

## Environmental and Social Impact Assessment Annex 2

### Exclusion List

The following list provides the list of activities that the project will not support:

- The project will not support activities that result in a negative change to existing legitimate tenure rights
- The project will not involve the involuntary resettlement of households
- The project will not support the construction of medium to large infrastructure (e.g. dams above 5m in height)
- Activities that may increase greenhouse gas emissions substantially
- The project will not support the direct supply of agro-chemicals
- The project will not use non-locally adapted species.
- Activities that support the clearing of native/ primary forests.
- Introduction of non-native species, unless they are already present in the vicinity or known from similar settings to be non-invasive, and the introduction of genetically modified plant varieties into a designated project area.
- New settlements or expansion of existing settlements outside the area defined
- Activities that create adverse significant impacts on local people, including ethnic groups, that are not acceptable to them, even with the mitigation measures developed in their participation
- Activities resulting in significant damage or loss to cultural property, including sites with archeological (prehistoric), paleontological, historical religious cultural and unique natural values
- Forestry operations on land or in watersheds in a manner that is likely to contribute to villages' increased vulnerability to natural disasters
- Conversion or degradation of natural habitat and any unsustainable exploitation of natural resources, including NTFPs.
- Production or trade in wildlife products or any other product/ activities deemed illegal under Georgian laws, regulations, or international conventions and agreements, or subject to international bans.
- The production, processing, handling, storage or sale of tobacco or products containing tobacco
- Trade in any products with businesses engaged in exploitative environmental or social behaviour, or engaged in any unauthorized activities, especially related to natural resources.
- Crops that require intensive use of potentially harmful substances.
