

Mangroves for climate: Public, Private and Community Partnerships for Mitigation and Adaptation in Ecuador

Annex 16: Maps

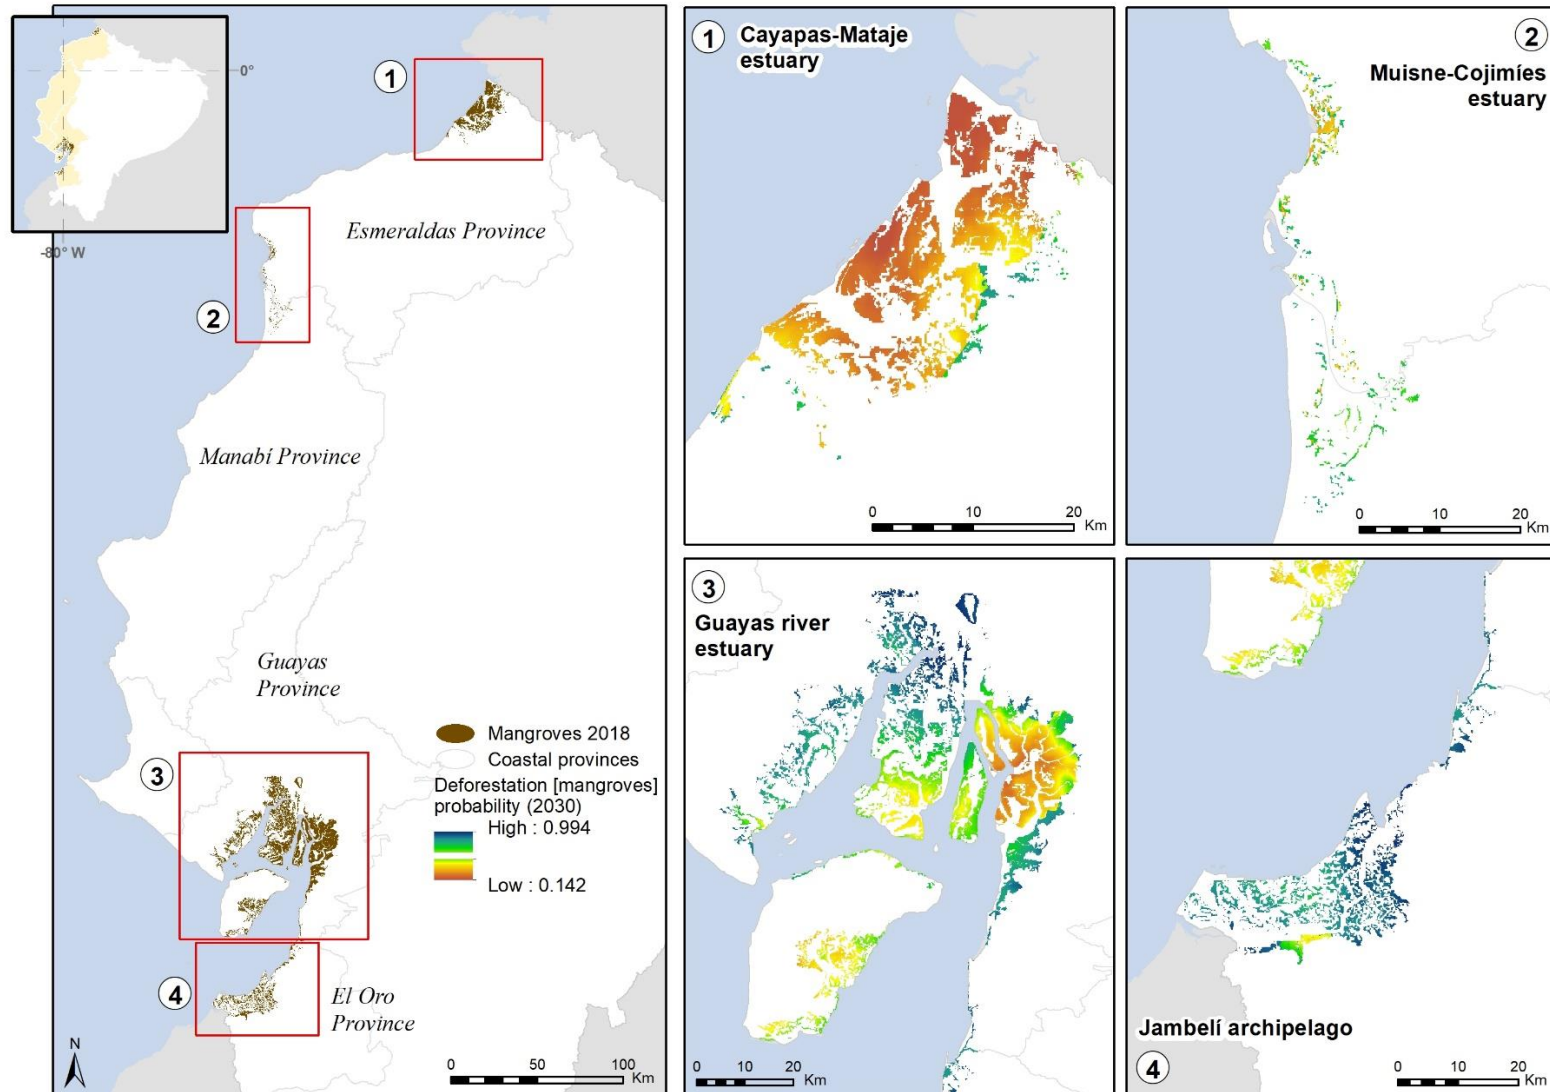

Map 1. Coastal provinces, main cities/towns and mangrove cover (2018)

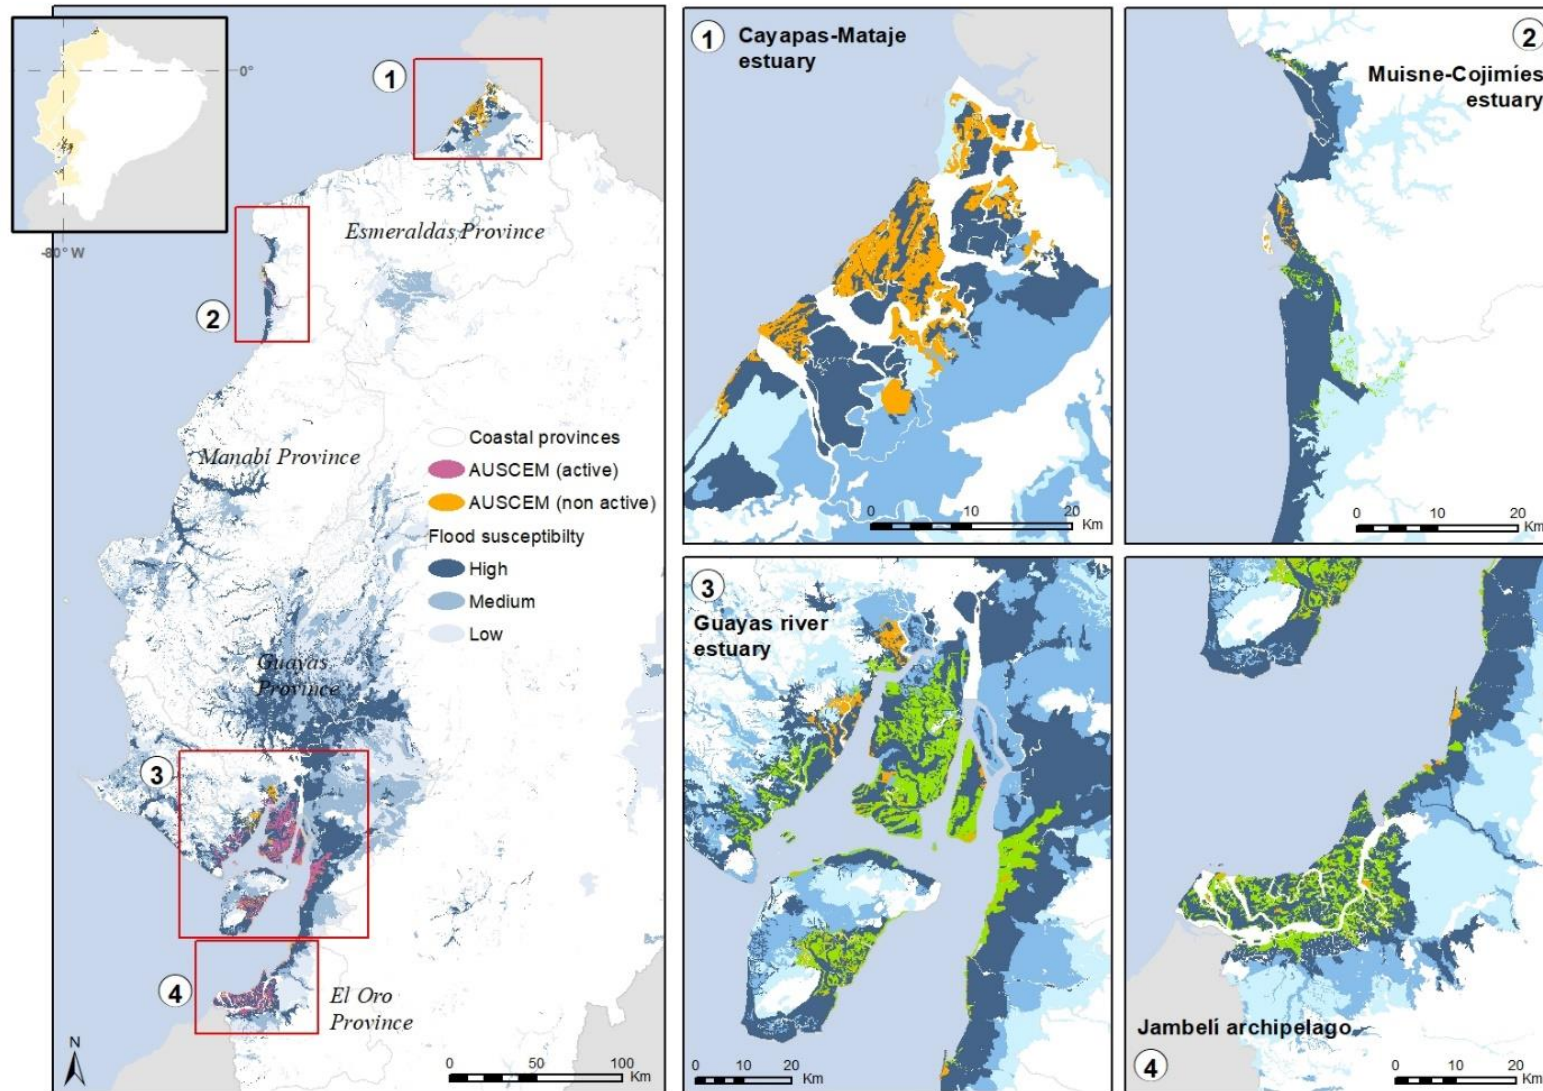

Map 2. Priority municipalities included in the project.

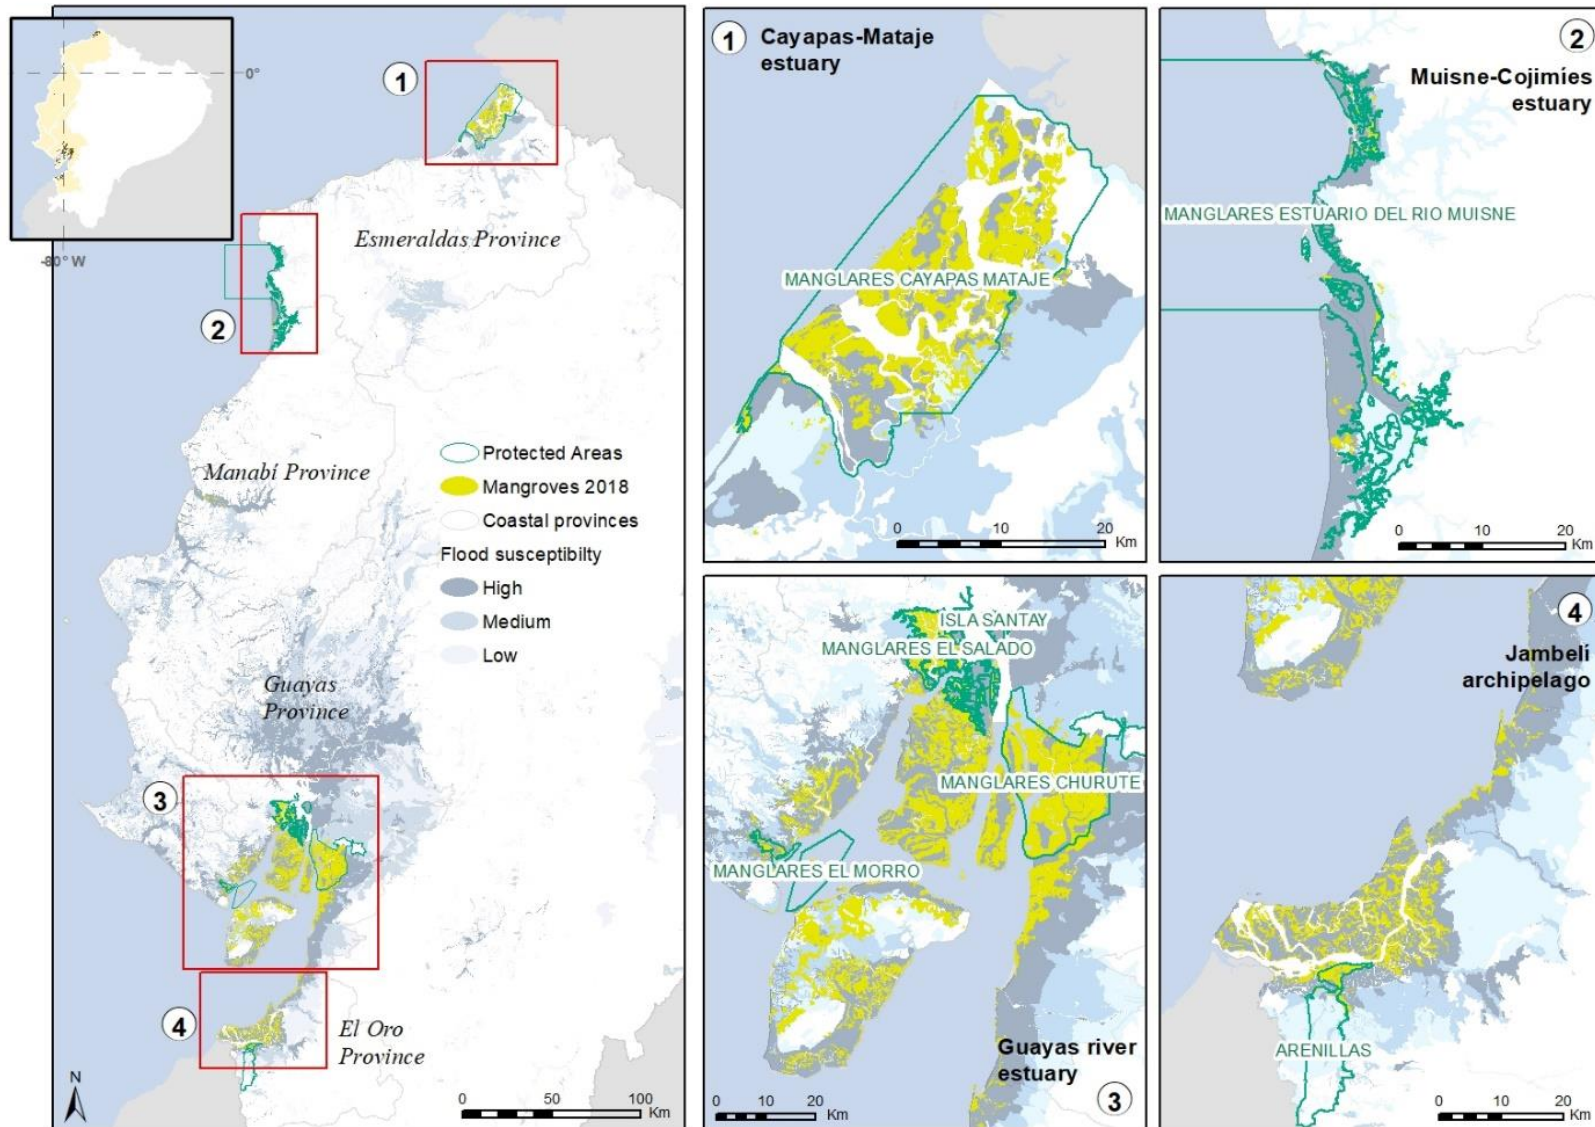

Map 3. Four estuaries included in the project and deforestation risk in mangrove areas by 2030 (based on past deforestation patterns).

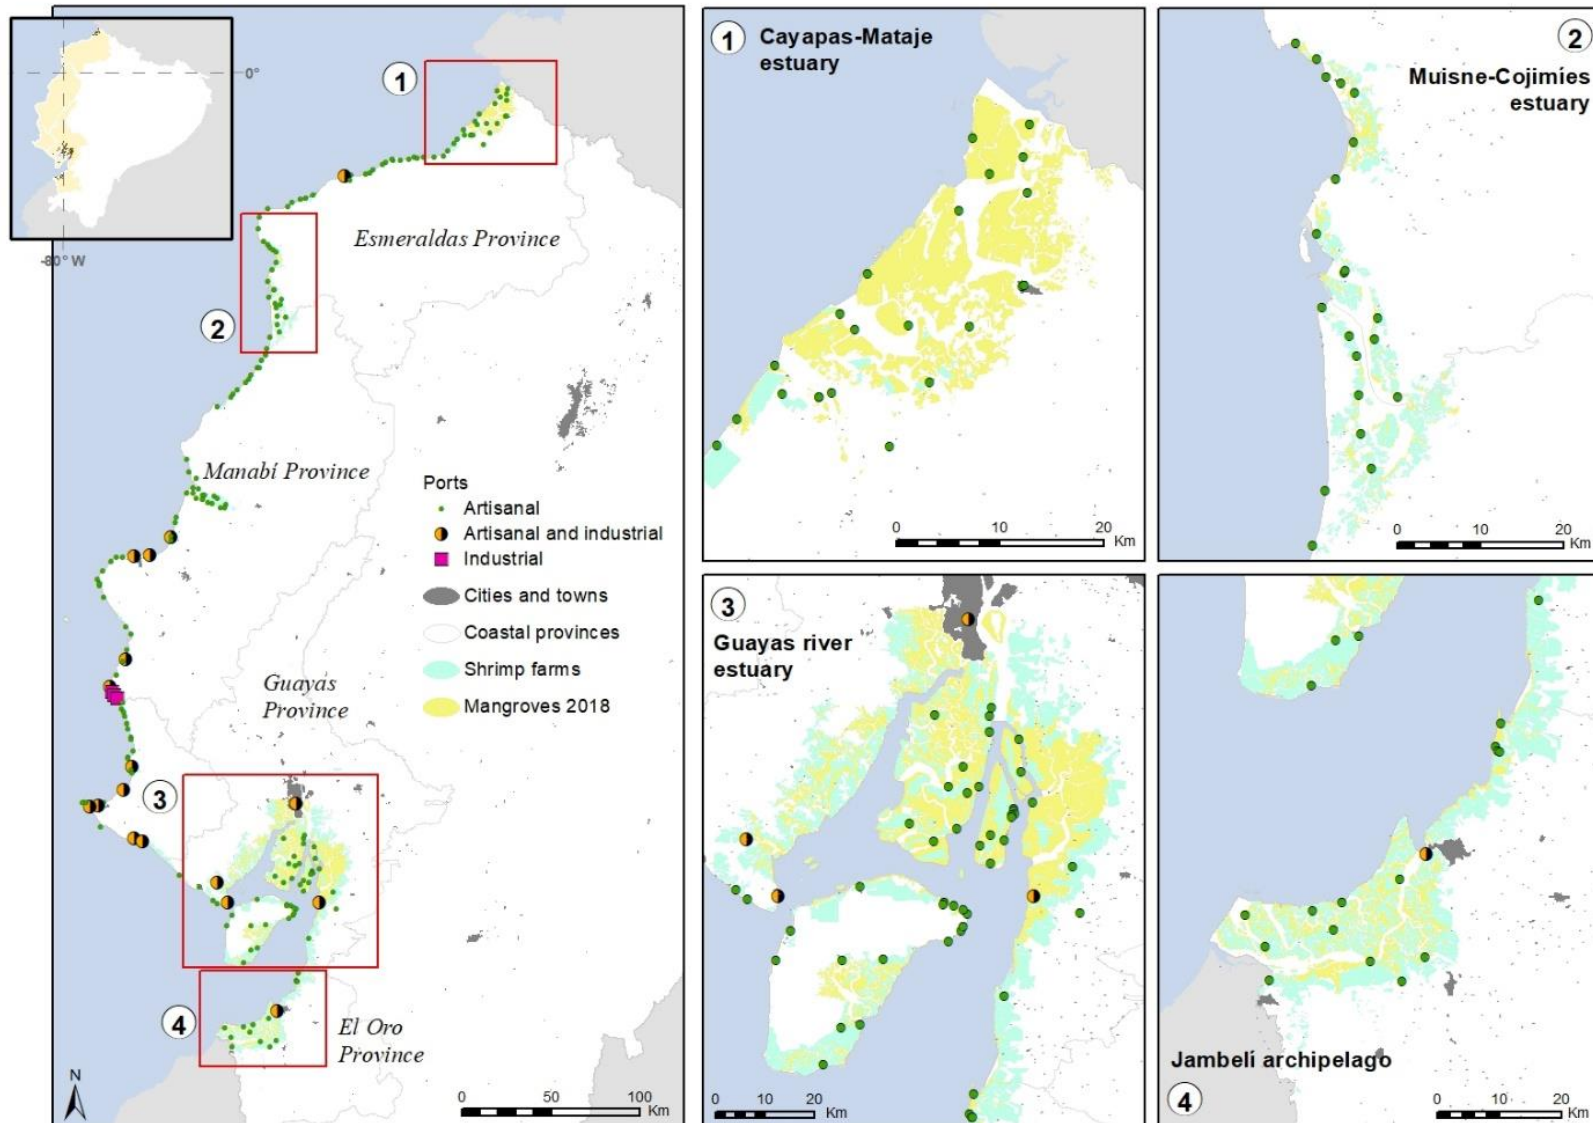

Map 4. Community managed mangrove areas (AUSCEMs) and their current status (active/not active) overlaid with the national flood susceptibility map (riverine and coastal flooding combined). Active AUSCEM areas are indicated in green in the estuary-scale maps.

Map 5. Marine protected areas with mangroves in the four estuaries

Map 6. Location of ports, shrimp farms and mangrove cover

Map 7. Priority areas for mangrove restoration
