# Status of the Green Climate Fund resources

---

## **Summary**

This document provides an update for the Board on the resources of the GCF, including the initial resource mobilization and first replenishment. It covers the status of the contribution agreements/arrangements signed, the current commitment authority highlighting the current cash and promissory notes available, and the forecast of available resources for commitment and disbursement. Also included is the financial report of the GCF Trust Fund, prepared by the World Bank in its capacity as the Trustee of the GCF, which encompasses financial information as at 30 September 2020.

## I. Introduction

1. At the twenty-sixth meeting of the Board (B.26), the Secretariat, reporting on the status of the GCF resources to the Board, stated that out of 49 contributors for the initial resource mobilization (IRM), 43 countries, 3 regions and 1 city had confirmed part or all of their pledges by executing contribution agreements/arrangements.<sup>1</sup> These amounted to approximately USD 8.2 billion equivalent of the total pledged amount of USD 10.3 billion equivalent.
2. The Secretariat also reported that, out of 31 contributors for the first replenishment of the GCF (GCF-1), 18 countries had confirmed part or all of their pledges. These amounted to approximately USD 3.8 billion equivalent of the total pledged amount of USD 9.9 billion equivalent, including the credit earned due to early payment and/or encashment.

## II. Status of contributions

### 2.1 Status of contributions

3. During the reporting period, the total pledged amount for GCF-1 increased by USD 112.7 million. Liechtenstein made an additional pledge of CHF 50,000. Austria pledged its additional contribution of EUR 100 million, making a five-fold increase compared to the IRM. As at 30 September 2020, the total pledged amount for GCF-1 is USD 9.9 billion equivalent, including the credit earned due to early payment and/or encashment. In addition, Qatar Fund for Development announced its intention to pledge total of USD 3 million (including loan and grant) for GCF-1, subject to finalizing the agreement.
4. For the IRM, since the reporting at B.26, Viet Nam has confirmed its pledge by signing a contribution agreement. Three countries have not confirmed part or all of their pledges. Table 1 shows a list of countries with part or the full amount of their pledges remaining to be confirmed for the IRM.

5. For GCF-1, since the reporting at B.26, Canada, Japan, Republic of Korea, and the United Kingdom of Great Britain and Northern Ireland have confirmed part or the full amount of their pledges, amounting to USD 3.6 billion equivalent. As at 30 September 2020, a total of 21 countries have confirmed part or all of their GCF-1 pledges, amounting to USD 7.4 billion

<sup>1</sup> As per decision B.24/02, annex I, paragraphs 2(d) and (f), pledges are confirmed by fully executed contribution agreements/arrangements. The fully executed contribution agreement/arrangement refers to unqualified and unconditioned contribution agreements/arrangements with fixed payment or deposit schedules and signed by all parties.

6. Annex I and annex II contain the full up-to-date status of the pledges for the IRM and GCF-1, respectively.

### III. Status of resources

7. The GCF Trust Fund Financial Report prepared by the Trustee is contained in annex III.

8. As per the Policy for contributions to the Green Climate Fund for the first replenishment approved at B.24,<sup>2</sup> the GCF commitment authority for GCF-1 became effective on 19 December 2019 by surpassing the 25 per cent effectiveness threshold required to start allocating GCF-1 resources.

#### 3.1 Forecast of available resources

9. On the basis of the confirmed pledges as at 30 September 2020 and the information from the Trustee, the Secretariat's forecast of available resources for funding decisions (commitments) and disbursements (available cash) is shown in tables 3–6 below. The tables

<sup>2</sup> See decision B.24/02, annex I, paragraph 2(d).

also show the cash and promissory notes (PNs) forecast to be received at the end of each calendar year.

10. Table 3 illustrates the level of resources available for funding decisions (commitment authority) as at 30 September 2020. This includes the actual cash in the GCF Trust Fund and the PNs deposited in a designated custody account minus the amount for funding decisions taken and grant contribution in respect of the cushion for non-performing loans by loan contributors.<sup>3</sup> GCF assets include both cash and PNs, and the total amount of available cash and deposited PNs provides the basis for funding decisions by the Board.

**Table 3: Total commitment authority as at 30 September 2020 (millions of United States dollar equivalent<sup>a</sup>)**

	Cash	Promissory notes <sup>a</sup>	Net funding commitments <sup>b</sup>	Loan cushion <sup>c</sup>	Total available
<b>Commitment authority</b>	4,374	3,196	-5,803	-83	1,684

<sup>a</sup> Amount is in United States dollar equivalent based on the Trustee's GCF Trust Fund Report as at 30 September 2020.

<sup>b</sup> Funding decisions include Board decisions on funding proposals, the Readiness and Preparatory Support Programme, the Project Preparation Facility, accredited entity management fees, the administrative budget (including for the Board, independent units, and Trustee) and the foreign exchange commitment risk buffer, minus the disbursed amounts.

<sup>c</sup> Grant contributions in respect of the cushion for non-performing loans made by loan contributors include Canada (CAD 22 million) and France (EUR 57 million) for the initial resource mobilization.

11. Table 4 presents the forecast of additional available resources for funding decisions for the GCF-1 budgetary period (2020–2023), based on the confirmed pledges.

**Table 4: Total projected additional commitment authority as at 30 September 2020 (millions of United States dollar equivalent<sup>a</sup>)**

<b>Loans</b>	-	-	-	-
<b>Total additional commitment authority for the year</b>	386	1,589	1,569	1,694

<sup>a</sup> United States dollar equivalent is based on the initial resource mobilization and the GCF first replenishment reference exchange rates established for the High-level Pledging Conference (see documents GCF/BM-2015/Inf.01/Rev.01 and GCF/B.24/11, annex II).

<sup>b</sup> Projections include initial resource mobilization contributions from Italy (EUR 23 million for 2021).

12. Tables 5 and 6 present the schedule of the IRM and GCF-1 projected additional cash available for disbursement, illustrating the additional possible disbursement levels for each year. This includes the cash payments and the cash paid in from encashment of PNs. As explained in the Policy for contributions to the Green Climate Fund for the first replenishment, the encashment schedule of PNs, which is not to exceed nine years or to take place after 2023 for the IRM and 2028 for GCF-1, is to be agreed between the contributors and the Secretariat based on the contribution agreements/arrangements and is subject to revision upon agreement between the contributors and the Secretariat.

<sup>3</sup> As per decision B.24/02, annex I, paragraph 32(f)(ii), in accordance with the prudential debt limit considerations and principle of no cross-subsidization, a portion of the total grant contributions provided by loan contributors would be in respect of a cushion for non-performing loans, to be held as part of the assets of the GCF Trust Fund, and available for use to make payments to loan contributors in the event that reflows from outgoing loans are not sufficient to cover repayments due to contributors.

**Table 5: Total projected additional cash available for disbursement from the initial resource mobilization as at 30 September 2020<sup>a</sup> (millions of United States dollar equivalent<sup>b</sup>)**

Calendar year	2020	2021	2022	2023
Cash contributions	-	31	-	-
Promissory note encashment	190	372	980	644
Loans	-	-	-	-
<b>Total additional cash available</b>	190	403	980	644

<sup>a</sup> These projections are based on the signed contribution agreements/arrangements as at 30 September 2020 and do not include cash available at 30 September, cushions or newly signed agreements after this date. Also, the revised promissory note encashment schedule for the United Kingdom of Great Britain and Northern Ireland is currently under consultation. Therefore, this projection is tentative, and the total promissory note encashment for 2020–2023 is subject to change upon the agreement of the revised schedule.

<sup>b</sup> United States dollar equivalent is based on the initial resource mobilization reference exchange rates established for the High-level Pledging Conference (see documents GCF/BM-2015/Inf.01/Rev.01).

**Table 6: Total projected additional cash available for disbursement from the GCF first replenishment as at 30 September 2020<sup>a</sup> (millions of United States dollar equivalent<sup>b</sup>)**

Calendar year	2020	2021	2022	2023	2024	2025	2026	2027	2028

Promissory note encashment	334	423	663	670	504	454	363	333	241

<b>Total additional cash available</b>	345	600	857	873	584	528	437	356	241

<sup>a</sup> These projections are based on the signed contribution agreements/arrangements as at 30 September 2020 and do not include cash available at 30 September, cushions or newly signed agreements after this date. Also, the promissory note encashment amount from the Republic of Korea and the United Kingdom of Great Britain and Northern Ireland is not reflected here as the schedule is under consultation.

<sup>b</sup> United States dollar equivalent is based on the first replenishment of the GCF reference exchange rates established for the High-level Pledging Conference (see document GCF/B.24/11, annex II).

### 3.2 Impact of foreign exchange variations for the initial resource mobilization

13. As at 30 September 2020, the total amount of confirmed contributions for the IRM was USD 8.3 billion equivalent, based on the reference exchange rate established for the GCF High-level Pledging Conference of the IRM. The actual amount of contributions (cash and PNs) received by the GCF as at 30 September 2020 was USD 7.2 billion, which represents approximately USD 8.3 billion equivalent of confirmed contributions. The approximately USD 1.1 billion difference between the above-mentioned sums is due to the impact of foreign exchange differences between the reference exchange rate and the spot rate used to change non-USD contributions into USD. The remaining total amount of contributions to be received is USD 31 million equivalent (based on the reference exchange rates established for the High-level Pledging Conference of the IRM).

## Annex I: Initial resource mobilization pledge tracker

### Status of pledges for the GCF initial resource mobilization (IRM) as at 30 September 2020

Calculated on basis of reference exchange rates established for High-Level Pledging Conference in 2014 (GCF/BM-2015/Inf.01/Rev.01).

## 5. Asset Mix and Investment Income

### ASSET MIX

Funds held in trust by the World Bank, as Trustee, are maintained in a commingled investment portfolio (the "Pool") for all trust funds administered by the World Bank. Within this Pool, GCF funds are invested in a short term, high quality fixed income portfolio with an investment horizon of up to one year. As of August 31, 2020, the portfolio is concentrated in government securities, and money market instruments.

As per the investment management strategy developed by the GCF and Trustee, the funds held in trust benefit from the overall application of the Trustee's Sustainable and Responsible Investment (SRI) Statement, which includes the consideration and incorporation of Environmental, Social, and Governance factors into its investment processes.

Per instructions received from GCF, the Trustee maintains cash holdings in EUR. The EUR investments are currently held in cash and money market instruments, as well as short-term European government bills to capture yield-enhancement opportunities.

*Note: The negative position in swaps is primarily due to changes in foreign currency exchange (FX) rates in cross currency basis swaps. Such swap instruments are used to implement currency hedges on bond positions within the portfolio. These hedges remain in place*

#### INVESTMENT RETURNS

The GCF Trust Fund balances are invested in accordance with the investment strategy established for all trust funds administered by the World Bank. On July 1, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. GCF Trust Fund balances are managed such that over the portfolio's investment horizon, the 99% Conditional VaR, is no worse than -25 bps (-0.25%).

The investment return on GCF Trust Fund USD balances during CY20 (January 1, 2020 to September 30, 2020) was 0.80%.

Given the negative interest rate environment in Eurozone, the return for the Euro cash holdings over CY20 (January 1, 2020 to September 30, 2020) was negative 0.56%.
