Reference: Funding proposal for the Eastern province in Rwanda.

Dear GCF Secretariat,

Greetings from DUTERIMBERE-IMF PLC. We are a private Financial Service institution legally registered in Rwanda. Our vision is to improve the livelihood of our clients in particular in rural areas in Rwanda through access to financial services. We have worked on inclusive finance, especially for women and the rural population since 2005 in line with the overall country strategy on financial inclusion and transformation of the agricultural sector.

We subscribe to the objectives and activities of the Green Climate fund in general and of the specific project for the Eastern province in Rwanda. Therefore, we endorse the project through the participation of ICCO Cooperation and offer our commitment to support the access to finance component of the project by collaborating in terms of staff time and other in-kind contributions as well as the portfolio invested in Agriculture in Eastern Province equivalent to 703,913,867 over the five year project period. Our lending is subject to appropriate loan assessment by our staff members and loan agreement procedures following our internal standards.

We stay in touch for further development!

Best regards!
