# Status of the GCF pipeline, including the status of Project Preparation Facility requests

---

## **Summary**

This document provides an update on the GCF pipeline of projects and programmes, including the status of Project Preparation Facility applications, for the reporting period of 1 January to 30 April 2021.

---

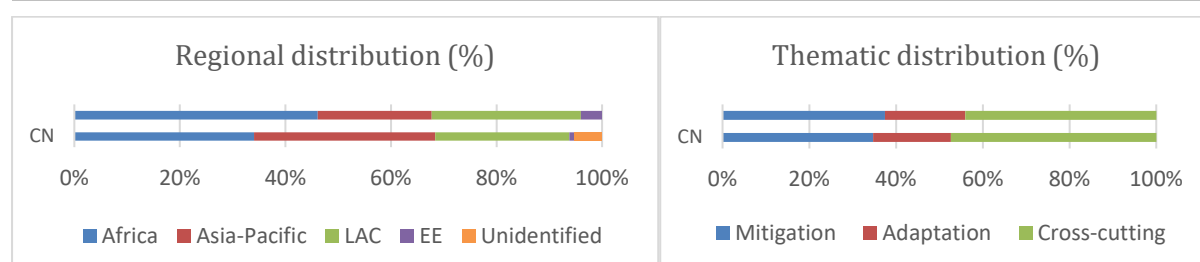

## Table of Contents

Executive summary: snapshot of the GCF pipeline	1
I. Overall status of the GCF pipeline	2
1.1 Funding proposal pipeline	2
1.2 Concept note pipeline	6
II. Status of the pipeline of projects from direct access entities and the Project Preparation Facility	7
III. Status of the simplified approval process pilot scheme	7
IV. Status of active requests for proposals	8
4.1 Enhancing direct access	9
4.2 Pilot programme to support micro, small and medium-sized enterprises	9
4.3 Mobilizing funds at scale	10
4.4 REDD-plus results-based payments	10
V. Status of pipeline knowledge management	11
Annex I: List of funding proposals	12
Annex II: List of Project Preparation Facility applications	17

## Executive summary: snapshot of the GCF pipeline

This executive summary provides a snapshot of the GCF pipeline as at 30 April 2021, comprising funding proposals and concept notes submitted to the Secretariat. The key tables and figures below show the sectoral, regional and thematic breakdown of funding proposals and concept notes as well as the current status of active requests for proposal and the simplified approval process (SAP) pilot scheme.

Sectoral distribution	Funding proposals		Concept notes	
	GCF funding requested (million USD)	Number of proposals	GCF funding requested (million USD)	Number of concept notes
<b>Public</b>	3,973.0	60	9,165.7	249
<b>Private</b>	2,442.7	28	7,433.9	107
<b>Total</b>	6,415.7	88	16,599.6	356
<b>(% from DAE)</b>	21.2%	37.5%	26.3%	38.8%

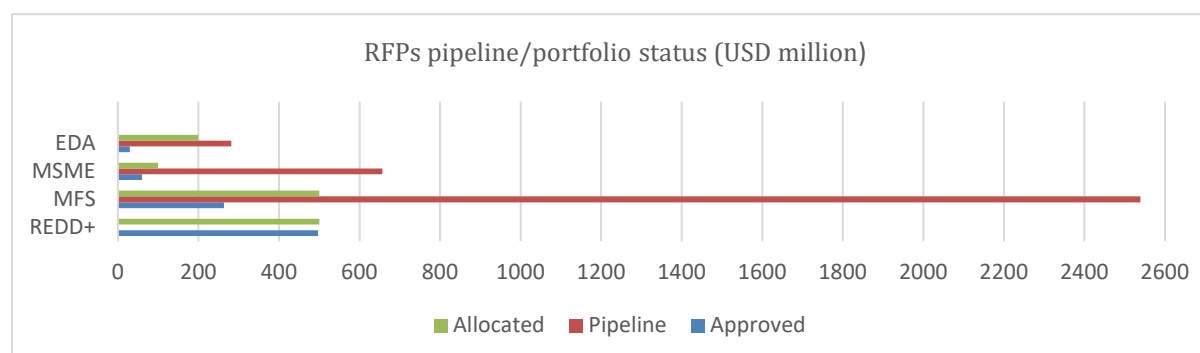

Abbreviations: DAE = direct access entity, EE = Eastern Europe, LAC = Latin America and the Caribbean.

Within the pipeline, funding proposals and concept notes submitted under active requests for proposals and the SAP pilot scheme are as follows:

		Allocation		Pipeline		Approved	
		Amount (million USD)	No.	Funding requested (million USD)	No. (FP+CN)	Funding approved (million USD)	No.
<b>Active RFPs</b>	EDA	200	min. 10	281.6	14 (6+8)	30	2
	MSME I	100	N/A	657.0	22 (0+22)	60	3
	MFS	500	N/A	2,539.1	27 (9+18)	263.4	5
	REDD-plus	500	min. 3	TBC <sup>a</sup>	4 (0+4)	496.7	8

		Pipeline		Approved	
		Funding requested (million USD)	No. (FP+CN)	Funding approved (million USD)	No.
<b>Pilot scheme</b>	SAP	940.4	102 (8+94)	208.3	23

Abbreviations: CN = concept note, EDA = enhancing direct access, FP = funding proposal, MFS = mobilizing funds at scale, MSME = micro, small and medium-sized enterprise, N/A = not applicable, RFP = request for proposal, SAP = simplified approval process, TBC = to be confirmed.

<sup>a</sup> The GCF Secretariat is analysing opportunities for the continuation of the REDD-plus RBPs programme for Board consideration during 2021. The financing amount of REDD-plus results-based payment projects are indicated as 'TBC' because at the funding proposal stage, the amount is determined only after assessment and application of the scorecard by the Secretariat and the independent Technical Advisory Panel, and at the concept note stage it is not requested in the current REDD-plus results-based payment concept note template.

## I. Overall status of the GCF pipeline

### 1.1 Funding proposal pipeline

1. At its eleventh meeting, the Board requested the Secretariat to provide an update of the pipeline portfolio and to submit it for information to the Board as part of the documentation submitted for every Board meeting.<sup>1</sup> This status report responds to the Board’s request and provides an update for the reporting period of 1 January to 30 April 2021.

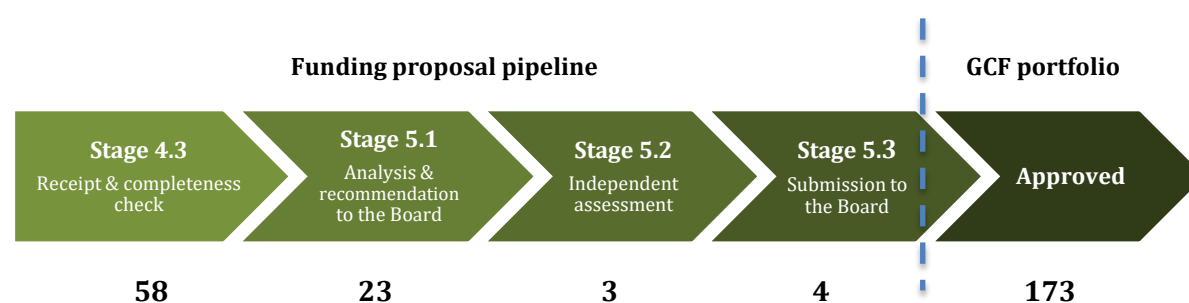

2. As at 30 April 2021,<sup>2</sup> the GCF pipeline is comprised of 88 public and private sector funding proposals, which request a total of USD 6.4 billion in GCF funding to support projects and programmes totalling USD 24.9 billion when taking co-financing into account.<sup>3</sup>

3. Table 1 presents an overview of the pipeline, broken down into different sectors, and figure 1 presents the status of the funding proposals in the pipeline with respect to their level of progress in the GCF due diligence process. The geographical distribution of the pipeline is presented in figures 2 and 3.<sup>4</sup> In addition, a further breakdown of the geographical distribution of the pipeline by the least developed countries (LDCs), small island developing States (SIDS) and African States can be found in figures 3.1, 3.2 and 3.3, respectively.

**Table 1: GCF pipeline overview for funding proposals**

		<b>Public</b>	<b>Private</b>
<b>Number</b>	Number of funding proposals	60	28
	- New proposals during the reporting period (1 Jan. to 30 Apr. 2021)	14	6
<b>Amount</b>	GCF funding (USD million)	3,973.0	2,442.7
	Co-financing (USD million)	9,713.9	8,819.1
	<b>Total investment (GCF + co-financing, USD million)</b>	<b>13,686.9</b>	<b>11,261.7</b>

**Figure 1: Status of funding proposal progress**

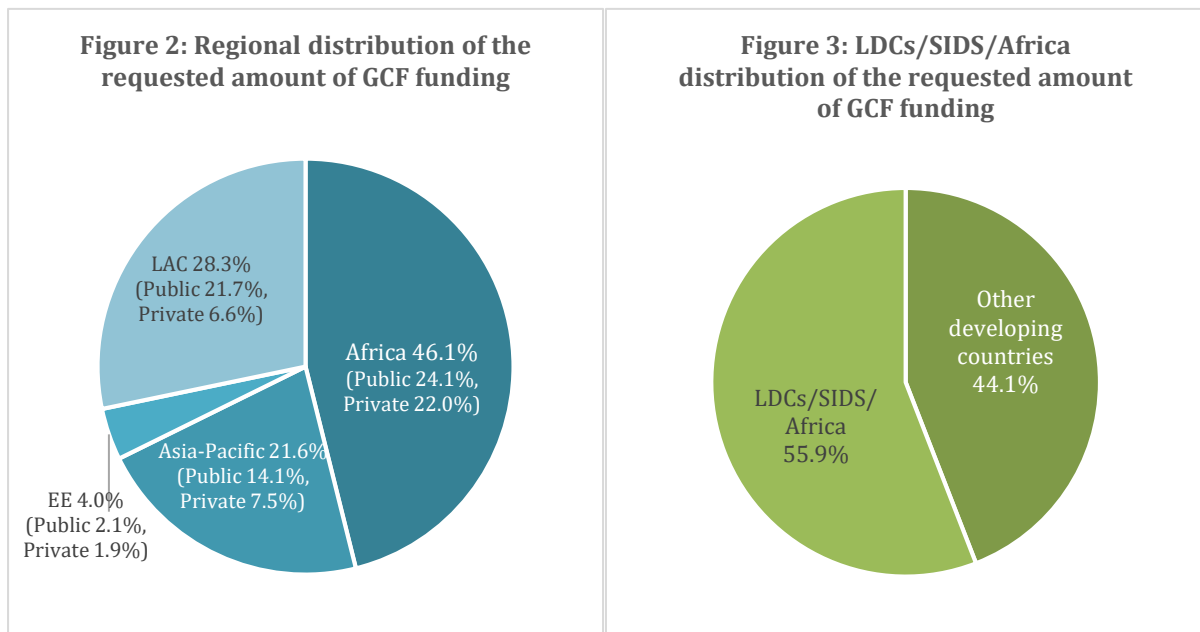

Note: Stage numbers are according to the updated project and programme cycle (annex IV to decision B.17/09).

<sup>1</sup> Decision B.11/11, paragraph (g).

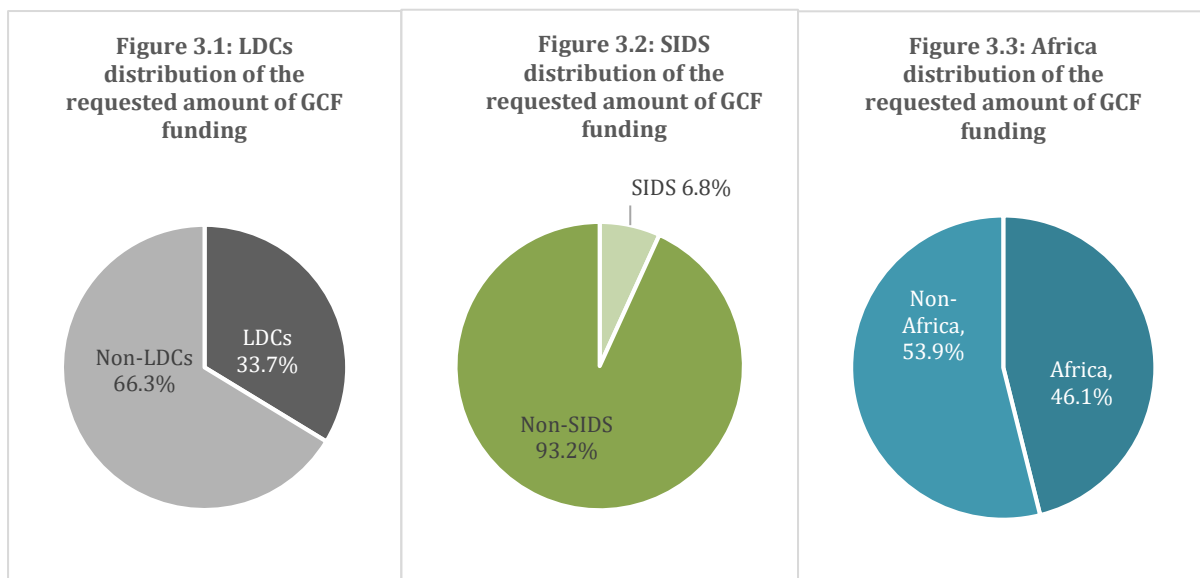

<sup>2</sup> The requested GCF amount in EUR is converted into USD at the United Nations Operational Rates of Exchange effective as at 30 April 2021 (1 EUR = 1.172333 USD).

<sup>3</sup> The full list of funding proposals is provided in document GCF/B.29/Inf.05/Add.01 titled “Status of the GCF pipeline – Addendum: List of funding proposals and project preparation facility requests”. Owing to the deliberative nature of the document, the addendum is made available to the Board on a limited distribution basis.

<sup>4</sup> In the case of multi-country projects, the breakdown is based on the simple attribution according to the number of countries marked in each proposal, unless the per cent of each country’s allocation is provided by accredited entities.

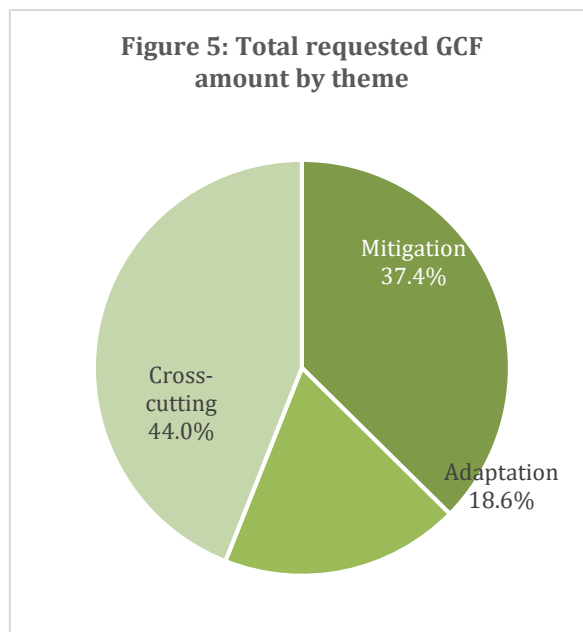

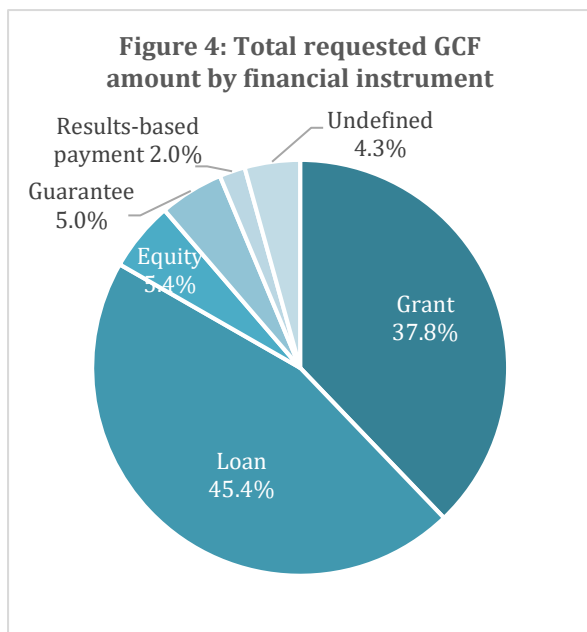

*Abbreviations:* EE = Eastern Europe, LAC = Latin America and the Caribbean, LDCs = least developed countries, SIDS = small island developing States.

*Abbreviations:* LDCs = least developed countries, SIDS = small island developing States.

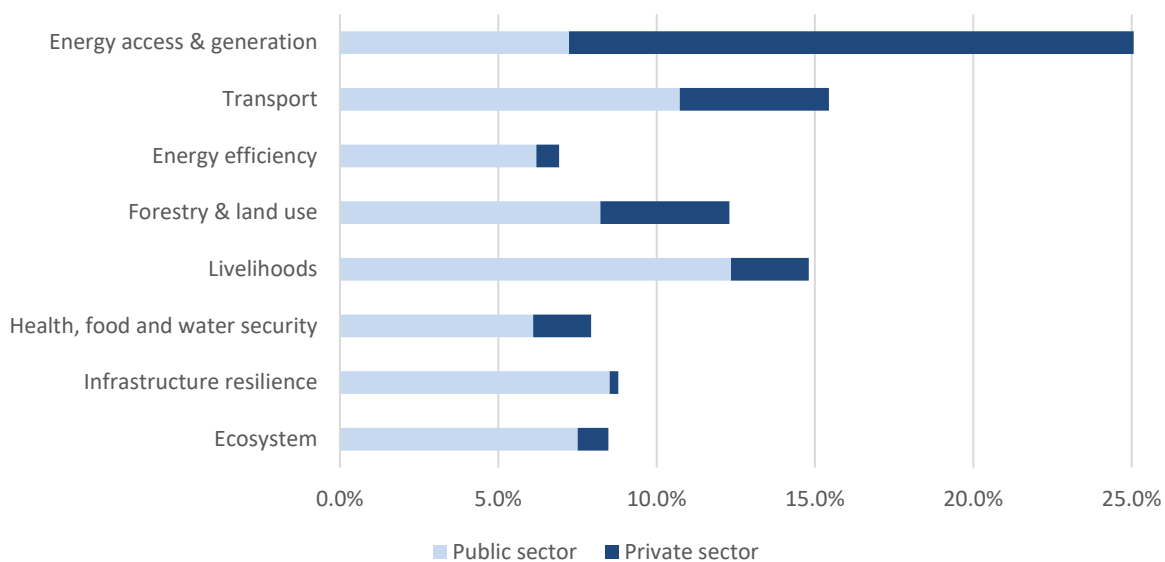

4. The distribution of the pipeline by financial instrument and theme is provided in figures 4 and 5.<sup>5</sup>

<sup>5</sup> A mitigation and adaptation breakdown of cross-cutting funding proposals is not available in the pipeline stage owing to insufficient information available in the current funding proposal template. The Secretariat will address this issue with the newly revised funding proposal template.

5. The distribution of the requested funding of the pipeline across the eight results areas of GCF is presented in figure 6.

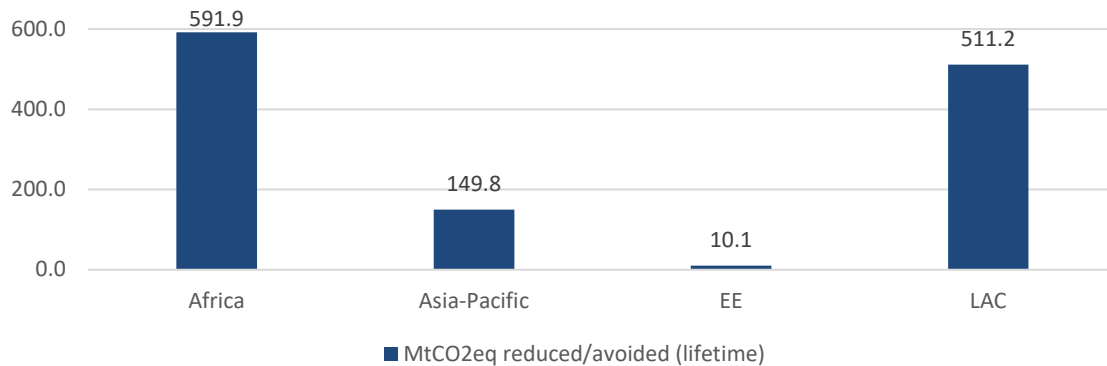

**Figure 6: Requested GCF funding by results area (percentage)<sup>a</sup>**

<sup>a</sup>The breakdown of GCF funding into the eight results areas is based on the simple attribution according to the number of results areas marked in each proposal, unless otherwise noted in the proposals.

6. The climate impact potential of the pipeline in terms of the contribution to the GCF core indicators is presented in figures 7 and 8.

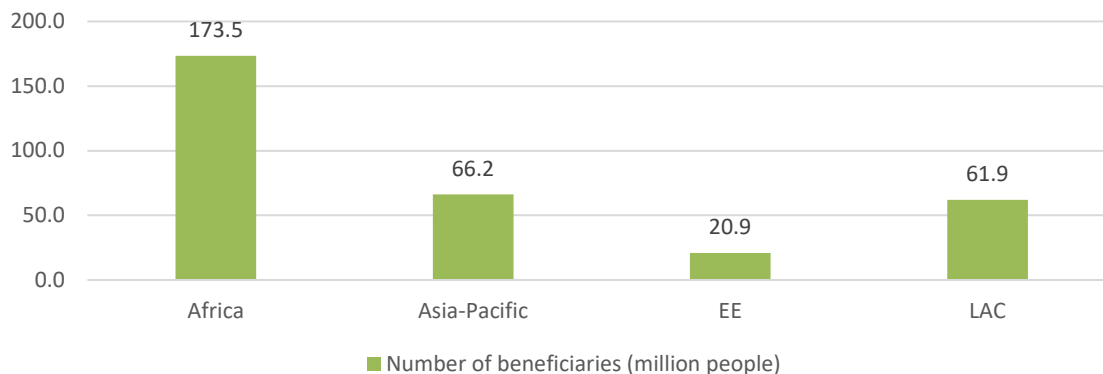

**Figure 7: Estimated climate impact potential by region (total: 1,263.0 MtCO<sub>2</sub>eq)<sup>a</sup>**

*Abbreviations:* EE = Eastern Europe, LAC = Latin America and the Caribbean, MtCO<sub>2</sub>eq = million tonnes of carbon dioxide equivalent.

<sup>a</sup> At the pipeline stage, the estimated data on the impact potential may be preliminary and is expected to increase.

**Figure 8: Estimated adaptation impact potential by region (total: 322.5 million people)<sup>a</sup>**

*Abbreviations:* EE = Eastern Europe, LAC = Latin America and the Caribbean.

<sup>a</sup> At the pipeline stage, the estimated data on the impact potential may be preliminary and is expected to increase.

7. The list of the funding proposals in the pipeline at different stages of the review process is presented in annex I. Many of the submitted funding proposals were drawn from the country programme briefs and entity work programmes, the status of which is also presented in annex I.

8. The average time taken for funding proposals during the reporting period, from the date of first funding proposal submission to the date of first feedback from the Secretariat, was 36 days for all accredited entities (AEs), and 37 days for direct access entities (DAEs). The average time taken of all approved projects since B.11, from the first submission of the funding proposal for Board approval, was 347 days for all AEs, and 283 days for DAEs. This has led to subsequent disbursements of USD 1,753.0 million (excluding AE fees) for all AEs, including USD 230.9 million for DAEs, as at 30 April 2021.

## 1.2 Concept note pipeline

9. The GCF pipeline for concept notes as at the reporting date is shown in table 2.

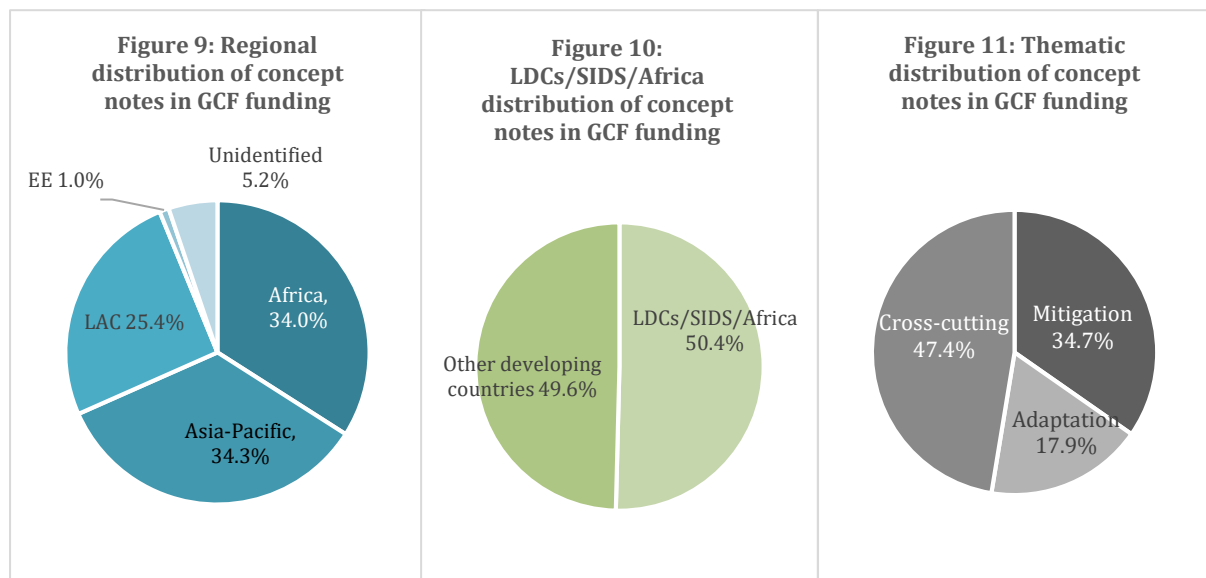

10. Of the 356 concept notes registered in the GCF pipeline, 63 have subsequently requested project preparation support from the Project Preparation Facility (PPF) and details are included in section II below.

**Table 2: GCF pipeline overview for concept notes<sup>a</sup>**

		Public	Private
<b>Number</b>	Number of concept notes	249	107
	- New proposals during the reporting period (1 Jan to 30 Apr 2021)	25	13
<b>Amount</b>	GCF funding (million USD)	9,165.7	7,433.9
	Co-financing (million USD)	19,052.3	18,413.0
	<b>Total investment (GCF + co-financing, million USD)</b>	<b>28,218.1</b>	<b>25,846.9</b>

<sup>a</sup> The full list of funding proposals is provided in document GCF/B.29/Inf.05/Add.02 titled “Status of the GCF pipeline – Addendum: List of concept notes”. Owing to the deliberative nature of the document, the addendum is made available to the Board on a limited distribution basis.

11. Figures 9, 10<sup>6</sup> and 11 present the geographical distribution, including the distribution of funding to LDCs/SIDS/Africa, and the thematic distribution of the requested GCF funding for the concept notes.

*Abbreviations:* EE = Eastern Europe, LAC = Latin America and the Caribbean, LDCs = least developed countries, SIDS = small island developing States.

12. During the reporting period, the average time taken from the date of the concept note submission to the date when feedback is delivered was 44 days for all AEs, as well as for DAEs.

<sup>6</sup> The further breakdowns for LDCs, SIDS and Africa, respectively, are as follows:  
For LDCs: 27.5 per cent LDCs, and 72.5 per cent non-LDCs;  
For SIDS: 9.4 per cent SIDS, and 90.6 per cent non-SIDS; and  
For Africa: 34.0 per cent Africa, and 66.0 per cent non-Africa.

## II. Status of the pipeline of projects from direct access entities and the Project Preparation Facility

13. The GCF pipeline for DAEs as at the reporting date is shown in table 3.

**Table 3: GCF pipeline for direct access entities**

	Number of funding proposals	Percentage (in relation to total pipeline)	Requested GCF funding (USD million)	Percentage (in relation to total investment)
<b>Funding proposals</b>	33	37.5	1,361.2	21.2
<b>Concept notes</b>	140	39.3	4,366.8	26.3

14. The Secretariat continues to work closely with DAEs and national designated authorities (NDAs)/focal points in developing their pipelines of proposals to be submitted to GCF.

15. At the date of reporting, the Secretariat was working on 61 active PPF applications with letters of no objection from the NDAs/focal points, of which 37 (60 per cent) are from DAEs. Further information on this pipeline is as follows:

(a) Of these 61 applications:

(i) Forty-one (41) have been approved, including 28 (68 per cent) from DAEs. As at the reporting date, the total approved amount for PPF applications was USD 25.9 million, of which USD 18.4 million had been disbursed:

(1) Of the 41 approved PPFs, (12) funding proposals developed through PPF support have now been submitted to the Secretariat, 5 of these funding proposals have been approved, others are at different stages of review and revision;

(ii) Four (4) PPF applications entered the review and revision stage by the Secretariat following endorsement of the associated concept note by the GCF Climate Investment Committee; and

(iii) Sixteen (16) additional PPF applications are pending the associated underlying project concept note being strengthened and cleared as per the GCF investment criteria, to enable PPF support to be provided.

(b) In addition to the 61 active applications, another 39 PPF applications have been received but are not currently active due to having been withdrawn by the AEs or NDAs, or with no resubmission or communication from the AEs for more than six months. The list of all 100 PPF applications, including those approved, is presented in annex II.

16. Several concerted actions were taken towards improving and expanding the PPF support to more efficiently assist AEs, and particularly DAEs, in the development of project ideas, concept notes and funding proposals for GCF:

(a) The Secretariat has approved the first PPF application for FP development under the recently set up business line, the PPF service, for a DAE. One of the eight rostered independent consultancy firms or consortia that can provide on-demand project preparation services to AEs has been selected and deployed. Additional applications from DAEs are being processed.

(b) In terms of project development technical assistance for project idea or concept note or funding proposal via rostered professional firms, the Secretariat is proactively reaching out to DAEs and NDAs on identifying potential needs as well as streamlining the template and process. Currently, four of such TA assignments are being discussed in terms of the detailed scope of the support.

- (c) A technical guidance for project development is being developed to support AEs in developing PPF applications and GCF projects. This will cover how to organize project preparation activities and include cost benchmarks for different types of project development activities as well as examples and templates of terms of reference for such studies.
- (d) The Secretariat also provided guidance on accessing the new PPF modalities and service rosters during the regional Caribbean dialogue, and has begun preparations for the upcoming regional dialogues in the Pacific.

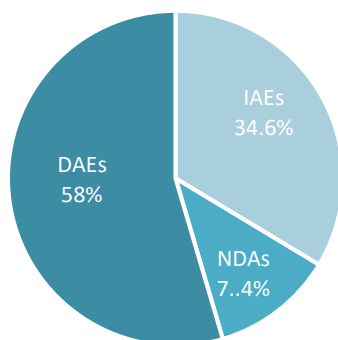

### III. Status of the simplified approval process pilot scheme

17. Since the launch of the simplified approval process (SAP) pilot scheme in November 2017, 23 projects have been approved by the Board, of which 8 are from DAEs and 3 are private sector projects. The approved portfolio of SAP projects amounts to USD 355.7 million, with a GCF financing of USD 208.3 million of GCF funding.

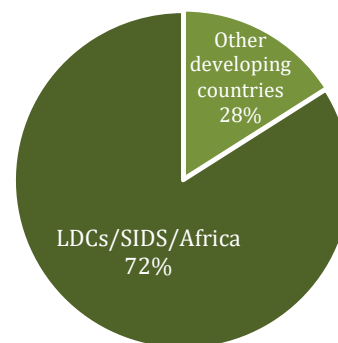

18. As of the reporting date, the SAP pipeline consists of 102 public and private sector concept notes and funding proposals. The pipeline requests GCF funding of USD 90 million, with a total value of approximately USD 2 billion when taking co-financing into account. Of the 102 public and private sector concept notes and funding proposals in the SAP pipeline, 87 are public sector proposals, consisting of 81 concept notes and 6 funding proposals. From the private sector, the SAP pipeline consists of 15 concept notes.

19. In the SAP pipeline, 65.4 per cent of the requested GCF funding is from DAEs and NDAs (see figure 12), and 72 per cent of the requested GCF funding is from LDCs, SIDS and African States (see figure 13).

**Figure 12. Requested GCF funding by access modality (%)**

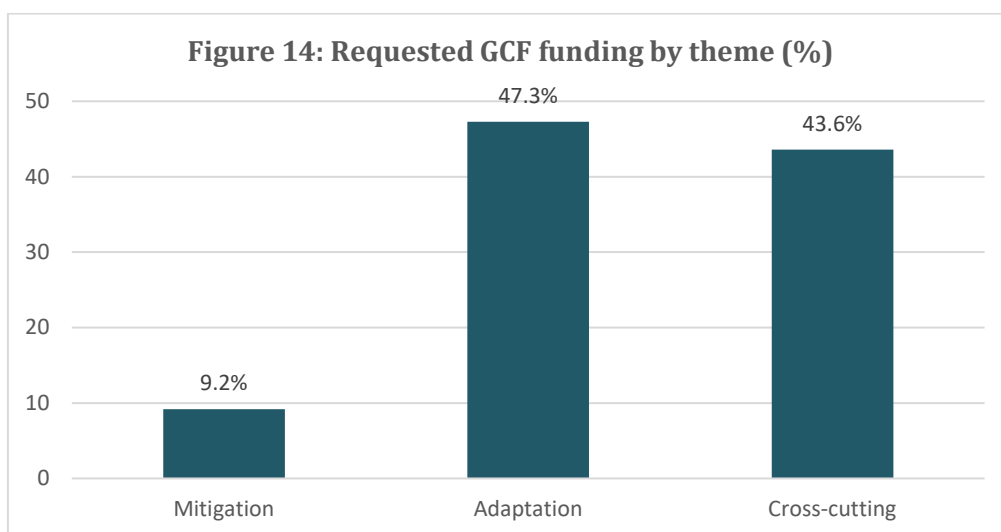

**Figure 13: Requested GCF funding by region (%)**

Abbreviations: DAE = direct access entity, IAE = international accredited entity, LDC = least developed country, NDA = national designated authority, SIDS = small island developing State.

20. Around 90.8 per cent of the requested GCF funding targets adaptation and cross-cutting results (figure 14), focusing on building the resilience of communities through food and water security measures. Many projects aim to undertake ecosystem-based adaptation for communities, while several projects propose strengthening climate information services and early warning systems. A number of projects target mitigation results through small-scale renewable energy solutions.

21. Since the twenty-eight meeting of the Board (B.28), the amount requested to GCF through the SAP has decreased by 1 per cent (from USD 948.5 million to USD 940 million).
22. The average time taken during this reporting period, from the date of an SAP concept note submission by an AE to the date when feedback is delivered from the Secretariat, is 38 days for all AEs, as well as for DAEs.

## IV. Status of active requests for proposals

### 4.1 Enhancing direct access

23. As per decision B.10/04, the Board approved the allocation of USD 200 million for at least 10 pilot proposals under the enhancing direct access request for proposal (RFP). GCF has approved two funding proposals under this pilot amounting to USD 30 million of GCF funding.
24. As at 30 April 2021, the GCF EDA pipeline comprises a total of 14 proposals, which includes six funding proposals and eight concept notes, amounting to USD 281.6 million of requested GCF funding. There are three proposals targetting to be submitted at B.30.
25. The Secretariat continued to develop EDA knowledge products and to engage with countries and AEs to support the submission of EDA proposals, including through the following activities:
- The new Enhancing Direct Access Guidelines for EDA project development with the GCF were published on 18 January 2021. The publication of the EDA guidelines was announced at the two major events- the Global Gobeshona Conference 2021, organized by the International Centre for Climate Change and Development (ICCCAD), Bangladesh on 21 January 2021<sup>7</sup> and the 2021 Climate Adaptation Summit (CAS), an anchoring event on Locally Led Adaptation hosted by the Netherlands on 26 January 2021.
  - The guidelines are available on the GCF website<sup>8</sup> and were circulated to the NDAs, DAEs and other partners as well.
  - The guidelines were translated into French and Spanish and the Secretariat is exploring the possibility to translate them in other additional languages. All translated guidelines will be published on the GCF website.

<sup>7</sup> <https://www.greenclimate.fund/event/locally-led-climate-action-gcf-enhancing-direct-access-eda-pilot>

<sup>8</sup> <https://www.greenclimate.fund/document/eda-guidelines>

## 4.2 Pilot programme to support micro, small and medium-sized enterprises

26. Through decision B.13/22, the Board approved the micro, small and medium-sized enterprise (MSME) pilot RFP, deciding to limit GCF participation in the first tranche to USD 100 million. Following the close of the MSME RFP in August 2016 and through the competitive evaluation process, the Board has approved three funding proposals for a total of USD 60 million. The approved projects are USD 20 million for the “Business loan programme for GHG emissions reduction” proposal (FP028) submitted by Mongolia-based XacBank, to which GCF has disbursed its total commitment; USD 20 million for the “Low-emission climate resilient agriculture risk sharing facility for MSMEs” proposal (FP048) submitted by the Inter-American Development Bank to be implemented in Guatemala and Mexico; and USD 20 million for the “Program on Affirmative Finance Action for Women in Africa (AFAWA): Financing climate resilient agricultural practices in Ghana” proposal (FP114) submitted by the African Development Bank.

27. An overall review of private sector RFPs will be carried in 2021 in line with the updated workplan of the Board, in the context of an assessment of the performance and results of all GCF RFPs.

## 4.3 Mobilizing funds at scale

28. In accordance with decision B.16/03, the Board approved the mobilizing funds at scale (MFS) pilot RFP in 2017, allocating up to USD 500 million to innovative, high-impact projects and programmes that mobilize private sector investment in climate change activities. The RFP was open to AEs and non-accredited entities and attracted 350 concept note submissions from more than 70 countries, with an estimated GCF requested financing of USD 18 billion. The Board has approved USD 60 million for the project “Espejo de Tarapacá” (FP115) submitted by MUFG Bank, Ltd.; USD 25 million for the project “Arbaro Sustainable Forestry Fund” in Ecuador, Ethiopia, Ghana, Paraguay, Peru, Sierra Leone and Uganda submitted by MUFG Bank, Ltd. (FP128); and USD 9.9 million under the SAP for “Scaling Smart, Solar, Energy Access Microgrids in Haiti” submitted by the Nordic Environment Finance Corporation (SAP013). At B.27, the Board approved two additional MFS projects, namely USD 18.5 million for the project “Global Subnational Climate Fund (SnCF Global) – Technical Assistance (TA) Facility submitted by the International Union for Conservation of Nature (FP151) and USD 150 million for the “Global Subnational Climate Fund (SnCF Global) – Equity” submitted by Pegasus Capital Advisors (FP152). The SnCF Global targets a total of 42 countries across the Eastern Europe, Latin America and the Caribbean, Africa and Asia-Pacific regions.

29. The Secretariat continues to engage with proponents of the shortlisted projects towards developing full funding proposals for consideration by the Board. An overall review of private sector RFPs will be carried in 2021 in line with the updated workplan of the Board, in the context of an assessment of the performance and results of all GCF RFPs.

## 4.4 REDD-plus results-based payments

30. Through decision B.18/07, the Board allocated up to USD 500 million to the RFPs for the pilot programme for REDD-plus results-based payments (RBP).

31. Under the REDD-plus Results-Based Payments Pilot Programme launched in October 2017, eight projects (FP100 for Brazil, FP110 for Ecuador, FP120 for Chile, FP121 for Paraguay, FP130 for Indonesia, FP134 for Colombia, FP142 for Argentina and FP144 for Costa Rica) have

been approved by the Board at B.22, B.23, B.24, B.26 and B.27, amounting to total GCF financing of USD 496.7 million.

32. The GCF secretariat is analysing opportunities for the continuation of the REDD-plus Results-Based Payments Pilot Programme and will continue the consultation process through 2021.

## **V. Status of pipeline knowledge management**

33. By decision B.17/09, annex III, the Board requested the Secretariat to develop an online concept note and funding proposal submission portal and to improve data management and analytics, including, for example, the AE submission portal and the NDA portal. Responding to the decision, the Secretariat has enhanced the quality and transparency of the project pipeline by providing more advanced knowledge management systems to the public, stakeholders and internal users.

34. Based on lessons learned from the SAP online submission system since early May 2019, the Secretariat has been working on improving the current system to be more user friendly as well as expanding the online submission system to accept regular concept notes and funding proposals. As a result, the updated online submission system for all proposals – both SAP and proposals under the standard approval process – will be ready to be piloted in the late 2021, and expected to be fully operational soon after adjusting the system based on the feedbacks from the entities during the pilot launching.

35. To further automate the cross-Secretariat assessment workflow of concept notes and funding proposals, and to enhance transparency and collaboration with AEs, the Secretariat developed an online tracking system that provides real-time information on progress and help the Secretariat to identify any bottlenecks in the review process. The tracking system was piloted in the second quarter of 2020, and it has been fully operational for funding proposals by the first half of 2021, communicating with the entities directly via the system.

## Annex I: List of funding proposals

### Funding proposals in the GCF pipeline at different stages of the review process

No.	Sector	Project/programme title	Region	Project/programme	GCF amount (USD) <sup>a</sup>	Financial instrument	Total size (USD)	LDCs/ SIDS/ African States	Theme	Direct/ International access entity	Stage <sup>c</sup>	Impact potential <sup>d</sup>		CP? <sup>e</sup>	EWP? <sup>e</sup>	Year of CN submission	Year of FP submission	SAP	RFP

<b>Subtotal (private)</b>					<b>2,442.7M</b>		<b>11,261.7M</b>													
<b>Overall total (public + private)</b>					<b>6,415.7M</b>		<b>24,948.6M</b>													

*Abbreviations:* CN = concept note, CP = country programme; EDA = enhancing direct access, EE = Eastern Europe, EWP = entity work programme, FP = funding proposal, LAC = Latin America and the Caribbean, LDCs = least developed countries, MFS = mobilizing funds at scale, MSME = micro, small and medium-sized enterprises, SAP = simplified approval process, RFP = request for proposal, SIDS = small island developing States.

<sup>a</sup> The individual funding amounts are rounded to the nearest tenth.

<sup>b</sup> The requested GCF amount in euros is converted into United States dollars at the United Nations Operational Rates of Exchange effective as at 30 April 2021 (1 EUR = 1.172333 USD).

<sup>c</sup> Stage: (4.3) funding proposal receipt and completeness check; (5.1) second-level due diligence by the Secretariat; (5.2) submission to the independent Technical Advisory Panel; and (5.3) submission to the Board. Stage numbers are according to the updated project and programme cycle (decision B.17/09, annex IV).

<sup>d</sup> Since the funding proposal is at an early stage of development, the accredited entity is still in the process of quantifying the mitigation and adaptation impacts.

<sup>e</sup> This table takes into consideration the country programmes (CP) and entity work programmes (EWP) for IRM and GCF-1 submitted to the Secretariat. Please take note that for GCF-1, CPs and EWPs of international accredited entities and regional direct access entities (DAEs) need to be reviewed and endorsed by the Secretariat's Climate Investment Committee, while EWPs of national DAEs are incorporated into the CPs. Information provided in this table should not be interpreted as confirmation of whether a funding proposal is supported by national designated authorities (NDAs)/focal points or accredited entities at the date of publication of this report. Under column CP: (i) "Partly" indicates that a multi-country funding proposal is captured in only part of the country programmes of relevant countries; and (ii) "No" may indicate that the country has not shared a CP with the Secretariat, the draft CP has been shared with the Secretariat but is not yet endorsed by the Climate Investment Committee, or that the funding proposal is not included in the latest version of the CP shared with the Secretariat. It must be noted that funding proposals in early development stages may have been presented to the GCF Secretariat with different titles in EWPs and CPs, hence not allowing the Secretariat to identify them as the same project until further consultations take place with AEs and NDAs or focal points.

<sup>f</sup> The financing amounts of some REDD-plus results-based payment projects can be indicated as "TBC" (to be confirmed) because the amount is determined only after the assessment and application of the scorecard by the Secretariat and the independent Technical Advisory Panel.

<sup>g</sup> As per the updated GCF project/programme cycle indicated in the Programming Manual, the pipelines of national direct access entities are now integrated in the country programmes.

## Annex II: List of Project Preparation Facility applications

### Project Preparation Facility applications in the GCF pipeline at different stages of the review process

No.	Sector	Project name	Region	PPF amount (USD)	Financial instrument	LDCs/SIDS/Africa n States	Theme	Entity type	Latest stage
1	Public	Rural Green Economy and Climate Resilient Development Programme	Africa	1,498,841	Grant	Yes	Cross-cutting	National	7
2	Public	Development of an Integrated, Sustainable and Resilient Agricultural Project to Climate Change	Africa	717,407	Grant	Yes	Cross-cutting	National	
3	Public	Preparatory Assessments for Climate Resilience	Africa	934,185	Grant	Yes	Adaptation	International	
4	Public	Pilot project of hydro-agricultural perimeters development	Africa	439,134	Grant	Yes	Cross-cutting	Regional	
5	Public	Ecosystem and livelihoods resiliency	Africa	365,316	Grant	Yes	Cross-cutting	International

54	Public	Building resilience through the strengthening of climate services and impact-based multi-hazard early warning	Asia-Pacific	401,975	Grant	Yes	Adaptation	International	
55	Public	Promoting the transition to a climate smart livestock sector	Latin America and the Caribbean	355,097	Grant	No	Cross-cutting	International	
56	Public	Developing Climate Resilient Integrated Coastal Zone Management	Latin America and the Caribbean	743,239	Grant	Yes	Adaptation	International	
57	Public	South-South Cooperation for Reducing Deforestation and GHG Emissions through Greening the Brick Sector	Africa	583,890	Grant	Yes	Mitigation	International	
58	Public	WASH and Aquatic Environment Revamping Project	Africa	600,000	Grant	Yes	Cross-cutting	International	
59	Public	Strengthening and completing the funding proposal on "Climate-resilient landscapes for sustainable livelihoods"	Africa	295,800	Grant	Yes	Adaptation	International	
60	Private	Scaling up the deployment of Integrated Utilities Services (IUS) to support energy sector transformation	Latin America and the Caribbean	803,870	Grant	Yes	Mitigation	Regional	

No.	Sector	Project name	Region	PPF amount (USD)	Financial instrument	LDCs/ SIDS/ African States	Theme	Entity type	Latest stage
61	Public	Preparation of the Project "Ecoagricultural Business Solutions for Model Forests"	Africa	555,276	Grant	Yes	Cross-cutting	National	
62	Public	Strengthening and enhancing the application of Environmentally Sound Technologies	Asia-Pacific	1,500,000	Grant	No	Cross-cutting	International	99
63	Public	Preservation and restitution of ecosystem services	Latin America and the Caribbean	704,000	Grant	No	Cross-cutting	International	
64	Public	Building climate change resilience of small-scale and subsistence farmers	Africa	410,000	Grant	Yes	Adaptation	International	
65	Public	Restoring forests and agrosystems	Africa	299,187	Grant	Yes	Cross-cutting	International	
66	Public	Coastal protection project	Africa	928,260	Grant	Yes	Adaptation	International	
67	Public	Enhancing adaptive capacity of local communities and restoring carbon sink potential	Africa	295,826	Grant	Yes	Cross-cutting	International	
68	Public	Catalysing the transformation to a solar-based economy	Latin America and the Caribbean	166,669	Grant	No	Cross-cutting	National	
69	Public	Global Climate Services for Energy	Eastern Europe, Africa	1,028,100	Grant	Yes	Cross-cutting	International	
70	Public	Linking Climate Knowledge to Action for Resilience	Africa	842,497	Grant	Yes	Adaptation	International	
71	Public	Implementation of Integrated Atmospheric Composition Services	Africa	706,200	Grant	Yes	Cross-cutting	International	
72	Public	Accelerating Adoption of Electric Mobility	Latin America and the Caribbean	896,500	Grant	No	Mitigation	International	
73	Public	Reef Landscape Project	Latin America and the Caribbean	486,823	Grant	Yes	Cross-cutting	International	
74	Public	Promotion of energy efficient appliances, lighting and equipment	Asia-Pacific	1,500,000	Grant	Yes	Mitigation	International	
75	Public	Low-emission and Climate-Resilient Dairy Development Project	Africa	210,000	Grant	Yes	Cross-cutting	International	
76	Public	Increased Climate Resilience of rural households and communities	Latin America and the Caribbean	211,704	Grant	Yes	Adaptation	International	
77	Public	Renewable Energy – Solar Photovoltaic Programmatic Solutions	Africa	1,495,000	Repayable Grant	Yes	Mitigation	Regional	
78	Public	Building Resilience in the Water Sector	Africa	450,000	Grant	Yes	Adaptation	International	
79	Public	Increasing Carbon Sinks and Enhancing Climate Resilience of Vulnerable Groups through the Sustainable Management of Peatlands	Asia-Pacific	730,829	Grant	No	Cross-cutting	National	
80	Public	Building resilience of vulnerable farmers and ecosystems	Latin America and the Caribbean	264,800	Grant	No	Adaptation	International	
81	Public	Coastal and Marine Ecosystem Resilience Programme	Asia-Pacific	1,489,381	Grant	Yes	Adaptation	Regional	
82	Public	Programme for Climate-Smart Agroforestry-based Entrepreneurship	Africa	506,738	Grant	Yes	Cross-cutting	National	
83	Public	Enhancing the sustainability of the national energy matrix and the competitiveness of forest production	Latin America and the Caribbean	881,000	Grant	No	Cross-cutting	Regional	

No.	Sector	Project name	Region	PPF amount (USD)	Financial instrument	LDCs/SIDS/African States	Theme	Entity type	Latest stage
84	Private	Cable Car Project	Africa	1,078,375	Grant	Yes	Mitigation	International	
85	Public	Agriculture and livelihood adaptation to drought	Asia-Pacific	1,250,000	Grant	Yes	Adaptation	National	
86	Private	Green Outcomes Fund	Africa	1,500,000	Grant	Yes	Cross-cutting	Regional	
87	Public	Sustainable Integrated Water Resources Management to Build Resilience to Climate Change in the Water Sector	Latin America and the Caribbean	1,400,700	Grant	Yes	Cross-cutting	National	
88	PPP	Catalysing Climate Investments in the Agricultural Sector	Asia-Pacific	368,160	Grant	Yes	Adaptation	National	
89	Public	Building indigenous community resilience with low-emission sea transportation	Asia-Pacific	408,250	Grant	Yes	Cross-cutting	Regional	
90	Private	Electric Bus Project	Africa	788,000	Grant	Yes	Mitigation	International	
91	Private	Sustainable Wave Energy	Asia-Pacific	1,164,775	Grant	No	Mitigation	National	
92	Public	Climate Risk-Informed Resilient Communities (CRIC)	Africa	400,587	Grant	Yes	Adaptation	International	
93	Public	Strengthening Resilience of Coastal Ecosystems	Africa	282,500	Grant	Yes	Adaptation	International	
94	Public	Increasing the resilience of livelihood options of vulnerable communities	Africa	861,000	Grant	Yes	Adaptation	International	
95	Public	Climate-Resilient Organic Livelihood Project	Asia-Pacific	305,778	Grant	Yes	Adaptation	Regional	
96	Public	Strengthening resilience of rural livelihoods to climate risks	Asia-Pacific	975,000	Grant	Yes	Cross-cutting	International	
97	Public	Solar Technology District	Latin America and the Caribbean	1,500,000	Grant	No	Mitigation	Regional	
98	Private	Green Investment Platform	Latin America and the Caribbean	854,600	Repayable grant	No	Cross-cutting	Regional	
99	Public	Electric Mobility	Africa	440,800	Grant	Yes	Mitigation	International	
100	Private	Promoting large-scale adoption of energy saving technologies for the industrial and household sectors	Asia-Pacific	721,120	Grant	Yes	Cross-cutting	National

*Abbreviations:* LDC = least developed country, PPF = Project Preparation Facility, SIDS = small island developing State.

*Note:* The list includes PPF applications submitted with formal no-objection letters from national designated authorities. Stage 1: PPF application with concept note receipt and completeness check; Stage 2: concept note under Secretariat review and accredited entities revision; Stage 3: concept endorsed by the GCF Climate Investment Committee for PPF support and PPF application under Secretariat review and accredited entities revision; Stage 4: PPF application approved; Stage 5: PPF application under implementation; Stage 6: PPF activities completed; Stage 7: funding proposal submitted; Stage 99: inactive, including withdrawn and no response from the accredited entity for over six months.
