Subject: Confirmation of support for preparation and implementation of the project  
'ALBAdapt – Climate Services for a Resilient Albania'

Dear Sir/Madam,

The World Meteorological Organization (WMO) is pleased to confirm its commitment on supporting the Government of Albania and its public institutions, and Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) in implementation of the activities of the Green Climate Fund (GCF) project titled "ALBAdapt – Climate Services for a Resilient Albania".

WMO is highly supportive of this project, which contributes to the implementation of important WMO initiatives and activities, including the 'Early Warnings for All' initiative. This project will initiate and support a comprehensive institutional reform associated with modernization, human resource capacity development and, very importantly, support the Government of Albania in ensuring that sufficient resources are mobilized for maintaining climate service delivery. Furthermore, the project highlights the importance of Albania's better integration into the European Meteorological Infrastructure.

WMO has been involved in the preparation of the project and intends to continue to support the Government of Albania and GIZ in their efforts to develop a modern, service focused National Meteorological and Hydrological Service. WMO expresses the willingness to continue to support and contribute to the successful delivery of the project activities.

Hoping that the proposal for this important project will be successful, we look forward of further cooperation under this important project.

Yours faithfully,

Filipe Lúcio  
Director, Member Services and Development  
Department
