Dear Mr Kurukulasuriya:

Subject: Commitment for Operations and Maintenance Plan and Costs for the Green Climate Fund (GCF) financed project titled "Monrovia Metropolitan Climate Resilience Project (MMCRP)"

The Ministry of Mines and Energy would like to confirm its commitment to support and finance the operations and maintenance activities of the **Monrovia Metropolitan Climate Resilience Project (MMCRP)** to be implemented in Monrovia, as detailed in the Operations and Maintenance Plan submitted to the Green Climate Fund together with the Funding Proposal.

The Ministry of Mines and Energy, as the institution responsible for Coastal Zone Management in Liberia, acknowledges that the infrastructure and facilities to be implemented by the project will require operations and maintenance for the revetment at West Point, the Education and Innovation Center and the Cold Storage Facilities post project financing period. The Ministry commits to ensure that these are O&M activities, estimated to cost USD62,151.19 (Sixty Two Thousand One Hundred Fifty One Dollars Nineteen Cents United States Dollars) per year, are financed and undertaken as per the details in the Operations and Maintenance Plan.

The Ministry also commits to work with the communities and their structures to build their capacity and involve them in the implementation of the specified O&M activities.

We thank the Green Climate Fund for the opportunity to address one of the critical development challenges in Liberia through this project.

Kind regards

Very Truly Yours,

[Signature]
Gesler E. Murray
MINISTER
