Bridgetown, BARBADOS, September 14, 2022

Dr. Colin Young
Executive Director
Caribbean Community Climate Change Centre
2nd Floor Lawrence Nicholas Building
P.O. Box 563 Bliss Parade
Belmopan
Belize

**Re: Three R's (Reduce, Reuse, Recycle) Climate Resilience Wastewater Systems –
Barbados (3R CReWS- Barbados)**

Dear Dr. Young,

The **Government of Barbados** through the **Barbados Water Authority** is grateful to have the opportunity to submit a proposal for grant funding to the Green Climate Fund (GCF) via the accredited entity Caribbean Community Climate Change Centre (CCCCC) for consideration.

The **Government of Barbados** hereby confirms concomitance with the approval of this subject grant assistance to co-finance US \$10.1 M plus an additional US \$ 0.5M to cover any contingencies, related to the following major aspects of this proposal viz:

- (a) Installation of a 9 km pipeline to transport treated wastewater effluent from the Bridgetown Sewage Treatment Plant at Lakes Folly, St. Michael to the lands of Waterford and Lears Plantations.
- (b) Construction of two (2) small (cluster) decentralized wastewater collection and treatment demonstration projects in Zone A locations to produce reuse quality water for domestic/commercial non-potable water applications at Belle Tenantry, and Belle Vue,, St. Michael.
- (c) Development of a potable water and sanitation master plan.

This replaces my letter dated August 4, 2022. Please therefore be guided accordingly and should you require any additional information, do not hesitate to contact us.

Yours sincerely,

Minister
