**26** January B.E. 2566 (2023)

Dear Sir/Madam,

**Subject: Letter of Support to contribute to the implementation of the Thai  
Rice GCF: Strengthening Climate-Smart Rice Farming”**

With reference to Thailand’s proposal on “Strengthening Climate-Smart Rice Farming Project: Thai Rice GCF” that GIZ has submitted to the Green Climate Fund (GCF), the Office of Natural Resources and Environmental Policy and Planning (ONEP) is pleased to support the implementation of the upcoming project and make co-financing available for the project. The project aims at promoting climate smart technologies and waste management (agricultural waste and residual), which can support Thailand to achieve the national greenhouse reduction target and increase adaptive capacity of the fund’s targets, especially farmers who are particularly vulnerable to climate change.

In the recent years, the Environmental Fund (EF) has been supporting various sectors including agriculture and waste management, e.g., addressing Climate Change Through Organic Farming Project and building Resilience for Climate Change Adaptation Based on the Landscapes Project, etc. The objective of the Thai Rice GCF project is aligned with the 5-years funding framework (2023-2027) of the Environmental Fund corresponding to section 23(4) of the Enhancement and Conservation of National Environmental Quality Act B.E. 2535. Therefore, ONEP as the secretariat of the Environmental Fund, intends to act as the Executing Entity (EE) and also provides the combined value of the funded and in-kind contribution to the project value estimated at THB 60,000,000 (Sixty million Baht).

We...

We would like to reaffirm our commitment to support and collaborate as the Executing Entity to take the project forward.

Yours sincerely,

Phirun Saiyasitpanich

Secretary-General

Mr. Reinhold Elges  
GIZ Country Director Thailand and Malaysia
