# Status of the GCF pipeline, including the status of Project Preparation Facility requests

---

## **Summary**

This document provides an update on the GCF pipeline of projects and programmes, including the status of Project Preparation Facility applications, for the reporting period of 1 August to 31 December 2021.

---

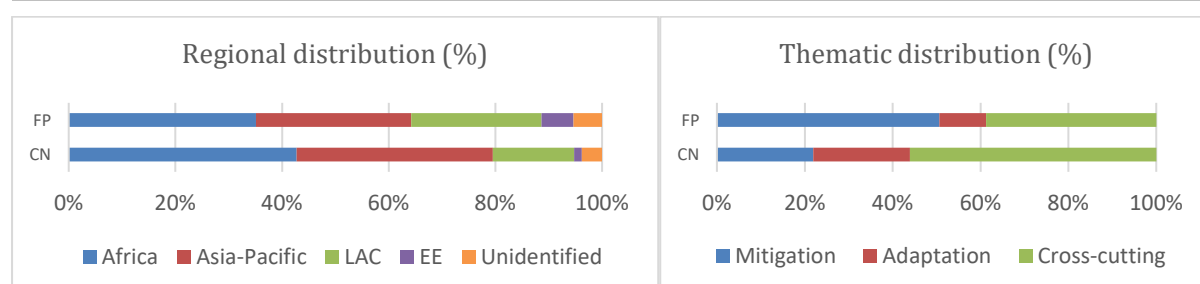

## Table of Contents

|   |    |
|---|----|
| Executive summary: Snapshot of the GCF pipeline   | 1  |
| I. Overall status of the GCF pipeline   | 2  |
| 1.1 Funding proposal pipeline   | 2  |
| 1.2 Concept note pipeline   | 7  |
| II. Status of the pipeline of projects from direct access entities and the Project Preparation Facility | 8  |
| III. Status of the simplified approval process pilot scheme   | 9  |
| IV. Status of active requests for proposals   | 10 |
| 4.1 Enhancing direct access   | 10 |

## Executive summary: Snapshot of the GCF pipeline

This executive summary provides a snapshot of the GCF pipeline as at 31 December 2021, comprising funding proposals and concept notes submitted to the Secretariat. The key tables and figures below show the sectoral, regional and thematic breakdown of funding proposals and concept notes as well as the current status of active requests for proposal and the simplified approval process (SAP) pilot scheme.

| Sectoral distribution | Funding proposals                   |                     | Concept notes                       |                         |
|-----------------------|-------------------------------------|---------------------|-------------------------------------|-------------------------|
|                       | GCF funding requested (million USD) | Number of proposals | GCF funding requested (million USD) | Number of concept notes |
| <b>Public</b>         | 3,392.7                             | 48                  | 8,297.9                             | 241                     |
| <b>Private</b>        | 2,271.7                             | 28                  | 8,634.0                             | 117                     |
| <b>Total</b>          | 5,664.4                             | 76                  | 16,931.9                            | 358                     |
| <b>(% from DAE)</b>   | 14.2%                               | 30.3%               | 30.6%                               | 37.4%                   |

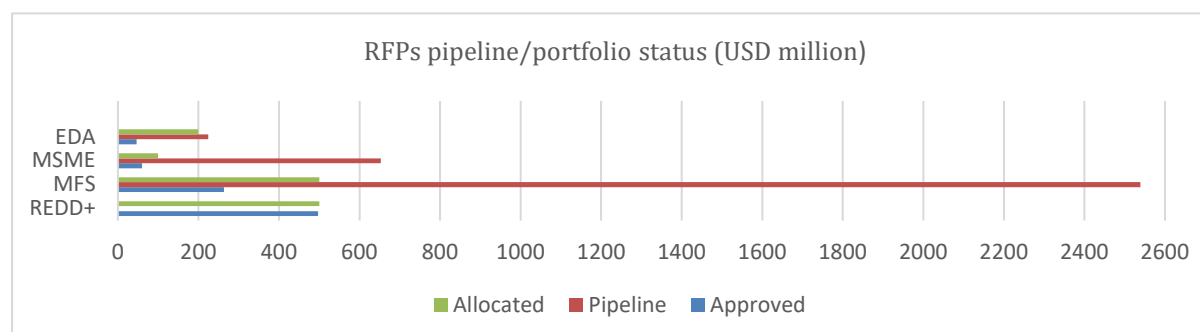

*Abbreviations:* DAE = direct access entity, EE = Eastern Europe, LAC = Latin America and the Caribbean.

Within the pipeline, funding proposals and concept notes submitted under active requests for proposals and the SAP pilot scheme are as follows:

|                    |           | Allocation           |         | Pipeline                        |             | Approved                       |     |
|--------------------|-----------|----------------------|---------|---------------------------------|-------------|--------------------------------|-----|
|                    |           | Amount (million USD) | No.     | Funding requested (million USD) | No. (FP+CN) | Funding approved (million USD) | No. |
| <b>Active RFPs</b> | EDA       | 200                  | min. 10 | 224.2                           | 10 (3+7)    | 46.6                           | 3   |
|                    | MSME I    | 100                  | N/A     | 653.0                           | 22 (0+22)   | 60.0                           | 3   |
|                    | MFS       | 500                  | N/A     | 2,539.1                         | 26 (8+18)   | 263.4                          | 5   |
|                    | REDD-plus | 500                  | min. 3  | TBC <sup>a</sup>                | 3 (0+3)     | 496.7                          | 8   |

|                     |     | Pipeline                        |             | Approved                       |     |
|---------------------|-----|---------------------------------|-------------|--------------------------------|-----|
|                     |     | Funding requested (million USD) | No. (FP+CN) | Funding approved (million USD) | No. |
| <b>Pilot scheme</b> | SAP | 896.2                           | 99(11+88)   | 208.0                          | 23  |

*Abbreviations:* CN = concept note, EDA = enhancing direct access, FP = funding proposal, MFS = mobilizing funds at scale, MSME = micro, small and medium-sized enterprise, N/A = not applicable, RFP = request for proposal, SAP = simplified approval process, TBC = to be confirmed.

<sup>a</sup> The GCF Secretariat is analysing opportunities for the continuation of the REDD-plus results-based payment (RBP) programme for Board consideration during 2021. The financing amount of REDD-plus RBP projects are indicated as TBC because at the funding proposal stage, the amount is determined only after assessment and application of the scorecard by the Secretariat and the independent Technical Advisory Panel, and at the CN stage it is not requested in the current REDD-plus RBP CN template.

## I. Overall status of the GCF pipeline

### 1.1 Funding proposal pipeline

1. At its eleventh meeting, the Board requested the Secretariat to provide an update of the pipeline portfolio and to submit it for information to the Board as part of the documentation submitted for every Board meeting.<sup>1</sup> This status report responds to the Board’s request and provides an update for the reporting period of 1 August to 31 December 2021.

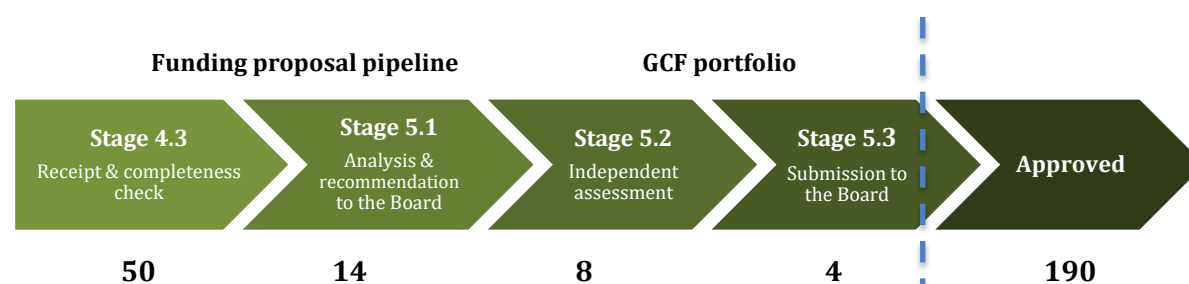

2. As at 31 December 2021,<sup>2</sup> the GCF pipeline comprises 76 public and private sector funding proposals, which request a total of USD 5.7 billion in GCF funding to support projects and programmes totalling USD 22 billion when taking co-financing into account.<sup>3</sup>

3. Table 1 presents an overview of the pipeline, broken down into different sectors, and figure 1 presents the status of the funding proposals in the pipeline with respect to their level of progress in the GCF due diligence process. The geographical distribution of the pipeline is presented in figures 2 and 3.<sup>4</sup> In addition, a further breakdown of the geographical distribution of the pipeline by the least developed countries (LDCs), small island developing States (SIDS) and African States can be found in figures 3.1, 3.2 and 3.3, respectively.

**Table 1: GCF pipeline overview for funding proposals**

|               |  | Public          | Private         |
|---------------|--|-----------------|-----------------|
| <b>Number</b> | Number of funding proposals  | 48              | 28              |
|               | - New proposals during the reporting period (1 Aug to 31 Dec 2021) | 3               | 3               |
| <b>Amount</b> | GCF funding (million USD)  | 3,392.7         | 2,271.7         |
|               | Co-financing (million USD)   | 7,443.0         | 8,867.7         |
|               | <b>Total investment (GCF + co-financing, million USD)</b>          | <b>10,835.7</b> | <b>11,139.5</b> |

**Figure 1: Status of funding proposal progress**

*Note:* Stage numbers are according to the updated project and programme cycle (annex IV to decision B.17/09).

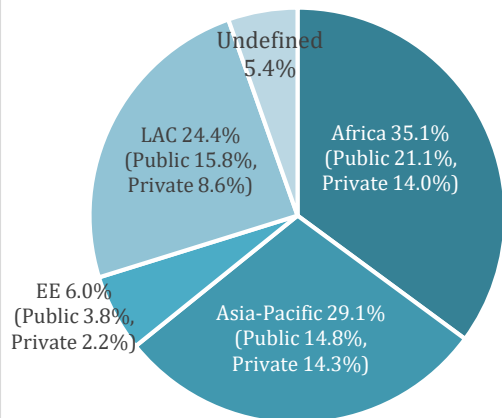

<sup>1</sup> Decision B.11/11, paragraph (g).

<sup>2</sup> The requested GCF amount in euros is converted into United States dollars at the United Nations Operational Rates of Exchange effective as at 31 December 2021 (1 EUR = 1.13507378 USD).

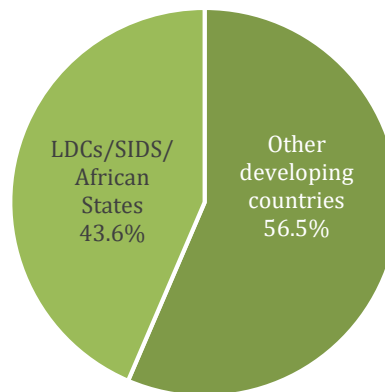

<sup>3</sup> The full list of funding proposals is provided in document GCF/B.31/Inf.10/Add.01 titled “Status of the GCF pipeline – Addendum: List of funding proposals and project preparation facility requests”. Owing to the deliberative nature of the document, the addendum is made available to the Board on a limited distribution basis.

<sup>4</sup> In the case of multi-country projects, the breakdown is based on the simple attribution according to the number of countries marked in each proposal, unless the per cent of each country’s allocation is provided by accredited entities.

**Figure 2: Regional distribution of the requested amount of GCF funding**

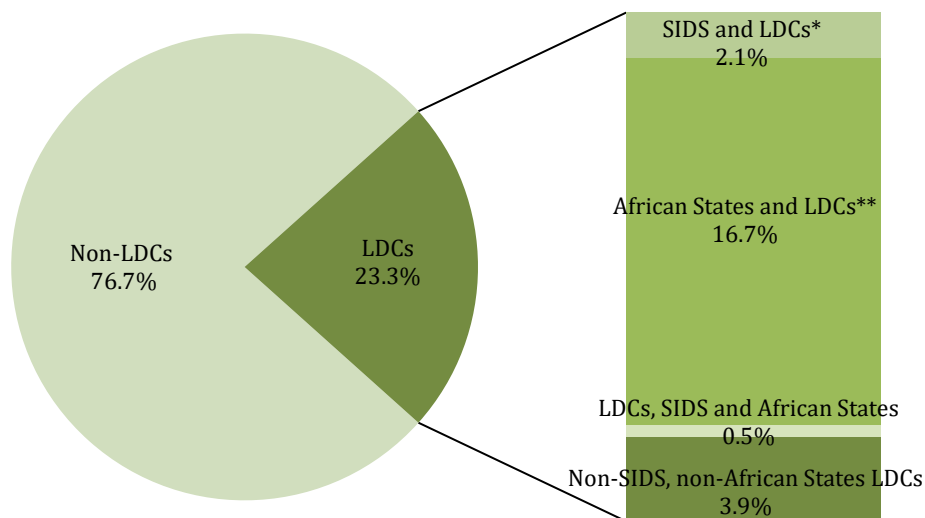

**Figure 3: LDCs/SIDS/African States distribution of the requested amount of GCF funding**

*Abbreviations:* EE = Eastern Europe, LAC = Latin America and the Caribbean, LDCs = least developed countries, SIDS = small island developing States.

**Figure 3.1: Least developed countries distribution of the GCF requested funding amount**

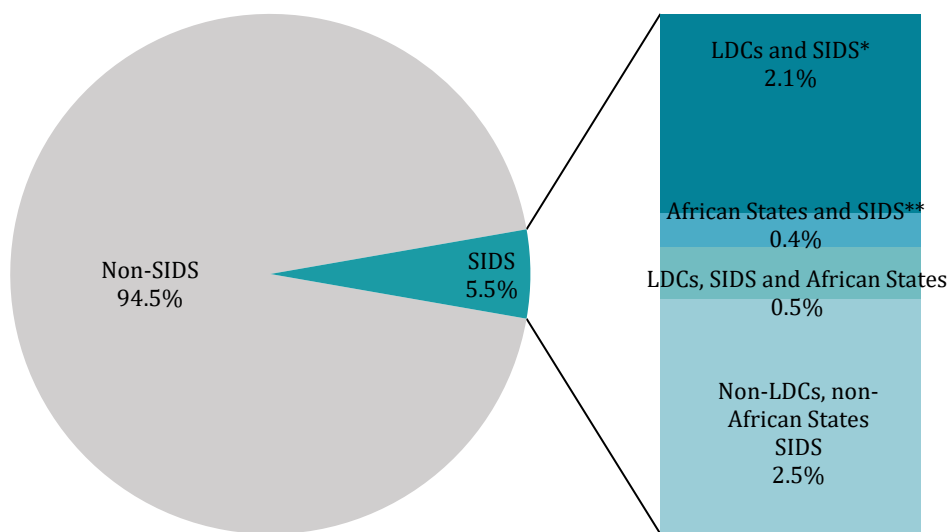

*Abbreviations:* LDCs = least developed countries, SIDS = small island developing States

\* For LDCs and SIDS: this does not include African States

\*\* For African States and LDCs: this does not include SIDS

**Figure 3.2: Small island developing States distribution of the GCF requested funding amount**

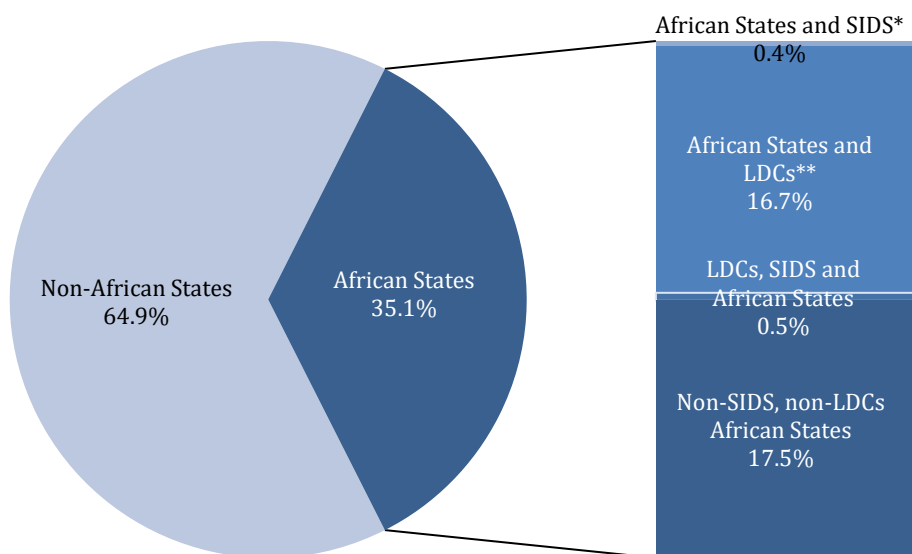

*Abbreviations:* LDCs = least developed countries, SIDS = small island developing States

\* For LDCs and SIDS: this does not include African States

\*\* For African States and SIDS: this does not include LDCs

**Figure 3.3: African States distribution of the GCF requested funding amount**

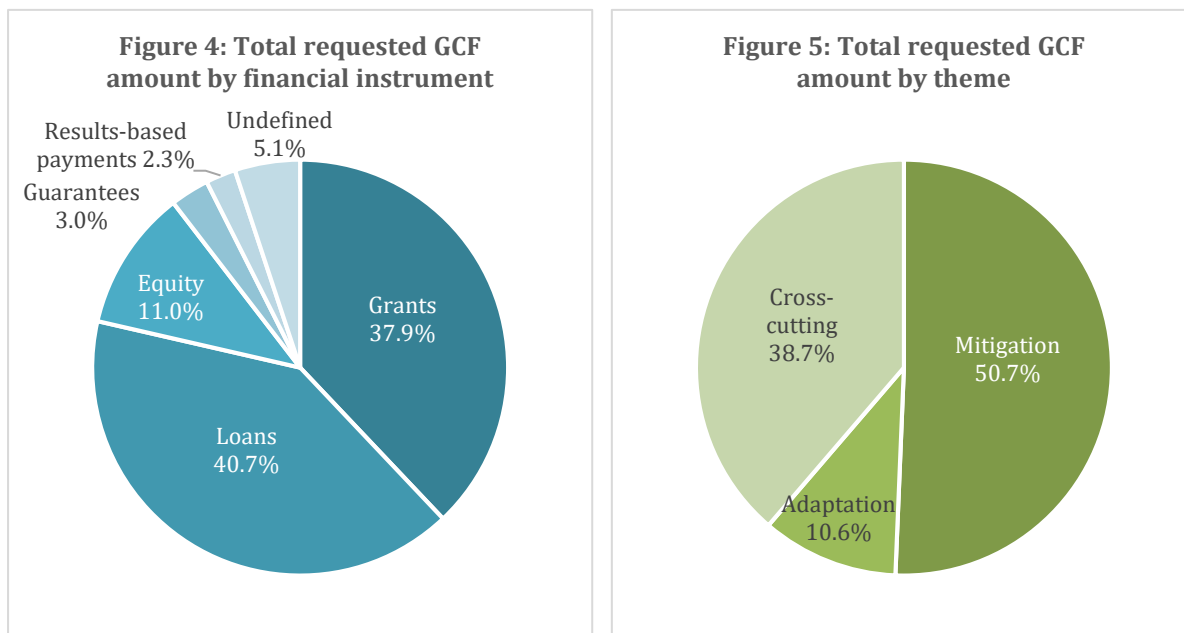

*Abbreviations:* LDCs = least developed countries, SIDS = small island developing States

\* For African States and SIDS: this does not include LDCs

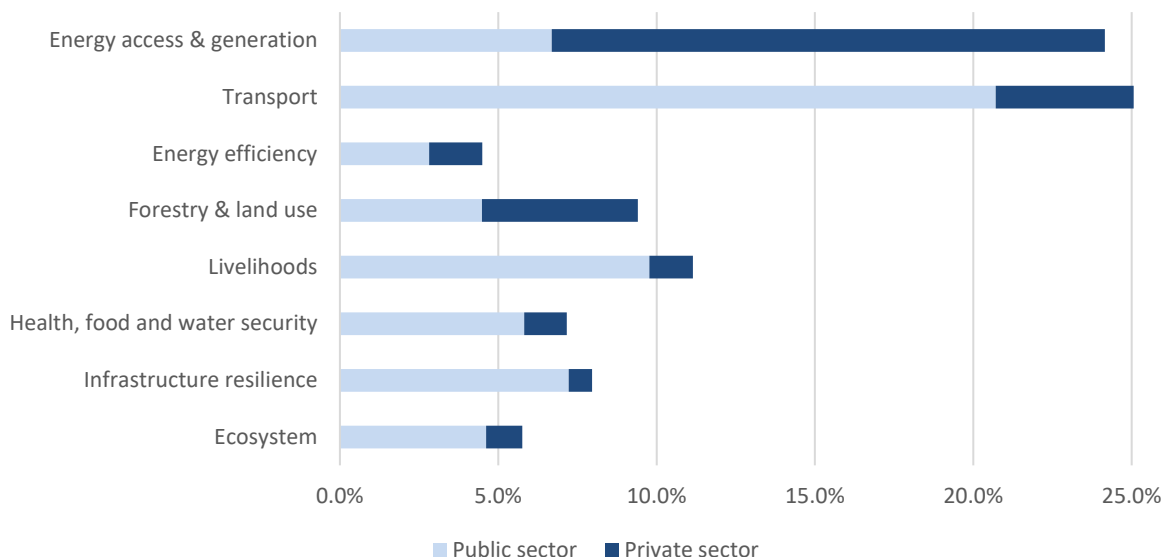

\*\* For African States and LDCs: this does not include SIDS

4. The distribution of the pipeline by financial instrument and theme is provided in figures 4 and 5.<sup>5</sup>

5. The distribution of the requested funding of the pipeline across the eight results areas of GCF is presented in figure 6.

**Figure 6: Requested GCF funding by results area (percentage)<sup>a</sup>**

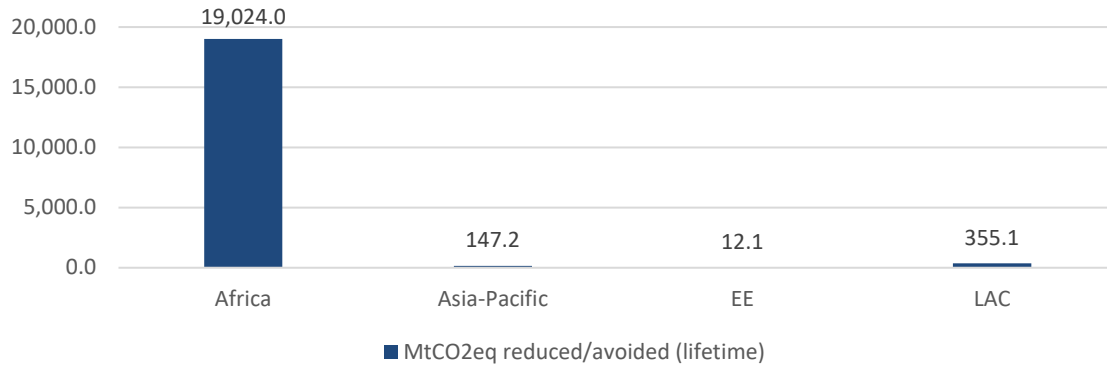

<sup>a</sup>The breakdown of GCF funding into the eight results areas is based on the simple attribution according to the number of results areas marked in each proposal, unless otherwise noted in the proposals.

<sup>5</sup> A mitigation and adaptation breakdown of cross-cutting funding proposals is not available in the pipeline stage owing to insufficient information available in the current funding proposal template. The Secretariat will address this issue with the newly revised funding proposal template.

6. The climate impact potential of the pipeline in terms of the contribution to GCF core indicators is presented in figures 7 and 8.

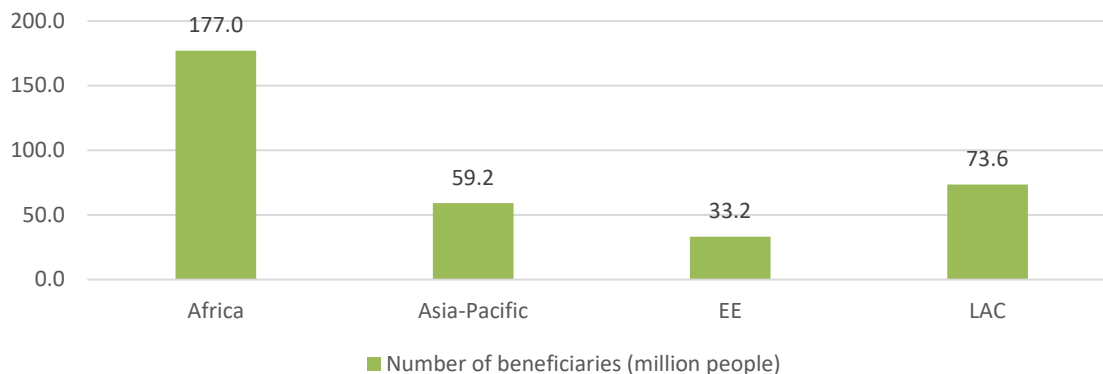

**Figure 7: Estimated mitigation impact potential by region (total: 19,538.4 MtCO<sub>2</sub>eq)<sup>a</sup>**

*Abbreviations:* EE = Eastern Europe, LAC = Latin America and the Caribbean, MtCO<sub>2</sub>eq = million tonnes of carbon dioxide equivalent.

<sup>a</sup> At the pipeline stage, the estimated data on the impact potential are preliminary and are expected to change during the review.

**Figure 8: Estimated adaptation impact potential by region (total: 342.9 million people)<sup>a</sup>**

*Abbreviations:* EE = Eastern Europe, LAC = Latin America and the Caribbean.

<sup>a</sup> At the pipeline stage, the estimated data on the impact potential are preliminary and are expected to change during the review.

7. The list of the funding proposals in the pipeline at different stages of the review process is presented in annex I. Many of the submitted funding proposals were drawn from the country programme briefs and entity work programmes, the status of which is also presented in annex I.

8. The average time taken for funding proposals during the reporting period, from the date of first funding proposal submission to the date of first feedback from the Secretariat, was 78 days for all accredited entities (AEs), and 96 days for direct access entities (DAEs). The average time taken of all approved projects since B.11, from the first submission of the funding proposal for Board approval, was 355 days for all AEs, and 329 days for DAEs. This has led to disbursements of USD 2,288.1 million (excluding AE fees) for all AEs, including USD 280.8 million for DAEs, as at 31 December 2021.

## 1.2 Concept note pipeline

9. The GCF pipeline for concept notes as at the reporting date is shown in table 2.

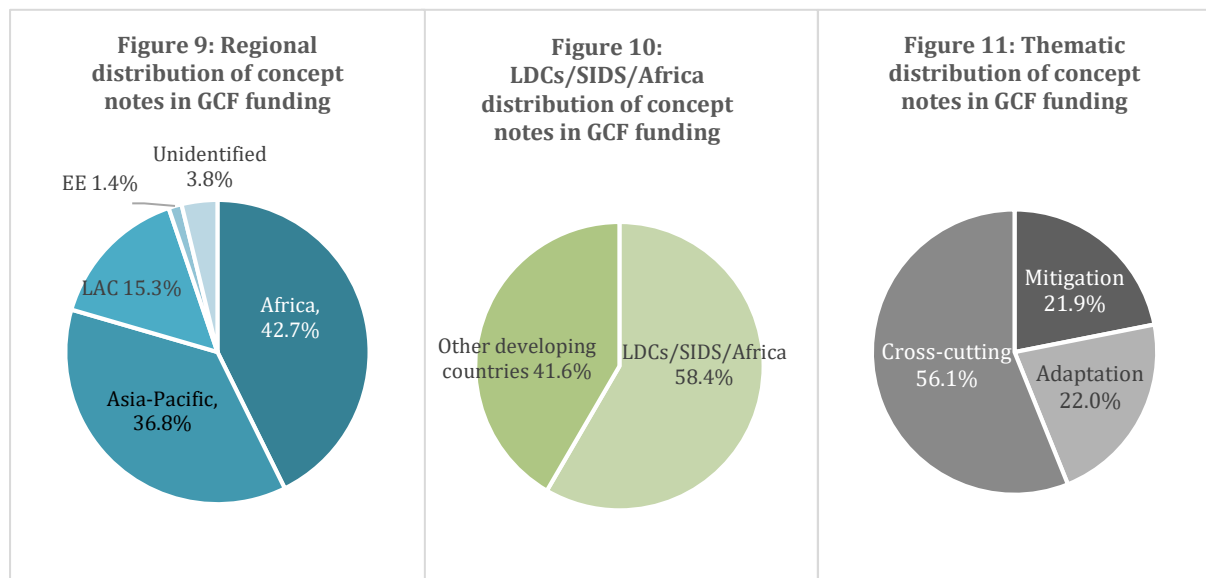

10. Of the 358 concept notes registered in the GCF pipeline, 71 have subsequently requested project preparation support from the Project Preparation Facility (PPF) and details are included in section II below.

**Table 2: GCF pipeline overview for concept notes<sup>a</sup>**

|               |  | Public          | Private         |
|---------------|--|-----------------|-----------------|
| <b>Number</b> | Number of concept notes  | 241             | 117             |
|               | - New proposals during the reporting period (1 Aug to 31 Dec 2021) | 27              | 5               |
| <b>Amount</b> | GCF funding (million USD)  | 8,297.9         | 8,634.0         |
|               | Co-financing (million USD)   | 10,157.5        | 29,234.0        |
|               | <b>Total investment (GCF + co-financing, million USD)</b>          | <b>18,455.4</b> | <b>37,868.0</b> |

<sup>a</sup> The full list of funding proposals is provided in document GCF/B.31/Inf.10/Add.02 titled “Status of the GCF pipeline – Addendum: List of concept notes”. Owing to the deliberative nature of the document, the addendum is made available to the Board on a limited distribution basis.

11. Figures 9, 10<sup>6</sup> and 11 present the geographical distribution, including the distribution of funding to LDCs/SIDS/Africa, and the thematic distribution of the requested GCF funding for the concept notes.

*Abbreviations:* EE = Eastern Europe, LAC = Latin America and the Caribbean, LDCs = least developed countries, SIDS = small island developing States.

12. During the reporting period, the average time taken from the date of the concept note submission to the date when feedback is delivered was 65 days for all AEs and 68 days for DAEs.

<sup>6</sup> The further breakdowns for LDCs, SIDS and Africa, respectively, are as follows:  
For LDCs: 32.7 per cent LDCs, and 67.3 per cent non-LDCs;  
For SIDS: 7.9 per cent SIDS, and 92.1 per cent non-SIDS; and  
For Africa: 42.7 per cent Africa, and 57.3 per cent non-Africa.

## II. Status of the pipeline of projects from direct access entities and the Project Preparation Facility

13. The GCF pipeline for DAEs as at the reporting date is shown in table 3.

**Table 3: GCF pipeline for direct access entities**

|                          | Number of funding proposals | Percentage (in relation to total pipeline) | Requested GCF funding (million USD) | Percentage (in relation to total investment) |
|--------------------------|-----------------------------|--|-------------------------------------|--|
| <b>Funding proposals</b> | 23                          | 30.3                                       | 804.1                               | 14.2   |
| <b>Concept notes</b>     | 134                         | 37.6                                       | 5,182.1                             | 30.6   |

14. The Secretariat continues to work closely with DAEs and national designated authorities (NDAs)/focal points in developing their pipelines of proposals to be submitted to GCF.

15. At the date of reporting, the Secretariat was working on 73 active PPF applications with letters of no objection from the NDAs/focal points, of which 41 (56 per cent) are from DAEs. Further information on this pipeline is as follows:

- (a) Of these 73 applications:
- (i) Forty-eight (48) have been approved, including 33 (68.7 per cent) from DAEs. As at the reporting date, the total approved amount for PPF applications was USD 29.91 million, of which USD 22.5 million had been disbursed:
    - (1) Of the 48 approved PPFs, 14 funding proposals developed through PPF support have now been submitted to the Secretariat, 9 of these funding proposals have been approved, others are at different stages of review and revision.
  - (ii) Five (5) PPF applications entered the review and revision stage by the Secretariat following endorsement of the associated concept note by the GCF Climate Investment Committee; and
  - (iii) Twenty (20) additional PPF applications are pending the associated underlying project concept note being strengthened and cleared as per the GCF investment criteria, to enable PPF support to be provided; and
- (b) In addition to the 73 active applications, another 39 PPF applications have been received but are not currently active due to having been withdrawn by the AEs or NDAs, or with no resubmission or communication from the AEs for more than 6 months. The list of all 112 PPF applications, including those approved, is presented in annex II.
16. Several concerted actions were taken towards improving and expanding the PPF support to assist AEs, and particularly DAEs, more efficiently in the development of concept notes and funding proposals for GCF, as follows:
- (a) Four PPF service applications have been approved; all are to support DAEs in project preparation. The selected independent consultancy firms are providing preparation services to AEs. There are currently two other service applications in the pipeline going through review and revision process;
  - (b) In addition to the full PPF support for comprehensive preparation of funding proposals, the Secretariat has also been using project development firms to provide on-demand technical assistance to DAEs to fill preparation gaps. Two of such technical assistance assignments have been approved so far: one is to provide last mile support on baseline study and vulnerability assessment to a DAE to finalize the funding proposal, one is to help a DAE to strengthen project design for a concept note seeking PPF support. There are four other technical assistance assignments under review and discussion, including

- for early project idea development, concept note strengthening and funding proposal finalization;
- (c) The first draft of the technical guidance for project development has been produced. This guidance will support AEs in developing concept notes, PPF applications and GCF projects. The guidance is currently undergoing review and will be made public in 2022; and
  - (d) The Secretariat also provided guidance on accessing the new PPF modalities and service rosters during virtual regional dialogues in the Caribbean, the Pacific and Africa.

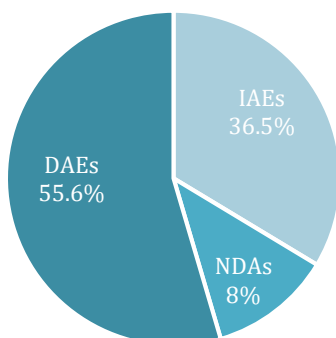

### III. Status of the simplified approval process pilot scheme

17. Since the launch of the simplified approval process (SAP) pilot scheme in November 2017, 23 projects have been approved by the Board, of which 8 are from DAEs and 3 are private sector projects. The approved portfolio of SAP projects amounts to USD 355.7 million, with GCF financing amounting to USD 208.5 million.

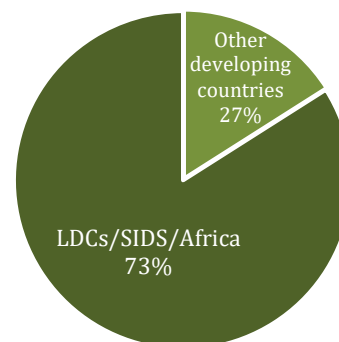

18. As of the reporting date, the SAP pipeline consists of ninety-nine public and private sector concept notes and funding proposals. The pipeline requests GCF funding of USD 896.2 million, with a total value of approximately USD 1.4 billion when taking co-financing into account. Of the 99 public and private sector concept notes and funding proposals in the SAP pipeline, 83 are public sector proposals, consisting of 74 concept notes and 9 funding proposals. From the private sector, the SAP pipeline consists of 15 concept notes and 1 funding proposal.

19. In the SAP pipeline, 63.6 per cent of the requested GCF funding is from DAEs and NDAs (see figure 12), and 73 per cent of the requested GCF funding is from LDCs, SIDS and African States (see figure 13).

**Figure 12: Requested GCF funding by access modality (%)**

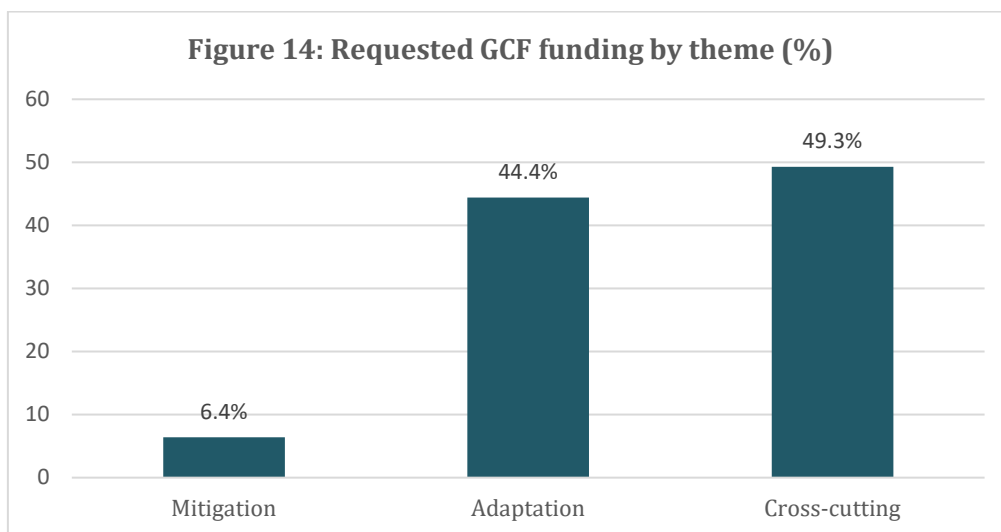

**Figure 13: Requested GCF funding by region (%)**

*Abbreviations:* DAE = direct access entity, IAE = international accredited entity, LDC = least developed country, NDA = national designated authority, SIDS = small island developing State.

20. Around 93.7 per cent of the requested GCF funding targets adaptation and cross-cutting results (figure 14), focusing on building the resilience of communities through food and water security measures. Many projects aim to undertake ecosystem-based adaptation for communities, while several projects propose strengthening climate information services and early warning systems. A number of projects target mitigation results through small-scale renewable energy solutions.

21. The average time taken during this reporting period, from the date of an SAP concept note submission by an AE to the date when feedback is delivered from the Secretariat, is 34 days for all AEs, as well as for DAEs.

## **IV. Status of active requests for proposals**

### **4.1 Enhancing direct access**

22. As per decision B.10/04, the Board approved the allocation of USD 200 million for at least 10 pilot proposals under the enhancing direct access (EDA) request for proposal (RFP). GCF has approved a total of three (3) funding proposals under this pilot amounting to USD 46.6 million of GCF funding.

23. As at 31 December 2021, there are 25 concept notes and funding proposals submitted by the DAEs under the EDA pilot. Out of these, 3 funding proposals has been approved by Board, active 9 submissions are currently under review, which comprises 6 concept notes and 3 funding proposals, and requesting USD 194.2 million from GCF, with the total financing amounting to USD 228.2 million. The remaining 13 submissions are not currently active due to having been withdrawn by the AEs or NDAs, or with no resubmission or communication from the AEs for more than 6 months.

### **4.2 Pilot programme to support micro, small and medium-sized enterprises**

24. Through decision B.13/22, the Board approved the micro, small and medium-sized enterprise (MSME) pilot RFP, deciding to limit GCF participation in the first tranche to USD 100 million. Following the close of the MSME RFP in August 2016 and through the competitive evaluation process, the Board has approved three funding proposals for a total of USD 60 million. The approved projects are USD 20 million for the “Business loan programme for GHG emissions reduction” proposal (FP028) submitted by Mongolia-based XacBank, to which GCF has disbursed its total commitment; USD 20 million for the “Low emissions climate resilient agriculture risk-sharing facility for MSMEs” proposal (FP048) submitted by the Inter-American Development Bank to be implemented in Guatemala and Mexico; and USD 20 million for the “Program on Affirmative Finance Action for Women in Africa (AFAWA): Financing climate

resilient agricultural practices in Ghana” proposal (FP114) submitted by the African Development Bank.

25. An overall review of private sector RFPs will be presented to the Board at B.31, in the context of an assessment of the performance and results of all GCF RFPs.

### 4.3 Mobilizing funds at scale

26. In accordance with decision B.16/03, the Board approved the mobilizing funds at scale (MFS) pilot RFP in 2017, allocating up to USD 500 million to innovative, high-impact projects and programmes that mobilize private sector investment in climate change activities. The RFP was open to AEs and non-accredited entities and attracted 350 concept note submissions from more than 70 countries, with an estimated request for GCF financing amounting to USD 18 billion. The Board has approved USD 60 million for the project “Espejo de Tarapacá” (FP115) submitted by MUFG Bank, Ltd.; USD 25 million for the project “Arbaro Sustainable Forestry Fund” in Ecuador, Ethiopia, Ghana, Paraguay, Peru, Sierra Leone and Uganda submitted by MUFG Bank, Ltd. (FP128); and USD 9.9 million under the SAP for “Scaling Smart, Solar, Energy Access Microgrids in Haiti” submitted by the Nordic Environment Finance Corporation (SAP013). At B.27, the Board approved two additional MFS projects, namely USD 18.5 million for the project “Global Subnational Climate Fund (SnCF Global) – Technical Assistance (TA) Facility” submitted by the International Union for Conservation of Nature (FP151) and USD 150 million for the “Global Subnational Climate Fund (SnCF Global) – Equity” submitted by Pegasus Capital Advisors (FP152). The SnCF Global targets a total of 42 countries across the Eastern Europe, Latin America and the Caribbean, Africa and Asia-Pacific regions.

27. The Secretariat continues to engage with proponents of the shortlisted projects towards developing full funding proposals for consideration by the Board. An overall review of private sector RFPs will be presented to the Board at B.31, in the context of an assessment of the performance and results of all GCF RFPs.

### 4.4 REDD-plus results-based payments

28. Through decision B.18/07, the Board allocated USD 500 million to the RFPs for a pilot programme for REDD-plus results-based payments (RBPs).

29. Under the REDD-plus Results-Based Payments Pilot Programme launched in October 2017, eight projects (FP100 for Brazil, FP110 for Ecuador, FP120 for Chile, FP121 for Paraguay, FP130 for Indonesia, FP134 for Colombia, FP142 for Argentina and FP144 for Costa Rica) have been approved by the Board at B.22, B.23, B.24, B.26 and B.27, amounting to a total GCF financing of USD 496.7 million, effectively exhausting funds under the Pilot Programme in 2020, two years ahead of schedule.

30. Four concept notes (three from the Asia-Pacific region and one from Latin America and the Caribbean) remain in the pipeline for the first phase of the RFP. If approved in their entirety, these would amount to a total of USD 350 million in RBPs. Two additional countries (both in Asia-Pacific) were eligible for RBPs as of 1 January 2022 according to the Lima REDD-plus Information Hub.

31. Based on recommendations by Board members in the lead-up to B.29, consultations have been taking place on the continuation of the RFP into a second phase. Throughout 2021, consultations took place in the form of interviews, an expert meeting, a questionnaire and a set of regional consultations. Expert meetings to narrow down existing options may be needed to finalize the terms of reference and scorecard for a second phase of the RFP for adoption by the Board.

32. Draft terms of reference are to be presented at B.31 for a second phase of the RFP that can be reviewed by the Board for further guidance.<sup>7</sup> The draft contains options compiled through consultations with stakeholders to date, with a view to establishing a second phase of the GCF REDD-plus RBP programme in 2022.

## V. Status of pipeline knowledge management

33. By decision B.17/09, annex III, the Board requested the Secretariat to develop an online concept note and funding proposal submission portal and to improve data management and analytics, including, for example, the AE submission portal and the NDA portal. Responding to the decision, the Secretariat has enhanced the quality and transparency of the project pipeline by providing more advanced knowledge management systems to the public, stakeholders and internal users.

34. Based on lessons learned from the SAP online submission system since early May 2019, the Secretariat has been working on improving the current system to be more user friendly as well as expanding the online submission system to accept regular concept notes and funding proposals. In addition, the new solution will include changes from the new Integrated Results Management Framework adopted at B.29. As a result, the updated online submission system for all proposals – both SAP and proposals under the standard approval process – will be ready to be piloted in early March 2022, and is expected to be fully operational soon after adjusting the system based on feedback from the entities during the pilot launching. Additionally, the updated online submission system will utilize GCF enterprise-wide taxonomy to facilitate the identification and classification of concept note and funding proposal content effectively and efficiently.

35. To further automate the cross-Secretariat assessment workflow of concept notes and funding proposals, and to enhance transparency and collaboration with AEs, the Secretariat has developed an online tracking system that provides real-time information on progress and helps the Secretariat to identify any bottlenecks in the review process. The tracking system was piloted in the second quarter of 2020, and it has been fully operational for funding proposals since the first half of 2021, communicating with the entities directly via the system. In addition to this, the tracking system has been extended to the independent Technical Advisory Panel members for digitizing the assessment work providing a unified platform for the full lifecycle of the project review process.

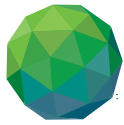

---

<sup>7</sup> Pending publication.

## Annex I: List of funding proposals

### Funding proposals in the GCF pipeline at different stages of the review process

*Abbreviations:* CN = concept note, CP = country programme, DAE = direct access entity, EDA = enhancing direct access, EWP = entity work programme, FP = funding proposal, IAE = international access entity, K = thousand, LDCs = least developed countries, N/A = not applicable, M = million, RBP = results-based payment, RFP = request for proposal, SAP = simplified approval process, SIDS = small island developing States.

<sup>a</sup> The individual funding amounts are rounded to the nearest tenth.

<sup>b</sup> The requested GCF amount in euros is converted into United States dollars at the United Nations Operational Rates of Exchange effective as at 31 December 2021 (1 EUR = 1.13507378 USD).

- 
- <sup>c</sup> Stage: (4.3) funding proposal receipt and completeness check; (5.1) second-level due diligence by the Secretariat; (5.2) submission to the independent Technical Advisory Panel; and (5.3) submission to the Board. Stage numbers are according to the updated project and programme cycle (decision B.17/09, annex IV).
- <sup>d</sup> Since the funding proposal is at an early stage of development, the accredited entity is still in the process of quantifying the mitigation and adaptation impacts.
- <sup>e</sup> This table takes into consideration the CPs and EWPs for IRM and GCF-1 submitted to the Secretariat. Please take note that for GCF-1, CPs and EWPs of IAEs and regional DAEs need to be reviewed and endorsed by the Secretariat's Climate Investment Committee, while EWPs of national DAEs are incorporated into the CPs. Information provided in this table should not be interpreted as confirmation of whether a funding proposal is supported by national designated authorities/focal points or accredited entities at the date of publication of this report. Under column CP: (i) "Partly" indicates that a multi-country funding proposal is captured in only part of the country programmes of relevant countries; and (ii) "No" may indicate that the country has not shared a CP with the Secretariat, the draft CP has been shared with the Secretariat but is not yet endorsed by the Climate Investment Committee, or that the funding proposal is not included in the latest version of the CP shared with the Secretariat. It must be noted that funding proposals in early development stages may have been presented to the GCF Secretariat with different titles in EWPs and CPs, hence not allowing the Secretariat to identify them as the same project until further consultations take place with AEs and NDAs or focal points.
- <sup>f</sup> The financing amounts of some REDD-plus RBP projects can be indicated as "TBC" (to be confirmed) because the amount is determined only after the assessment and application of the scorecard by the Secretariat and the independent Technical Advisory Panel.
- <sup>g</sup> As per the updated GCF project/programme cycle indicated in the Programming Manual, the pipelines of national DAEs are now integrated in the country programmes.

## Annex II: List of Project Preparation Facility applications

### Project Preparation Facility applications in the GCF pipeline at different stages of the review process

| No. | Sector  | Project name   | Region                          | LDCs/ SIDS/ African States | Entity type   | Theme         | Delivery Modality    | PPF amount (USD) | Latest stage |
|-----|---------|--|---------------------------------|----------------------------|---------------|---------------|----------------------|------------------|--------------|
| 1.  | Public  | Rural Green Economy and Climate Resilient Development Programme  | Africa                          | Yes                        | National      | Cross-Cutting | Standard PPF funding | 1,498,841        | 7            |
| 2.  | Public  | Enhancing Early Warning Systems to build greater resilience to hydro and meteorological hazards in Pacific Small Island Developing States (SIDS) | Asia-Pacific                    | Yes                        | International | Adaptation    | Standard PPF funding | 535,833          |              |
| 3.  | Public  | Development of an Integrated, Sustainable and Resilient Agricultural Project to Climate Change   | Africa                          | Yes                        | National      | Cross-Cutting | Standard PPF funding | 717,407          |              |
| 4.  | Public  | Preparatory Assessments for the Metropolitan Climate Resilience Project (MMCRP)  | Africa                          | Yes                        | International | Adaptation    | Standard PPF funding | 934,185          |              |
| 5.  | Public  | Pilot project of hydro agricultural perimeters development with smart agricultural practices resilient to climate change                         | Africa                          | Yes                        | Regional      | Cross-Cutting | Standard PPF funding | 439,134          |              |
| 6.  | Public  | Integrated Landscape Management Initiative (JILMI)   | Asia-Pacific                    | No                         | International | Cross-Cutting | Standard PPF funding | 278,946.28       |              |
| 7.  | Private | Promoting private sector investment through large scale adoption of energy saving technologies and equipment for textile sector                  | Asia-Pacific                    | Yes                        | National      | Mitigation    | Standard PPF funding | 301,562          |              |
| 8.  | Private | Green Finance Corporation  | Asia-Pacific                    | No                         | National      | Mitigation    | Standard PPF funding | 348,964          |              |
| 9.  | Public  | Ecosystem and livelihoods resiliency: climate change risk reduction through ecosystem-based adaptation   | Africa                          | Yes                        | International | Cross-Cutting | Standard PPF funding | 365,316          |              |
| 10. | Public  | Low-Emission and Climate Resilient Agriculture   | Latin America and the Caribbean | No                         | Regional      | Cross-Cutting | Standard PPF funding | 642,600          |              |
| 11. | Private | Promoting private sector investment through large scale adoption of energy saving technologies and equipment for garment sector                  | Asia-Pacific                    | Yes                        | National      | Mitigation    | Standard PPF funding | 363,533          |              |
| 12. | PPP     | Analysis and Implementation Feasibility Study Fast Train Passenger Project   | Latin America and the Caribbean | No                         | Regional      | Mitigation    | Standard PPF funding | 562,960          |              |
| 13. | Private | PPF request for Agriculture Climate Adaptation Technology Deployment Programme.  | Africa                          | Yes                        | National      | Adaptation    | Standard PPF funding | 560,500          |              |
| 14. | Public  | IGREENFIN project and GCF Umbrella Program for the Great Green Wall Initiative   | Africa                          | Yes                        | International | Cross-Cutting | Standard PPF funding | 1,302,753        |              |
| 15. | Private | Public and Private Sector Energy Efficiency Programme (PPSEEP)   | Africa                          | Yes                        | Regional      | Mitigation    | Standard PPF funding | 318,060          | 5            |
| 16. | Public  | Arundo donax Renewable Bio-mass Fuel   | Latin America and the Caribbean | Yes                        | Regional      | Cross-Cutting | Standard PPF funding | 694,000          |              |
| 17. | Public  | Sustainable Transport for Intermediate Cities: (STIC Program)  | Latin America and the Caribbean | No                         | Regional      | Mitigation    | Standard PPF funding | 1,415,750        |              |

|     |         |  |                                 |     |               |               |                      |            |
|-----|---------|--|---------------------------------|-----|---------------|---------------|----------------------|------------|
| 18. | Public  | Transformative public and private partnerships for climate change adaptation and mitigation through the protection of mangroves and wetlands                 | Latin America and the Caribbean | No  | International | Cross-Cutting | Standard PPF funding | 277,172    |
| 19. | Public  | Devolved climate change governance to strengthen resilience of communities' in target counties   | Africa                          | Yes | National      | Adaptation    | Standard PPF funding | 371,200    |
| 20. | Public  | Waste Management Flagship Programme  | Africa                          | Yes | Regional      | Mitigation    | Standard PPF funding | 1,359,719  |
| 21. | Public  | Bus Rapid Transit Development  | Asia-Pacific                    | No  | National      | Mitigation    | Standard PPF funding | 788,000    |
| 22. | Public  | Green Transport Program  | Asia-Pacific                    | Yes | International | Mitigation    | Standard PPF funding | 526,311    |
| 23. | Private | Mini-grid/off-grid Solution for Ger Area   | Asia-Pacific                    | No  | National      | Cross-Cutting | Standard PPF funding | 914,425    |
| 24. | Public  | The R's (Reduce, Reuse and Recycle) for climate resilience wastewater systems (3R-CReWS)   | Latin America and the Caribbean | Yes | Regional      | Cross-Cutting | Standard PPF funding | 1,029,192  |
| 25. | Public  | Climate Resilient Coastal Forestry   | Asia-Pacific                    | Yes | National      | Cross-Cutting | Standard PPF funding | 337,740    |
| 26. | Public  | Climate Resilient Fishery Initiative for Livelihood Improvement  | Africa                          | Yes | International | Adaptation    | Standard PPF funding | 289,085    |
| 27. | Public  | Green City Pilot   | Africa                          | Yes | National      | Cross-Cutting | Standard PPF funding | 1,030,750  |
| 28. | Public  | Mainstreaming Climate Smart Planning and Implementation into Agricultural Development  | Africa                          | Yes | National      | Cross-Cutting | Standard PPF funding | 695,380    |
| 29. | Public  | Coastal and Marine Ecosystem Resilience Programme  | Asia-Pacific                    | Yes | International | Adaptation    | Standard PPF funding | 473,291    |
| 30. | Public  | SA Water Reuse Programme   | Africa                          | Yes | Regional      | Adaptation    | Standard PPF funding | 515,411.45 |
| 31. | Public  | Transformative green development : Stimulating investment in developing sustainable economies through enhanced environmental services and climate resilience | Africa                          | Yes | National      | Cross-Cutting | Standard PPF funding | 547,455    |
| 32. | Public  | Strengthening the resilience of ecosystems and populations in four regional hubs   | Africa                          | Yes | International | Adaptation    | Standard PPF funding | 556,892    |
| 33. | Public  | Building the Adaptive Capacity of Sugarcane Farmers  | Latin America and the Caribbean | Yes | Regional      | Adaptation    | Standard PPF funding | 594,357.79 |
| 34. | Private | Transforming Finance to Unlock Climate Action  | Latin America and the Caribbean | Yes | Regional      | Cross-Cutting | Standard PPF funding | 613,471    |
| 35. | Public  | Resilience to Climate Change through Ecosystem-Based Adaptation for Integrated Flood Risk Management   | Asia-Pacific                    | No  | International | Adaptation    | Standard PPF funding | 694,646    |
| 36. | Public  | Climate Resilience of the Water Sector   | Latin America and the Caribbean | Yes | Regional      | Adaptation    | Standard PPF funding | 718,422    |
| 37. | Public  | Securing Permanent Forests to Combat Climate Change and Enhance Sustainable National and Local Economies   | Africa                          | Yes | International | Cross-Cutting | Standard PPF funding | 555,684    |
| 38. | Public  | Building Resilient and healthy Communities   | Asia-Pacific                    | Yes | National      | Adaptation    | Standard PPF funding | 568,733    |
| 39. | Public  | Enhancing resilience of communities, smallholders and ecosystems to climate change impacts through adapting and scaling up land/resources used systems       | Latin America and the Caribbean | No  | Regional      | Adaptation    | Standard PPF funding | 492,733    |
| 40. | Public  | Enhancing Adaptation and Community Resilience by Improving Water Security  | Asia-Pacific                    | Yes | Regional      | Adaptation    | PPF Service          | 121,925    |

|     |         |   |   |         |               |               |                      |           |   |
|-----|---------|---|---|---------|---------------|---------------|----------------------|-----------|---|
