Re: Land ownership for the installation of equipment under the project "Toward Risk-Aware and Climate resilient communities (TRACT) – Strengthening climate services and impact-based multi-hazard early warning in Maldives"

Dear Madam, Sir,

This letter confirms that all equipment that will be installed under the project "*Toward Risk-Aware and Climate resilient communities (TRACT) – Strengthening climate services and impact-based multi-hazard early warning in Maldives*" will be installed, operated, and maintained on government owned lands.

Kind regards,

Abdulla Wahid
