Re: Co-financing commitment letter for Thai Rice: Strengthening Climate-Smart Rice Farming

Dear Madam/Sir,

I am writing to you to express our intent to support the project titled “Thai Rice: Strengthening Climate-Smart Rice Farming” that was proposed to the Green Climate Fund (GCF) for funding.

The International Rice Research Institute (IRRI) intends to provide in-kind contribution with a total value of Euro 6,243,556 (USD 6,551,475) to co-finance the project. It is understood that the final amount will be mutually discussed and agreed following the terms of an agreement to be executed between GIZ and IRRI, upon the approval of the proposal.

Thank you very much.

Sincerely yours,

Alvin C. Poncin

Chief of Staff

Head, IRRI Portfolio Development and Management Office

IRRI aims to improve livelihoods and nutrition, abolishing poverty, hunger, and malnutrition among those who depend on rice-based agri-food systems. In doing so, IRRI's work protects the health of rice farmers and consumers, and the environmental sustainability of rice farming in a world challenged by climate change. IRRI's work promotes the empowerment of women and supports opportunities for youth in an equitable agri-food system.

INTERNATIONAL RICE RESEARCH INSTITUTE
IRRI is a member of CGIAR
