*Banco del Pacífico is interested in taking part as an active institutional participant of the “**Climate Change: The New Evolutionary Challenge for the Galapagos**” Programme. Banco del Pacífico believes the support provided by the Programme is very much aligned with our Institutional goals related with climate change and our aspirations to develop a green credit line.*

Banco del Pacífico focuses its sustainability management on knowing the needs of its stakeholders, managing socio-environmental risks and generating tangible values, in order to achieve the institution's durability, the well-being of the community and the conservation of the environment.

We would be glad to provide additional information if required.

Yours sincerely,

Andres Baquerizo B.
Chief Executive President
