

ACCOUNTING

The accounting report must be completed annually by the user in the implementation phase of each project.

To enter accounting, you must click on the "Accounting" button located in the upper left.

It will address the list of projects with verified emissions reduce.

Each project has two buttons on the right side that will direct the user to the detailed list of serials and the window to cancel reduced emissions.

LIST OF ASSIGNED SERIALS

This button directs the user to consult the list of assigned serials.

In this window, the user can consult the serials generated by the system for one year per initiative, based on the verified reduced emissions, which have been previously reported.
