The Ministry of Energy and Non-Renewable Natural Resources is interested in taking part as an active institutional participant of the “**Climate Change: The New Evolutionary Challenge for the Galapagos**” Programme.

The Ministry believes the support provided by the Program is very much aligned with our institutional goals related with climate change and our aspirations to develop a resilient and low carbon territory and energy sector.

We would be glad to provide additional information if required.

Yours sincerely,

René Ortiz Durán

Minister of Energy and Non-Renewable Natural Resources
