RE: Co-Financing for GCF project “Transforming Eastern Province of Rwanda through Adaptation (TREPA)”.

Founded in 1950, World Vision is a relief, development and advocacy organization dedicated to working with children, families and communities to overcome poverty and injustice. Its 46,000 staff members in nearly 100 countries are committed to working with the world’s most vulnerable people. World Vision began working in Rwanda in a humanitarian capacity in 1994 and since 2000 World Vision Rwanda has broadened its scope from relief and rehabilitation to long-term and grant based community-based development and environmental friendly programs in 28 districts across Rwanda. The organization is also implementing emergency response projects in 6 Congolese Refugee Camps.

World Vision is one of the implementing entities for the proposed project entitled **“Transforming Eastern Province of Rwanda through Adaptation (TREPA)”** led by the International Union for Conservation of Nature (IUCN) to be funded by GCF. World Vision responsibilities will be leading **Output 2.1: Farmers’ groups strengthened to adopt climate resilient land use practices with access to market and finances.** To support the implementation of this project, World Vision is committing to a Co-financing of 5% cash of the total budget for Output 2.1. This translates to **\$102,502.35**, in addition World Vision will provide in-kind contribution equivalent to **\$205,004.7** through its existing livelihood and resilience projects in Eastern Province to support TREPA Project interventions.

World Vision looks forward to a continued partnership with International Union for Conservation of Nature (IUCN) through **“Transforming Eastern Province of Rwanda through Adaptation (TREPA)” Project.**

Yours sincerely,

Sean Kerrigan
National Director
World Vision Rwanda.
