FIRST (BACKGROUND)

(Will include background information)

SECOND (OBJECT). –

(Will include the object)

THIRD (OBLIGATIONS). - The obligations of the parties subscribing to this agreement are the following (TBD):

I. The obligations of the financier are the following (TBD):

- a) To provide technical support for the implementation of the incentive scheme for conservation and sustainable production in small-scale family agriculture.
- b) To deliver the subsidized credit in recognition of conservation and sustainable production, in accordance with the criteria and mechanism for calculating the value of the incentive for the development of conservation agriculture practices, forest management, conservation of ecosystems and environmental functions.
- c) Monitor and verify the changes found in the farm with respect to the baseline, according to the improvement plan agreed with the beneficiary.
- d) Designate a project technician to monitor the area that the owner will use for the conservation of environmental functions and food production.
- e) Support, through technical assistance, the promotion and development of conservation or sustainable agriculture production strategies that will enable the producer to conserve the defined areas, improve productivity and income potential of the farm.

II. The obligations of the small farmer are the following (TBD):

- a) Consolidate economic and technical efforts to implement sustainable and resilient food systems.
- b) Contribute with technical and operational contributions to the development of training for neighboring communities and small farmers.
- c) Implement land management plans, land use plans and natural resource management plans within the framework of technical standards and guidelines that guarantee the sustainable use of land.
- d) Denounce deforestation processes within the incentivized properties to the competent environmental and/or judicial authorities.
- e) Maintain, take care of and avoid deforestation, soil degradation and the affectation of ecological easements, with the purpose of guaranteeing the conservation of biodiversity in their land.
- f) Make available its technical or work capacity when necessary to carry out the planned activities in the areas destined for management and conservation.

FOURTH (CONDITIONS):

(Will include the conditions of the support provided)

FIFTH (FINANCING):

The financial incentive will be made after the verification of compliance with the areas dedicated to conservation in the property and the follow-up of the sustainable productive practices.

SIXTH (DOCUMENTS SUPPORTING THE AGREEMENT). The following documents are an integral part of this agreement (TBD):

- a) Identity document of the Beneficiary;
- b) Map of the property (result of the diagnosis that supports the viability of the scheme);
- c) Plan of management and adequacy of the property and/or plot.
- d) Certificate of tradition and/or property rights.

SEVENTH (NON-COMPLIANCE).

(Will establish the clauses in case of non-compliance)

EIGHTH (CONFORMITY). The intervening parties declare our conformity with each and every one of the clauses and stipulations within this Agreement, which shall be governed under the rules of civil law, recognized for all permissible effects by law, committing ourselves to its faithful and strict compliance, to which effect we sign it in two copies of the same tenor and for a single legal effect in the municipality of _____ on the ___ days of the month of _____ of the year 20__.
