RE: Co-finance Commitment From Yap State to the “Climate Change Adaptation Solutions for Local Authorities in the Federated States of Micronesia” Project.

Dear Ms. Belinda Hadley:

It is with great pleasure that Yap State confirms its commitment to support the “Climate Change Adaptation Solutions for Local Authorities in the Federated States of Micronesia” project within the nation.

With that being said, the Yap State Government will hereby contribute \$599,139.00 in-kind to the project outcomes stipulated in the FSM EDA of the above-mentioned project.

Let this project yield deliverables that will enhance adaptation solutions not only for local authorities, but to each and every citizen of our nation by extension. Yap State stands ready to do its part to safeguard the nation against climate change and we hope that our in-kind contribution will do just that. Kammagar and God bless!

Sincerely,

Henry Falan
Governor,
Yap State Government
