Dr. Timothy Afful Koomson
CHIEF CLIMATE FINANCE OFFICER
Coordinator: Green Climate Fund
African Development Bank
Climate Change and Growth Department
01 BP 1387 Abidjan 01
Côte d'Ivoire

Dear Dr. Koomson,

Subject: Co-financing of the project: “Enhancing Climate Information Systems for Resilient Development in Liberia (Liberia CIS)”

The Government of Liberia would like to express its interest to support the project titled “*Enhancing Climate Information Systems for Resilient Development in Liberia (Liberia CIS)*”. We understand that this proposal is being submitted to the Green Climate Fund and believe that the project is key to building resilience of vulnerable populations across Liberia to climate change impacts.

With this letter I would like to confirm our commitment to provide a total of USD1, 000,000 to support the implementation of the project over the project duration of five years. This co-financing is conditional upon approval of the proposed Project by the GCF Board.

This new and additional co-financing will be leveraged to complement GCF resources for: (i) strengthening institutional coordination of hydro met services (Outcome 1), (ii) improving capacity of hydro-meteorological systems (Outcome 2), (iii) enhancing service delivery of LMHS (Outcome 3) and (iv) co-ordinating Project management (Outcome 4).

The co-financing to the project will be allocated in the project budget to the implementing partner/executing entity to the project, the Environmental Protection Agency (EPA).

We thank the Green Climate Fund for the opportunity to address current financing gaps that are hampering Liberia’s efforts to effectively address climate change vulnerabilities and design adaptation solutions that will integrate green growth, environmental resilience and adaptation into national development planning through effective climate information systems.

Please accept the assurance of my highest esteem and consideration as we strive for environmental sustainability for now and successive generation.

Kind regards,

Nathaniel T. Blama, Sr., L.H.D., MBA
EXECUTIVE DIRECTOR/CEO
