The Green Climate Fund ("GCF")

Dear Sir/Madam,

CO-FINANCING FOR "CLIMATE-RESILIENT LANDSCAPES FOR SUSTAINABLE LIVELIHOODS IN NORTHERN GHANA" IN GHANA

I am writing to you to express our commitment to support the project "Climate-Resilient Landscapes for Sustainable Livelihoods in Northern Ghana" in Ghana that was proposed to the Green Climate Fund (GCF) for funding.

Currently, Ghana is one of the countries seeking funding support from the Green Climate Fund to the tune of US\$70,607,136 via UN Environment. Pursuant to GCF decision B.08/10, the content of which we acknowledge to have reviewed, we hereby communicate our no-objection to the "Climate-Resilient Landscapes for Sustainable Livelihoods in Northern Ghana" as included in the funding proposal. In addition, the Programme will work to integrate gender equality and equity in ecosystem-based adaptation (EbA) planning and implementation processes within the broader sustainable development context.

In the light of the above, the Government of Ghana (GoG) would like to confirm estimates of our in-kind and in cash co-finance budget of US\$2,238,967 as indicated in the Table below. The cash co-finance budget will be used for capacity building of the Regional Level Project Governance Structures such as the Regional Environmental Management Committees (REMCs) and maintenance of vehicles to be provided by the Authority at the regional level. Besides, it is also to Strengthen adaptive capacity and reduce exposure to climate risks of the beneficiaries.
