11 September 2020

Mr Stephen Panfil  
Vice President  
Green Climate Fund Implementing Agency  
Conservation International  
2011 Crystal Drive #500  
Arlington, VA 22202  
United State of America

Dear Sir

**LETTER OF COMMITMENT**

1. The Citizen Enterprise Development Agency (CEDA) is committed to the proposed project for which the Full Proposal is being submitted to the Green Climate Fund (GCF) by Conservation International Entitled Ecosystem and Livelihood Resilience in Botswana's Communal Rangelands.
2. Our organization is willing to partner with Conservation International and relevant Ministries working to achieve the project goals of sustainable low-emissions development paths in the three proposed project areas of Ngamiland, Kgalagadi, and Bobirwa. Specifically, the CEDA will participate and support activities in line with our own mandate and goals of those that relate to Component 3 of the proposed project to "sustain adaptive capacity through value chain development and financial policy transformation". We see our involvement in this project as supporting broader Vision 2036 goals and our own desire to build a more climate-resilient pipeline of fundable citizen initiatives.
3. We therefore welcome the project and look forward to integrating the lessons into criteria for climate-resilient livestock farming in Botswana and in the future.

Yours faithfully

  
**THABO THAMANE**  
**CHIEF EXECUTIVE OFFICER**

Cc: Mr Boniface Mphethle, GCF National Designates Authority, MFED
