda, Senegal, South Africa, United Republic of Tanzania, Togo, Tunisia, Uganda, Zambia and Zimbabwe.

¹² Bahrain, Bangladesh, Bhutan, Cambodia, Cook Islands, Fiji, India, Indonesia, Jordan, Kazakhstan, Kiribati, Kyrgyzstan, Maldives, Marshall Islands, Micronesia (Federated States of), Mongolia, Nauru, Pakistan, Papua New Guinea, Samoa, Solomon Islands, Sri Lanka, Tajikistan, Timor-Leste, Tonga, Tuvalu, Uzbekistan, Vanuatu and Viet Nam.

¹³ Antigua and Barbuda, Argentina, Bahamas, Barbados, Belize, Brazil, Chile, Colombia, Costa Rica, Dominica, Dominican Republic, Ecuador, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines and Suriname.

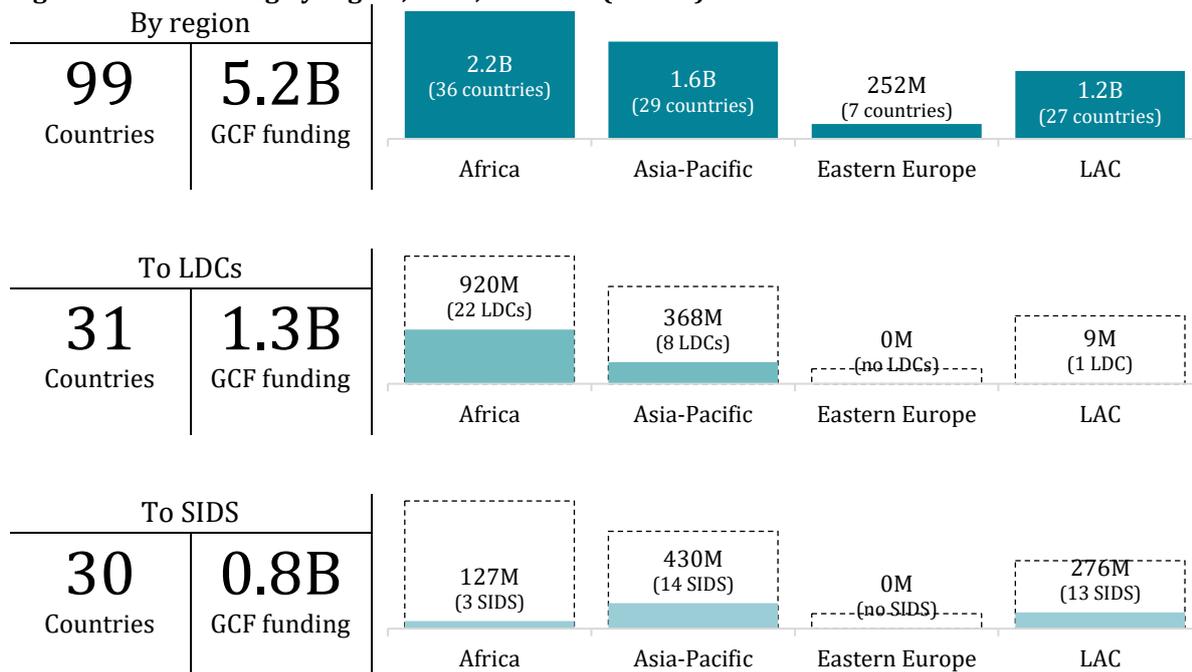

¹⁴ Albania, Armenia, Bosnia and Herzegovina, Georgia, North Macedonia, Republic of Moldova, and Serbia.

¹⁵ Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Chad, Comoros, Democratic Republic of the Congo, Djibouti, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Lesotho, Madagascar, Malawi, Mali, Niger, Rwanda, Senegal, Solomon Islands, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu and Zambia.

¹⁶ Antigua and Barbuda, Bahamas, Barbados, Belize, Comoros, Cook Islands, Dominica, Dominican Republic, Fiji, Grenada, Guinea-Bissau, Guyana, Haiti, Kiribati, Maldives, Marshall Islands, Mauritius, Micronesia (Federated States of), Nauru, Papua New Guinea, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Samoa, Solomon Islands, Suriname, Timor-Leste, Tonga, Tuvalu, and Vanuatu.

¹⁷ Comoros, Guinea-Bissau, Haiti, Kiribati, Solomon Islands, Timor-Leste, Tuvalu and Vanuatu.

Figure 7: GCF funding by region, LDCs, and SIDS (in USD)

Abbreviations: B = billion, LAC = Latin America and the Caribbean, LDCs = least developed countries, M = million, SIDS = small island developing States.

2.1.2. Approved projects under implementation

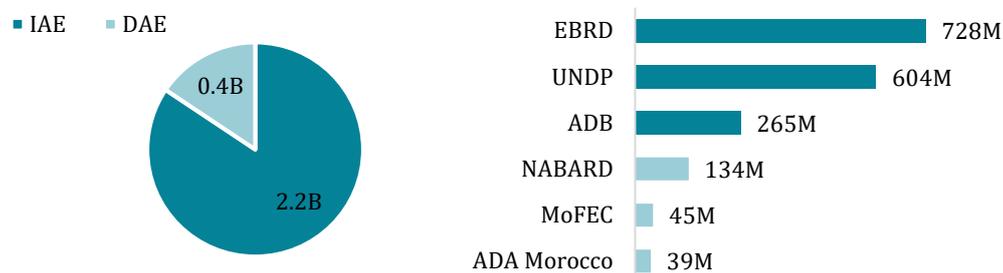

22. The number of projects that have started implementation¹⁸ has increased over the past four years. While only one project had started implementation by the end of 2016, the number of projects under implementation increased to 40 by the end of 2018. As at 31 August 2019, it has reached 61,¹⁹ accounting for 55 per cent of the 111 approved projects. These projects under implementation are worth USD 2.7 billion in GCF funding and account for 51 per cent of total GCF funding; they are spread over 64 countries.

23. These projects are being implemented by 22 AEs. The European Bank for Reconstruction and Development has six approved projects, of which five projects are currently under implementation, accounting for the largest value of GCF funding under implementation (USD 728 million). The United Nations Development Programme has 24 approved projects and 19 projects are under implementation, which is the largest number of projects under implementation from one single AE (see figure 8).

¹⁸ The implementation of GCF-funded projects starts when their funded activity agreements (FAAs) become effective, unless otherwise established in the signed legal agreements.

¹⁹ Excluded is FP026 by Conservation International Foundation (CI) and the European Investment Bank (EIB). The CI part of the project is under implementation, while the EIB part is pending the effectiveness of the accreditation master agreement (AMA). Once the implementation of the EIB part commences, this project will be added to the list of projects under implementation.

Figure 8: GCF funding under implementation by access modality of accredited entities, including the top 3 (in USD)

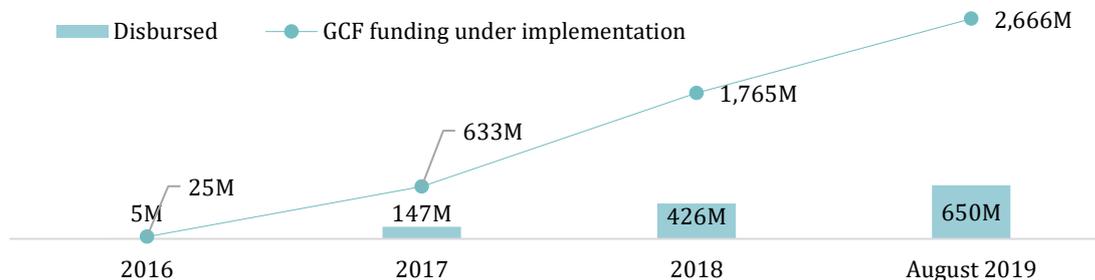

Abbreviations: ADA Morocco = Agency for Agricultural Development of Morocco, ADB = Asian Development Bank, B = billion, DAE = direct access entity, EBRD = European Bank for Reconstruction and Development, IAE = international access entity, M = million, MoFEC = Ministry of Finance and Economic Cooperation of the Federal Democratic Republic of Ethiopia, NABARD = National Bank for Agriculture and Rural Development, UNDP = United Nations Development Programme.

24. Disbursements totalling USD 650 million,²⁰ excluding AE fees of USD 36 million, have been made (see figure 9), accounting for 24 per cent of the GCF funding for projects under implementation. Of that amount, 55 per cent has been disbursed for private sector projects and 45 per cent for public sector projects. The estimated amount of cumulative disbursement is projected to fall in a range of USD 826–1,004 million by the end of 2019.²¹

25. The reflowed funds amount to USD 5 million, including interest payments.

Figure 9: GCF funding under implementation and disbursements by year (in USD)

Abbreviation: M = million.

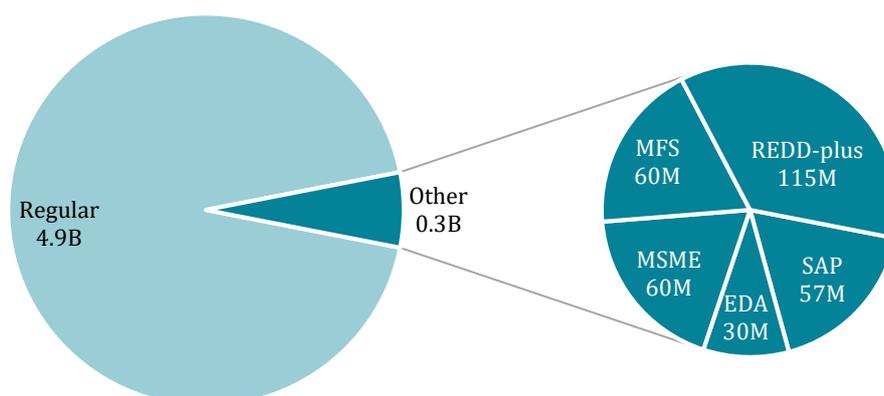

²⁰ This value excludes the disbursements for the CI part of FP026, USD 0.8 million in 2018 and USD 1.6 million in 2019. The CI part of the project is under implementation, while the European Investment Bank part is pending the effectiveness of the accreditation master agreement. Once the implementation of the EIB part commences, this project will be added to the list of projects under implementation and the disbursed amount for CI part will be counted.

²¹ The projection was made on 30 September 2019. The disbursement projection is revisited every quarter. The projection is based on a combination of (i) information provided by AEs; (ii) indicative disbursement schedules in FAAs; and (iii) the Secretariat's estimation, for example, on when FAAs will be signed for the projects and how long it will take from FAA execution to first disbursement.

2.1.3. Approved pilot requests for proposals and the simplified approval process pilot scheme

26. As at 31 August 2019, the Board has approved seven projects under the simplified approval process; three for micro, small and medium-sized enterprises phase I; two for enhancing direct access; two for REDD-plus; and one for mobilizing funds at scale (see figure 10).

Figure 10: GCF funding under pilot requests for proposals and simplified approval process (in USD)

Abbreviations: B = billion, EDA = enhanced direct access, M = million, MFS = mobilizing funds at scale, MSME = micro, small and medium-sized enterprises, SAP = simplified approval process.

27. Seven projects have been approved under the simplified approval process: two²² are pending accreditation master agreement (AMA) effectiveness, two²³ are pending funded activity agreement (FAA) effectiveness, one²⁴ is pending the first disbursement, and the remaining two²⁵ have started receiving disbursements.

28. Three projects have been approved under micro, small and medium-sized enterprises phase I: one project²⁶ has received the first disbursement, one²⁷ has received full disbursements, and one project²⁸ approved at B.23 is pending AMA effectiveness.

²² SAP002 (Kyrgyzstan) and SAP007 (Zimbabwe) by World Food Programme.

²³ SAP005 by United Nations Environment Programme (Benin) and SAP006 by Environmental Investment Fund of Namibia (Namibia).

²⁴ SAP003 by United Nations Environment Programme (Bahrain).

²⁵ SAP001 by Environmental Investment Fund of Namibia (Namibia) and SAP004 by XacBank LLC (Mongolia).

²⁶ FP048 by Inter-American Development Bank (Guatemala and Mexico).

²⁷ FP028 by XacBank LLC (Mongolia). The approved GCF funding for this project (USD 20 million) has been fully disbursed as at June 2017. The project is currently receiving AE fees only.

²⁸ FP114 by African Development Bank (Ghana).

29. Under enhanced direct access,²⁹ two projects have been approved. One³⁰ is pending the first disbursement and the other³¹ has received the second disbursement.
30. One REDD-plus project³² is pending FAA execution while the other one is pending FAA effectiveness.
31. One project³³ under mobilizing funds at scale, which was approved at B.23, is pending FAA execution.

2.2 Status of the Readiness and Preparatory Support Programme

32. The GCF Readiness and Preparatory Support Programme (the Readiness Programme) is designed to support countries' engagement with the GCF in building a pipeline of climate change projects and to enhance country ownership.
33. As at 31 August 2019, GCF has approved a total of 270 projects under the Readiness Programme covering 126 countries with a total funding of USD 160 million. Out of 270 projects,³⁴ 39 have been completed and 207 are under implementation, and these have received disbursements of USD 63 million (see figure 11). The estimated amount of cumulative disbursement is projected to reach USD 102 million by the end of 2019.

²⁹ The Board, by decision B.10/04 adopted the terms of reference for a pilot phase enhancing direct access to GCF, as set out in annex I to document GCF/B.10/17. As stated in section IX "Monitoring, evaluation and timeline of the pilot phase", paragraphs 27 and 28 of this annex: "Each country pilot will be reviewed by the Fund two years after its approval, and will be evaluated after five years to assess its impact, effectiveness and lessons learned on potential scalability. The overall pilot phase will be evaluated after five years." Accordingly, FP024 Namibia (submitted by the Environmental Investment Fund and approved by the Board at its fourteenth meeting in October 2016 through decision B.14/17) is due for an enhancing direct access midterm review. The Secretariat is in consultation with the AE towards this end. It is expected that the report will be submitted to the Board for consideration at its twenty-fifth meeting.

³⁰ FP061 by the Department of Environment, Ministry of Health and Environment, Government of Antigua and Barbuda (Antigua and Barbuda, Dominica and Grenada).

³¹ FP024 by the Environmental Investment Fund (Namibia).

³² FP110 (Ecuador) is pending FAA execution and FP100 (Brazil) is pending FAA effectiveness; both are by the United Nations Development Programme.

³³ FP115 by the Bank of Tokyo-Mitsubishi UFJ (Chile).

³⁴ Out of the 270 projects, 7 were cancelled, amounting to USD 0.13 million.

Figure 11: Key information on the Readiness and Preparatory Support Programme

Status of projects				
270 Projects approved	39 Projects completed	207 Projects under implementation	162 Projects at disbursing stage	7 Projects cancelled

in USD

Abbreviation: M = million.

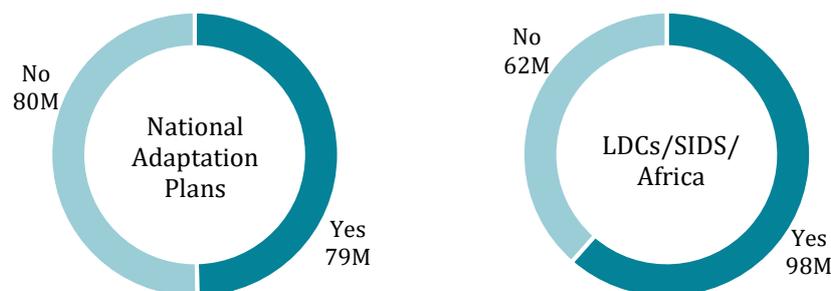

34. The Readiness Programme encompasses five activity areas (B.13/32/Rev.01, annex VII), which are grouped into national adaptation plans (NAPs) and other non-NAP activities. NAP support aims to fund the formulation of NAPs and adaptation planning processes. Non-NAP support covers a wide range of activities, including capacity-building, implementation of the strategic framework for climate finance, pipeline development through support to DAEs, and knowledge sharing and learning.

35. As at 31 August 2019, 50 per cent of the total Readiness Programme value is allocated to the NAP-related activities of 30 projects. The remaining 240 projects are for the non-NAP activity areas, with a share of 50 per cent of the total Readiness Programme value.

36. In terms of the regional distribution of the Readiness Programme, Latin America and the Caribbean accounts for 35 per cent (87 projects) of the total approved GCF funding, followed by Africa (32 per cent, 91 projects), Asia-Pacific (26 per cent, 79 projects) and Eastern Europe (7 per cent, 13 projects) (see annex II).

37. GCF aims for a floor of 50 per cent of the Readiness Programme support allocation to vulnerable countries, including LDCs, SIDS and African States. Out of a total 126 countries covered by the Readiness Programme portfolio, 83 are the priority countries of LDCs, SIDS and/or African States. The portfolio has a 61 per cent allocation of total approved support to these countries (see annex II and figure 12).

Figure 12: Readiness and Preparatory Support Programme by key dimensions (in USD)

Abbreviations: LDCs = least developed countries, M = million, NAP = national adaptation plan, SIDS = small island developing States.

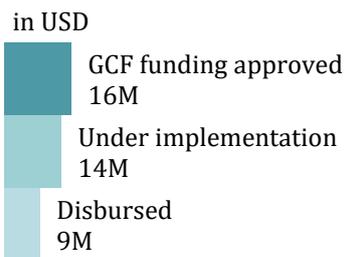

2.3 Status of the Project Preparation Facility

38. The GCF Project Preparation Facility (PPF) is expected to support AEs in project and programme preparation. It is especially targeted to support DAEs and micro- to small-size category projects.

39. As at 31 August 2019, GCF has approved a total of 25 projects under the PPF covering 23 countries with a total funding of USD 16 million. Out of 25 projects, 21 are under implementation. Under the PPF, GCF has disbursed USD 9 million over the past 3 years. The estimated amount of cumulative disbursement is projected to reach USD 10 million by the end of 2019.

Figure 13: Key information on the Project Preparation Facility

Status of projects				
25 Projects Approved	21 Projects under implementation	17 Projects at disbursing stage	0 Projects completed	0 Projects Cancelled

Abbreviation: M = million.

40. In terms of the regional distribution of the PPF, Africa accounts for 45 per cent of the total approved GCF funding (10 projects), followed by Latin America and the Caribbean (28 per cent, 6 projects), and Asia-Pacific (27 per cent, 9 projects) (see annex II).

III. Overview of fulfilment of conditions

3.1 Stages after Board approval

41. Based on the three key milestones in the post-approval process (execution of FAA, effectiveness of FAA and disbursement under FAA), the post-approval stages are categorized as shown in figure 14 below.

42. Stage 1 relates to AMA execution and AMA effectiveness. AMA execution and AMA effectiveness are prerequisites to FAA execution. Stage 1 is applicable only to those projects whose AMAs were not executed and/or effective at the time of Board approval.³⁵ Stages 2 and 3

³⁵ It is expected that the number of approved projects under this stage will decrease over time through decision B.17/09, which limits consideration of funding proposals without (an) executed AMA(s).

refer to pending FAA execution and pending FAA effectiveness. Stages 4 and 5 refer to pending first disbursement and disbursing under FAA. Finally, stage 6 refers to projects that received full disbursements but have not been completed yet.

3.2 Updates of approved projects, by stage and fulfilment of conditions

43. Out of the 111 approved projects, 50 projects have not started implementation, that is, they do not have an effective FAA as at 31 August 2019. GCF funding approved for the 50 projects amounts to USD 2.6 billion.

44. Specifically, 12 projects are pending AMA effectiveness,³⁶ 22 projects are pending FAA execution and 16 projects are pending FAA effectiveness.

45. The total number of projects under implementation is 61 with the additional ten projects that have started implementation during the reporting period from 1 May to 31 August 2019.

46. Out of the 61 projects, 12 are pending first disbursements, 2 have received full disbursements and the remaining 47 are at the disbursing stage.

Figure 14: Number of projects and GCF funding by stage (in USD)

Pre-implementation			Under implementation		
50 projects (2.6B)			61 projects (2.7B)		
12 projects (0.6B)	22 projects (1.1B)	16 projects (0.9B)	12 projects (0.6B)	47 projects (2.0B)	2 projects (29M)
Stage 1. Pending AMA execution or effectiveness (post-approval)	Stage 2. Pending FAA execution	Stage 3. Pending FAA effectiveness	Stage 4. Pending first disbursement	Stage 5. Disbursing	Stage 6. Fully disbursed

Abbreviations: AMA = accreditation master agreement, B = billion, FAA = funded activity agreement, M = million.

Notes: Stage 1 = funding proposals whose AMAs were not signed or effective at the time of Board approval; Stage 2 = funding proposals that are pending FAA execution, meaning under negotiation and/or preparation; Stage 3 = projects that have a signed FAA, but effectiveness is pending; Stage 4 = projects that have effective FAAs, but have not received first disbursement; Stage 5 = projects that have received first or subsequent disbursements; and Stage 6 = projects that have fully received disbursements but have not yet been completed.

3.3 Changes in conditions

47. Conditions are suggested by the Secretariat, the independent Technical Advisory Panel and Board members, and they are approved by the Board. The detailed status of fulfilment of the conditions applied to each project is presented in annex IV.

³⁶ The AEs for the 12 projects pending AMA effectiveness are African Development Bank, Deutsche Bank, European Investment Bank and World Food Programme.

48. During the reporting period, the Board approved four extensions for submission of a certificate or a legal opinion of the internal approvals (see table 1), pursuant to paragraph (c) of Decision B.22/14, which approved the Policy on Restructuring and Cancellation.

Table 1: Changes in conditions during the reporting period

FP	Changes approved		Reference
FP014 (World Bank, Tajikistan and Uzbekistan)	Extension	Extension of the deadline for submission of certificate or a legal opinion of internal approvals by 120 days starting from 1 June 2019	DMA/2019/36 (13 May 2019)
FP071 (World Bank, Viet Nam)	Extension	Extension of the deadline for submission of certificate of legal opinion of internal approvals by 120 days as of 1 June 2019	DMA/2019/40 (14 May 2019)
FP083 (World Bank, Indonesia)	Extension	Extension of the deadline for submission of certificate of legal opinion of internal approvals by 120 days as of 1 June 2019	DMA/2019/37 (13 May 2019)
FP104 (AFC, Nigeria)	Extension	Extension of the deadline for submission of certificate of legal opinion of internal approvals by 120 days as of 28 June 2019	PSF/2019/104/02 (12 June 2019)

Abbreviations: AFC = Africa Finance Corporation, DMA = Division of Mitigation and Adaptation, FP = funding proposal, PSF = Private Sector Facility.

IV. Approved projects with outstanding issues

49. FP038 titled “GEEREF NeXt” (Investment Fund) by European Investment Bank (EIB), which was approved at the sixteenth meeting of the Board (B.16) is an innovative financing vehicle, structured as a fund of funds (FoF), which will finance the development, construction and operation of renewable energy and energy efficiency beneficiary projects in developing countries, either indirectly via specialized funds or directly via investments into the beneficiary projects themselves. According to the presented Funding Proposal, EIB targets to raise USD 750 million in Equity for GEEREF NeXt (of which USD 250 million has been approved to be contributed by the GCF) and USD 15 million in grant for a Technical Assistance Facility (TAF) (of which all USD 15 million has been approved to be contributed by the GCF). The Investment Fund has suffered significant delays, primarily due to on-going negotiations to improve the originally approved structure and terms to make the Investment Fund more attractive for investors (e.g. lower management fee as a result of renegotiated basis, clear fund management structure, clear accountability of EIB, staged GCF investment tied with third party mobilization).

50. FP045 for India, by National Bank for Agriculture and Rural Development (NABARD), was approved at B.16, and the FAA was executed on 26 February 2018 and subsequently became effective on 21 September 2018. Prior to first disbursement, NABARD notified the Secretariat about a change in executing entity from the Ground Water Division of the Department of Water Resources of the Government of Odisha, to the Odisha Community Tank and Water and Management Society, a special purpose vehicle under the same government department. The AE recently provided the supporting documentation for the change in executing entity, paving the way for the Secretariat to begin the assessment of this change in line with the Cancellation and Restructuring Policy approved at the twenty-second meeting of the Board. The Secretariat’s review for the change in executing entity, as well as the subsequent legal formalities, should be completed before the deadline for the first disbursement, which falls on 18 June 2020.

51. In February 2019, the Board approved FP104, the Nigeria Solar IPP Support Programme, prepared and submitted by Africa Finance Corporation (AFC). According to the project terms, GCF, together with AFC and African Development Bank (AfDB) will provide up to

USD 300 million debt financing for three to five solar power developers to ensure construction and operation of the first utility-scale power projects with total generation capacity of up to 400 MW in the northern and central parts of Nigeria. GCF will provide up to USD 100 million of debt financing for the project. Project implementation is subject to internal approval from AFC and AfDB, which, in turn, depends on the terms and conditions of the power purchase agreement (PPA) to be entered into between developers and Nigeria Bulk Trading Company (NBET). The PPA terms offered previously were based on the “take-or-pay” principle; however, currently, NBET wants to pay only for the amounts of electricity actually purchased by them. In addition, there are other changes to the PPA that make the project unfeasible from the risk perspective for financiers and developers. Changes to the PPA were announced after the project approval and during these months the negotiation process for the PPA, involving NBET, AFC and the developers, did not result in any progress. Following a request from AFC in June 2019, GCF granted AFC an extension to meet the deadlines; however, at the time of writing there is no certainty whether the PPA negotiation process will be completed in the coming months.

V. GCF portfolio review

52. Figure 15 shows a breakdown of the 50 approved projects that have not started implementation, in terms of time elapsed since the respective Board approval. In particular, eight of those projects were approved more than two years ago.

53. Out of those eight projects, three are being delayed pending AMA effectiveness. FP038 (GEEREF NeXt) by the European Investment Bank (EIB) is pending AMA effectiveness until potential changes to the proposed fund are agreed. FP026 by EIB (Madagascar) is also pending AMA effectiveness, contingent to GEEREF NeXt. For FP027, the AE, Deutsche Bank, learned that more investors would be interested in the programme if it were extended to additional African countries; the Secretariat will therefore elevate this request from the AE to the Board so that the programme can reach its full potential.

54. The remaining five projects were pending AMA effectiveness for a long time but are back on track. FP012 (Mali) and FP014 (Tajikistan and Uzbekistan) by World Bank are under FAA negotiations. The other three projects are scheduled to start implementation by the end of 2019.

55. In terms of the 61 projects under implementation, the implementation maturity is an average of 1.3 years, while the total implementation period is estimated as 8.3 years.

Figure 15: Projects that have not started implementation since Board approval (in USD)

Pre-implementation				Under implementation	
4 projects (88M)	4 projects (485M)	10 projects (486M)	32 projects (1.5B)	61 Projects (2.7B)	
More than 3 years	2-3 years	1-2 years	Less than 1 year	1.3 years	8.3 years
Since Board approval				Implementation maturity	Implementation period

Abbreviations: B = billion, M = million.

Notes: The years of implementation maturity are as at 31 August 2019. The implementation period is an estimated average, based on information provided by accredited entities or funding proposals.

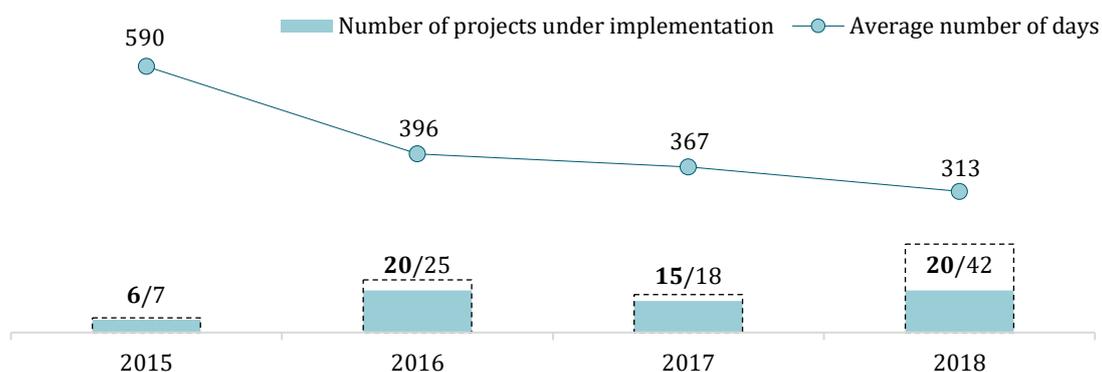

56. With regard to the time taken from Board approval to implementation, figure 15 shows a steady decline in the average number of days over the past four years. The average number of days for projects to be approved in 2015 was 590, but this has decreased to 313 for those

approved in 2018 because legal agreement forms and procedures are gradually being standardized.

57. For the 10 projects that started implementation during the reporting period from 1 May to 31 August 2019, it took an average of 438 days from Board approval to implementation. The two projects that have been pending AMA effectiveness for a long time since Board approval in 2016 and 2017 had a considerable effect on the rise in the average number of days. It took an average 952 days for those two projects, while an average of 309 days was spent for the remaining 8 projects.

58. From Board approval to FAA execution, 180 days are generally granted, if (i) the AMA has become effective³⁷ and (ii) internal approval of an AE is obtained at the time of Board approval. For the submission of a certification or legal opinion on internal approval by an AE, if not submitted prior to Board approval, 120 days are given prior to the commencement of FAA negotiation. From FAA execution to implementation, 90 days are generally given as per the respective FAAs.

Figure 16: Number of projects under implementation and average time taken from Board approval to implementation, by approval year

Notes: The number of projects under implementation is non-cumulative as at 31 August 2019, and the denominators indicate the number of projects approved per year.

59. The Secretariat has been continuing its efforts to strengthen portfolio management activities. The portfolio performance, including the review of annual performance reports for 2018 and the review of the Readiness Programme outcomes, will be reported to the Board at its twenty-fourth meeting via the annual portfolio performance report (document GCF/B.24/Inf.04).

60. The work on development of a portfolio performance management system (PPMS) has continued since the establishment of a Secretariat-wide working group in March 2019. The PPMS will help to assess the implementation performance of projects as well as the overall health of the portfolio.

61. As per decision B.22/13,³⁸ the Secretariat has been making efforts in developing an integrated results management framework (RMF) to define the GCF “fit-for-purpose” results management approach and complete the results architecture. The new RMF, through the

³⁷ Execution or effectiveness of AMAs is a prerequisite for commencement of FAA negotiations.

³⁸ The Board, through decision B.22/13, requested the Secretariat to present for the Board’s consideration a revised results management framework that integrates relevant Board decisions, policies and frameworks related to results management across the GCF process cycles at its twenty-fourth meeting.

integration of the current RMF, performance measurement frameworks and relevant components of the investment framework, will be presented to the Board at its twenty-fifth meeting.

VI. Key observations and conclusions

62. With the Board's approval of ten funding proposals at B.23, the GCF portfolio now comprises 111 projects in 99 countries for a total of USD 5.2 billion of GCF funding. The number of projects under implementation has increased and stands at 61 as of 31 August 2019, accounting for USD 2.7 billion or 51 per cent of approved GCF funding.

63. A total of USD 650 million has been disbursed, accounting for 24 per cent of the GCF funding for projects under implementation. The estimated amount of cumulative disbursement is projected to fall in a range of USD 826–1,004 million by the end of 2019.

64. Following initial resource mobilization targets, 41 per cent of GCF funding is allocated to the private sector and 59 per cent to the public sector. On a thematic basis, 63 per cent is allocated to mitigation projects and 37 per cent to adaptation projects; while 66 per cent of GCF funding for adaptation projects is allocated for LDCs, SIDS and/or African States.

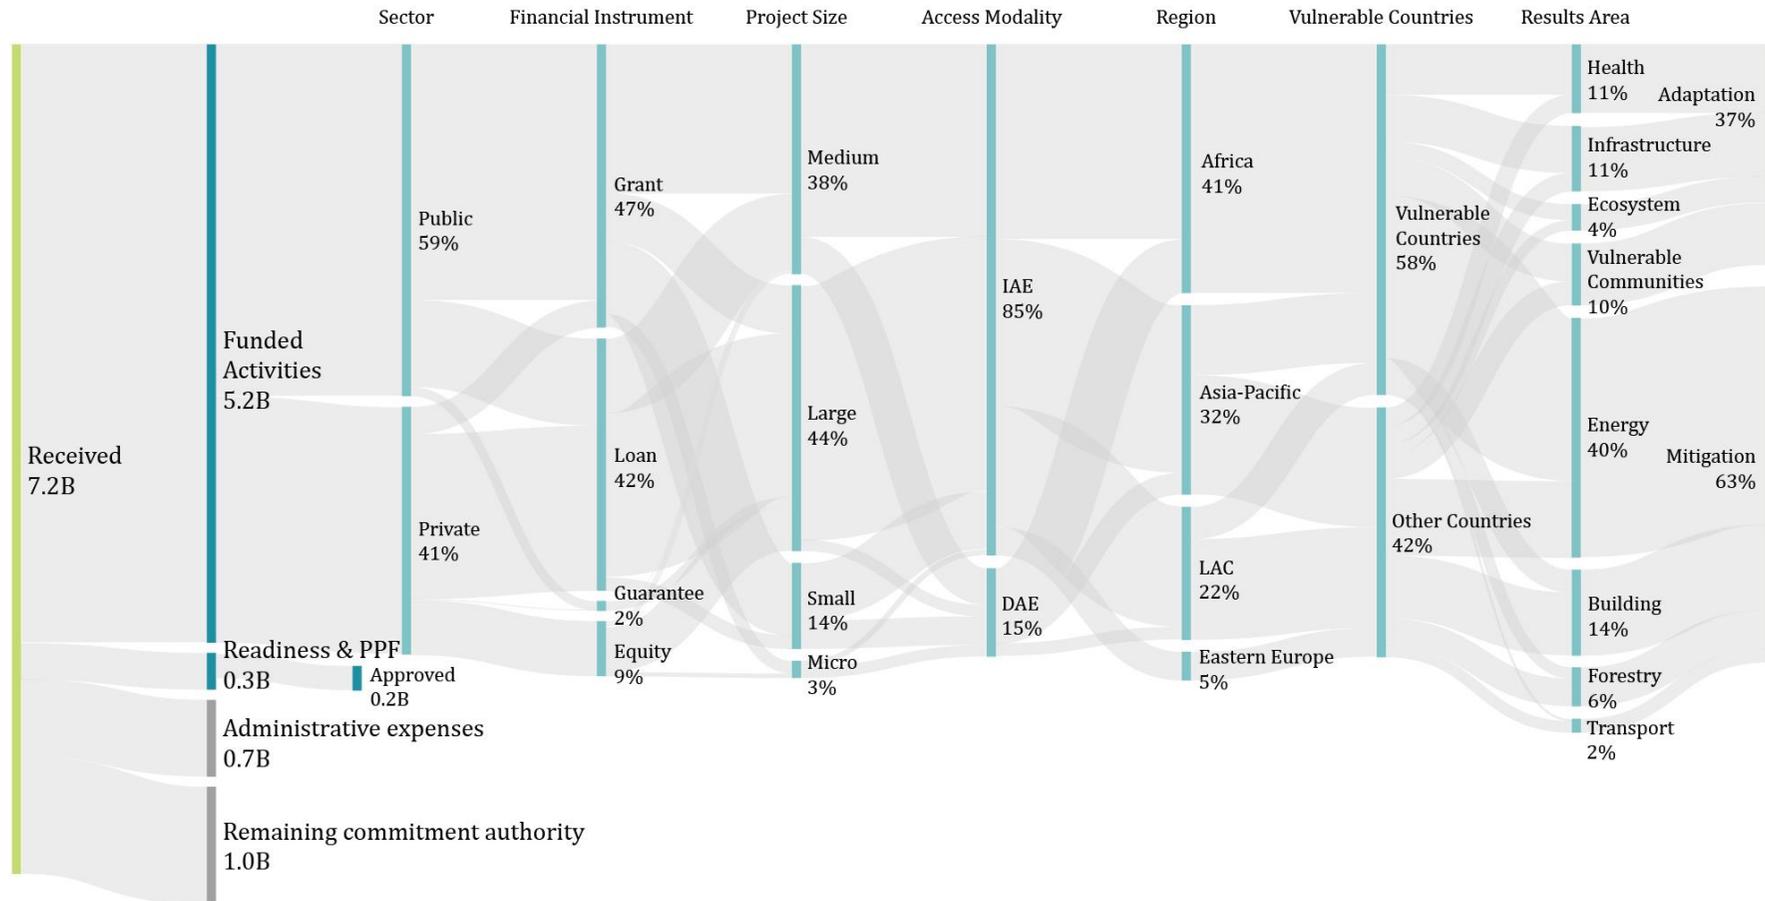

65. In terms of the Readiness Programme, the Secretariat has approved a total of 270 projects covering 126 countries with a total funding of USD 160 million. Out of the 270 projects, 246 are under implementation and 39 have been completed, and these have received disbursements of USD 63 million.

66. In terms of the PPF, the Secretariat has approved a total of 25 projects covering 23 countries with a total funding of USD 16 million. Out of the 25 projects, 21 are under implementation and these have received disbursements of USD 9 million.

67. The Secretariat has continued to take measures to strengthen its portfolio management capabilities. A PPMS is being developed to monitor and assess the implementation performance of the projects and portfolio. It will not only help in the adoption of corrective measures but will also effectively monitor and evaluate the outcomes and impacts of the GCF portfolio.

68. An integrated RMF is to be presented for the Board's consideration at its twenty-fifth meeting.

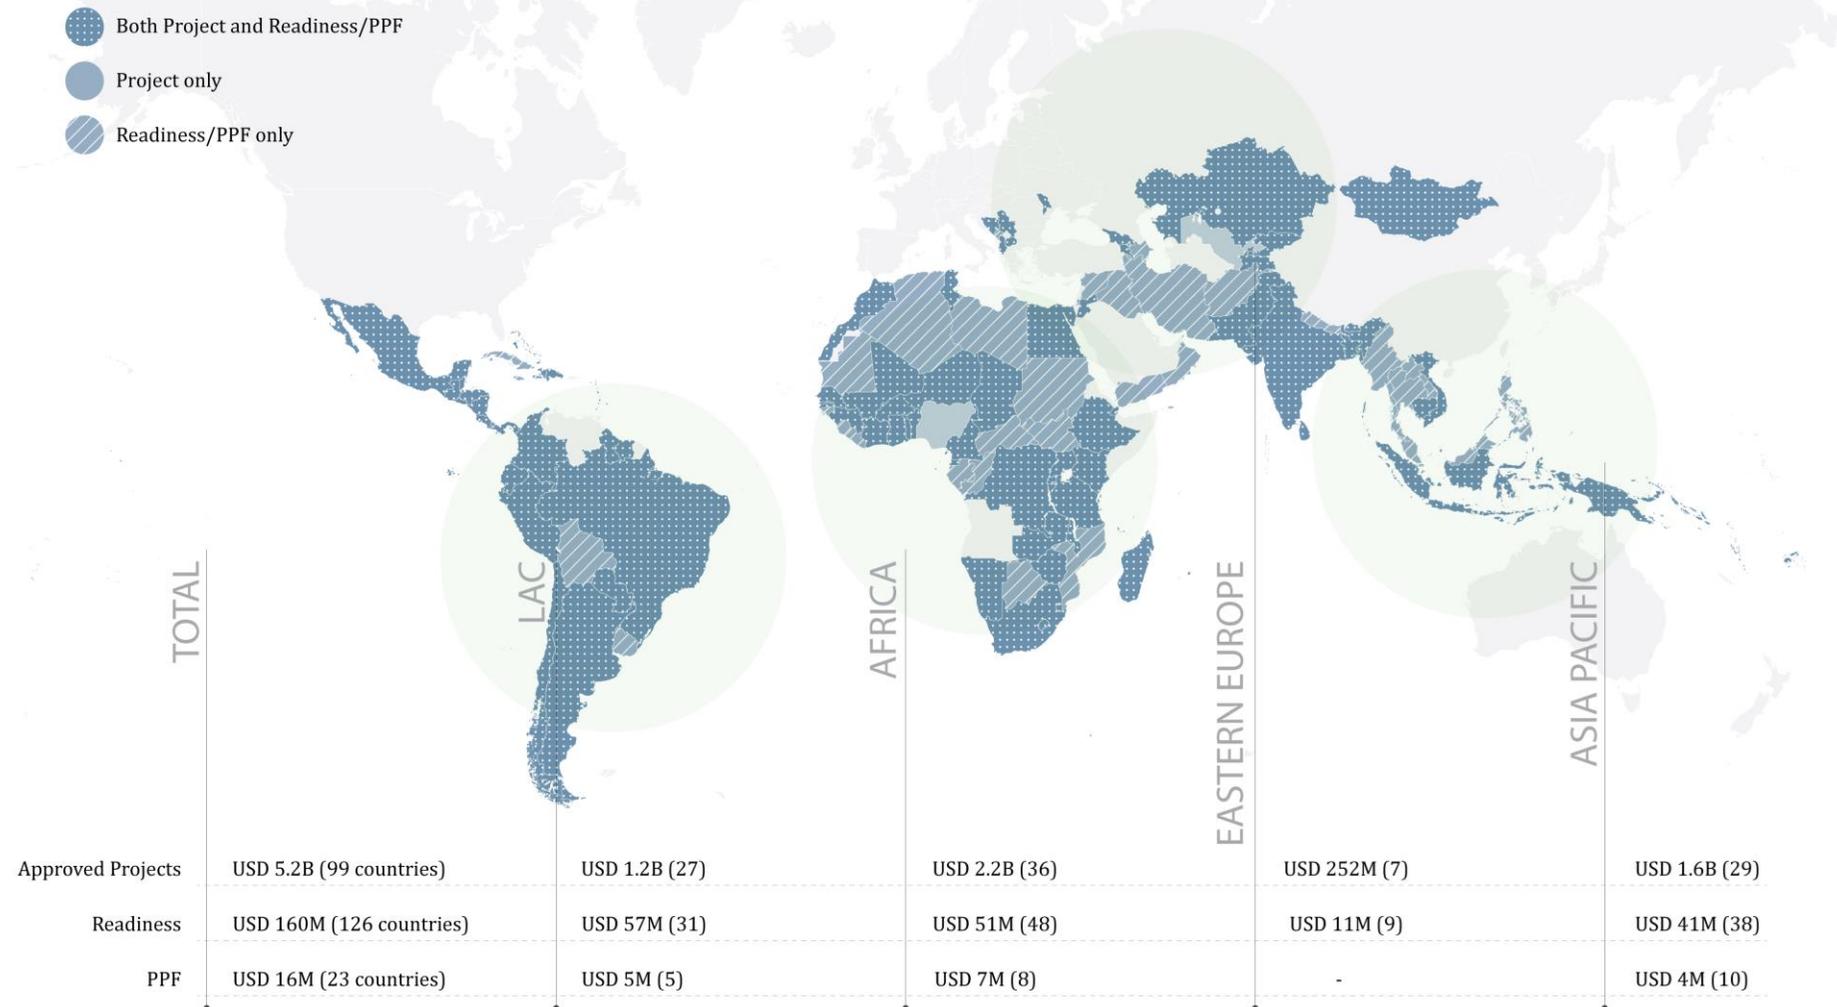

Annex I: Overview of the GCF funding flow

Abbreviations: B = billion, building = buildings, cities, industries and appliances, DAE = direct access entity, ecosystem = ecosystems and ecosystem services, energy = energy generation and access, forestry = forests and land use, health = health, food and water security, IAE = international access entity, infrastructure = infrastructure and built environment, LAC = Latin America and the Caribbean, PPF = project preparation facility, Readiness = Readiness and Preparatory Support Programme, vulnerable communities = livelihoods of people and communities.

Notes: USD 0.3 billion was allocated to the Readiness Programme and PPF, of which USD 160 million was approved for the Readiness Programme and USD 16 million for PPF by the Secretariat.

Annex II: Country coverage of the GCF portfolio

Abbreviations: B = billion, LAC = Latin America and the Caribbean, M = million, PPF = Project Preparation Facility.

Annex IV: Status of fulfilment of conditions applied to approved projects

1. Table 1 presents:
 - (a) For approved projects without a signed funded activity agreement (FAA), the status of the fulfilment of conditions to be met prior to execution;
 - (b) For approved projects with a signed but not effective FAA, the status of the fulfilment of conditions for the effectiveness of the FAA;
 - (c) For approved projects with a signed and effective FAA, the status of the fulfilment of conditions for the first disbursement; and
 - (d) For approved projects that have been disbursed, the date of first disbursement.
2. For the avoidance of doubt, table 1 does not include the status of:
 - (a) The conditions adopted by the Board and applicable to all projects relating to the completion of all legal due diligence (except in cases where the FAA has been executed, as the satisfaction of this condition is an ongoing process that will only be met once an FAA is ready to be executed);
 - (b) The project/programme-specific conditions adopted by the Board for which no expressed time frame for satisfaction has been stated, and for which time frames shall be agreed by the Secretariat and the accredited entity prior to the execution of the FAA;
 - (c) The other conditions adopted by the Board, which are expected to be met over different time periods following the effectiveness of the FAA (including, but not limited to, conditions to be met prior to disbursement other than the first disbursement);
 - (d) The conditions that are not included in the lists of conditions and recommendations annexed to decisions B.11/11, B.13/23, B.14/07, B.15/07, B.16/02, B.18/23, B.19/12, B.21/15, B.22/07 and B.23/10;¹ and
 - (e) Matters referred to in the relevant annexes to the abovementioned decisions that are not conditions (e.g. covenants with which the accredited entity will need to comply at different times between Board approval and the end of project implementation; these matters will be addressed in the relevant FAA).
3. The types of conditions referred to in paragraph 2(b), (c) and (d) above include, but are not limited to:
 - (a) The conditions approved by the Board when accrediting the relevant accredited entity;
 - (b) The conditions relating to the environmental and social safeguards necessary for the relevant project/programme;
 - (c) Securing and/or reporting on co-financing;
 - (d) The technical conditions to enhance the quality and/or impact of proposals and mitigating implementation risks (e.g. the financial management capacity of the executing entity, the operation and maintenance plan, etc.); and

¹ For example, certain conditions to be met prior to the execution and effectiveness of the FAA are set out only in the term sheets for the relevant project/programme.

-
- (e) The conditions and covenants that set out the types of activities that GCF cannot, in the context of a specific project/programme, finance (e.g. the financing of scholarships, and disaster response and relief activities).

Table 1: Status of fulfilment of conditions for approved projects in the GCF portfolio (as at 31 August 2019)

Type	Time frame	Description of condition	Status	Remarks
1 Pending AMA effectiveness				
FP026: Sustainable Landscapes in Eastern Madagascar (CI and EIB)				
The FAA was signed in March 2018 and became effective in May 2018 (for CI FAA)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Partly met (met for CI)	
		Finalization of legal documentation	Partly met (met for CI)	AMA with EIB signed on 26 September 2017 but not yet effective AMA with CI signed on 13 July 2017 and effective on 17 August 2017 CI FAA signed on 16 March 2018 and effective on 8 May 2018 EIB FAA negotiations pending
FP027: Universal Green Energy Access Programme (UGEAP) (Deutsche Bank)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Not met	
		Finalization of legal documentation	Not met	AMA signed on 23 May 2017 but not yet effective FAA negotiations have been halted since May 2018 for commercial reasons
Project-specific	Conditions to be met prior to the execution of the FAA	The lead syndication partner of UGEAP underwrites no less than 20% of a syndicated loan for an eligible investment against a maximum 70% of UGEAP take, with the possibility of the lead syndication partner selling down to no less than 15% of the loan principal, on a pro rata basis with UGEAP. "Market-out" clauses would be applicable to both the lead syndication partner and UGEAP	Not met	To be included in the FAA or other relevant legal documentation
		Deutsche Bank AG's 3% participation in the capital of UGEAP is invested on a pro rata basis with GCF on each closing date	Not met	To be included in the FAA or other relevant legal documentation
FP038: GEEREF NeXt (EIB)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Not met	
		Finalization of legal documentation	Not met	AMA with EIB signed on 26 September 2017 but not yet effective Funding proposal under restructuring
FP049: Building the Climate Resilience of Food Insecure Smallholder Farmers through Integrated Management of Climate Risk (R4) (WFP)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Met	
		Finalization of legal documentation	Not met	AMA signed on 23 November 2018 but not yet effective A template FAA is under negotiation with WFP
Project-specific		Inclusion of the following covenants in the FAA:	Not met	

Type	Time frame	Description of condition	Status	Remarks
		<ul style="list-style-type: none"> The AE shall create a grievance redress mechanism that will, in addition to the Independent Redress Mechanism of the GCF and the redress mechanism of the AE, be able to effectively receive and resolve grievances due to the project, and shall inform the GCF Secretariat, in the APRs, of how the existence and access details to the grievance redress mechanism have been communicated to the affected or potentially affected peoples and communities 		
FP067: Building climate resilience of vulnerable and food insecure communities through capacity strengthening and livelihood diversification in mountainous regions of Tajikistan (WFP)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Met	
		Finalization of legal documentation	Not met	AMA signed on 23 November 2018 but not yet effective A template FAA is under negotiation with WFP
FP080: Zambia Renewable Energy Financing Framework (AfDB)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Not met	Internal approvals obtained AfDB to share copies of approval with GCF closer to the date of AMA effectiveness
		Finalization of legal documentation	Not met	AMA signed on 8 November 2017 but not yet effective FAA under preparation
Project-specific		Inclusion of the following covenants in the FAA: <ul style="list-style-type: none"> The AE shall develop and submit to the Government of Zambia (with a copy to the Secretariat), within two years after the execution of the funded activity agreement, a plan to enhance the Zambian enabling environment for solar energy penetration, including promoting training facilities for technicians and promoters, value chain schemes that promote small and medium-sized enterprises capable of selling, maintaining and repairing systems, market and awareness schemes to promote the use of solar systems by communities, and knowledge sharing schemes within the financial community to increase the knowledge of investment analysts on solar energy. The plan shall be developed through a consultative process with the Government of Zambia taking the lead and the AE supporting through its policy dialogue, in order to ensure full buy-in for its adoption and implementation 	Not met	To be included in the FAA or other relevant legal documentation
FP092: Programme for Integrated Development and Adaptation to Climate Change in the Niger Basin (PIDACC/NB) (AfDB)				

Type	Time frame	Description of condition	Status	Remarks
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Not met	
		Finalization of legal documentation	Not met	
FP093: Yeleen Rural Electrification Project in Burkina Faso (AfDB)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Not met	
		Finalization of legal documentation	Not met	AMA signed on 8 November 2017 but not yet effective
FP096: DRC Green Mini-Grid Program (AfDB)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Not met	
		Finalization of legal documentation	Not met	AMA signed on 8 November 2017 but not yet effective FAA negotiations have not yet commenced
FP114: Program on Affirmative Finance Action for Women in Africa (AFAWA): Financing climate resilient agricultural practices in Ghana (AfDB)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Not met	
		Finalization of legal documentation	Not met	AMA signed on 8 November 2017 but not yet effective A template FAA is being negotiated with AfDB and near completion
SAP002: Climate services and diversification of climate sensitive livelihoods to empower food insecure and vulnerable communities in the Kyrgyz Republic (WFP)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Not met	
		Finalization of legal documentation	Not met	AMA signed on 23 November 2018 but not yet effective A template FAA is being negotiated with WFP
SAP007: Integrated climate risk management for food security and livelihoods in Zimbabwe focusing on Masvingo and Rushinga Districts (WFP)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Not met	
		Finalization of legal documentation	Not met	AMA signed on 23 November 2018 but not yet effective A template FAA is being negotiated with WFP
2 Pending FAA execution				
FP012: Africa Hydromet Program – Strengthening Climate Resilience in Sub-Saharan Africa: Mali Country Project (World Bank)				
General	Conditions to be met prior to the execution of the FAA	AE internal approval	Met	
		Finalization of legal documentation	Not met	Following Board approval of FP012 at B.13 (in June 2016), the AMA became effective on 1 February 2019 The first draft FAA was shared with World Bank
FP014: Project to support the World Bank’s Climate Adaptation and Mitigation Program for the Aral Sea Basin (CAMP4ASB) in Tajikistan and Uzbekistan (World Bank)				
General	Conditions to be met prior to the	AE internal approval	Not met	

Type	Time frame	Description of condition	Status	Remarks
	execution of the FAA	Finalization of legal documentation	Not met	Following Board approval of FP014 at B.13 (in June 2016), the AMA became effective on 1 February 2019 and at the request of the AE, the deadline for submission of an AE internal approval certificate has been extended to 29 September 2019
		<p>The AE provides to the Board, through the Secretariat, satisfactory evidence of the following:</p> <ul style="list-style-type: none"> • Details on how the project intends to achieve transformational change and provide a theory of change, including long-term sustainability criteria; • Further details on how the long-term financial sustainability of the project will be secured, including an assessment of the opportunities for the mobilization of future finances; • Details on the key barriers, including legal and regulatory frameworks, which may impact project effectiveness and efficiency; • Details on the selection criteria that will be used to inform approval or otherwise of subinvestments; • Details on how the AE will ensure that the project activities will complement and not overlap with existing projects in the region, as well as the project's intended interaction with other projects financed by the World Bank Group; • An overview of the local political context and a detailed assessment of political and governance risks in each of the project's host countries; • Details on how the project will fully integrate gender considerations into the project's approach and its results targets; • Details on the rationale behind the project's use of grant funding by the GCF as opposed to other instruments (e.g. loans); and • Details on the stakeholder groups consulted by the AE during the design of the project 	Met

Project-specific		<ul style="list-style-type: none"> As per the project ESMF, the AE will review and approve safeguards instruments for Category A subprojects in accordance with its policies and procedures. This review will include adequacy of public disclosure and consultations. Public disclosure and consultations will be done by the subproject owner as well as the EE following the provisions of the ESMF. When the EE sends the draft, as well as final, safeguards instruments to the AE for disclosure, the AE will undertake to forward these safeguards instruments to the GCF Secretariat for further dissemination to the Board and active observers and for posting on the GCF website. The relevant safeguards instruments for the Category A subprojects should be publicly disclosed in a timely manner so as to ensure transparent and meaningful consultation prior to when the EE approves the Category A subprojects. The AE will follow its policies and procedures in making the disclosure and endeavour to ensure that the period between disclosure and approval be no less than 60 calendar days. The AE will be responsible for monitoring EE compliance with this requirement in accordance with the environmental, social and access to information policies of the AE. Stakeholders will provide their comments and inputs directly to the EE; and Within 180 days of the GCF Board approval of the FAA, or the date of effectiveness of the AMA entered into with the relevant AE, whichever is later, the AE and GCF Secretariat shall agree on a process, consistent with the environmental, social and access to information policies of the AE, to enable communication to the AE of any comments on Category A subprojects and the safeguard documents prepared for such subprojects' safeguard documents include, as appropriate, environmental and social impacts assessment and environmental and social management plan and, as appropriate, the land acquisition and/or resettlement action plan, indigenous peoples plan and any other associated information required to be prepared and disclosed in accordance with the environmental, social and 	Met
