# Gender Action Plan

---

## **FP092: Programme for integrated development and adaptation to climate change in the Niger Basin (PIDACC/NB)**

Multiple Countries | AfDB | B.21/15

10 January 2019

**GREEN  
CLIMATE  
FUND**

Table 8: Gender Action Plan

Activities	Indicators	Timeline	Responsibilities
<p><b>Impact Statement:</b> Increased resilience and improved livelihoods of vulnerable communities, including women and girls, to the negative impacts of climate change</p> <p><b>outcome statement</b> Improved adaptive capacity and reduced exposure to climate risks of women and girls in the region covered by the programme</p> <p><b>Output(s) Statement:</b> ; (i) Equal access for women to adoption of diversified, climate-resilient livelihood options; (ii) Gender responsive and equal participation of women in institutions, coordination mechanisms and regulatory frameworks; (iii) Improved capacity of gender mainstreaming climate change and resilience at national and regional level</p>			
<p><b>C 1 : Development of the resilience of natural resources and ecosystems</b></p>			
<p><b>S/C 1.1 Protection of resources and ecosystems Protection of the resources and ecosystems</b></p>			
<p>i) Land certification/titling policy enacted and implemented— (Access to land for 9,000 women)</p>	<ul style="list-style-type: none"> <li>Ratio in volume of land as accessed by women and men, compared to baseline</li> <li>Community satisfaction (disaggregated by gender and poverty ranking) with changes in land access and titling</li> </ul>	<p>By year</p>	<p>EE</p>
<p>ii) New gender-responsive CSA technologies in crop and livestock production developed through research and transferred to extension services</p>	<ul style="list-style-type: none"> <li>Ratio between the amount and type of agricultural inputs that women and men use, compared to baseline</li> </ul>	<p>Year 6</p>	<p>EE</p>
<p>iii) Extension packages on good practices in gender-responsive CSA developed by extension services this will include (i) establishment of 45 multifunctional platforms for women's groups and (ii) support for the functioning of 100 women's groups working in natural resources management</p>	<ul style="list-style-type: none"> <li>% of women capable of handling improved pastoral and agriculture activities</li> <li>Community satisfaction (disaggregated by gender) with changes in natural resources management</li> </ul>	<p>Year 6</p>	<p>EE</p>
<p>iv) Training for men and women farmers conducted on gender-responsive CSA technologies on-farm or at functional farmer training centers (agro-meteorological data use support for 10,000 women in their agricultural activities, sensitizing 500,000 women on climate change adaptation techniques and other resources).</p>	<ul style="list-style-type: none"> <li>Number of women farmers implementing climate resilient agriculture technologies and practices</li> <li>Number and percentage of women and men trained in sustainable production technologies, soil and water conservation, agroforestry, etc.</li> </ul>	<p>Year 6</p>	<p>EE</p>
<p><b>S/C1-2 Strengthening the shared management of natural resources</b></p>			
<p>v) Ensure participation of women and men in O&amp;M, data modelling, forecasting, training for staff National agencies</p>	<ul style="list-style-type: none"> <li>Proportion of males and females reached by climate related early warning systems and other risk reduction measures</li> <li>No of people with skills on climate and weather information (disaggregated by gender by sex and age group)</li> </ul>	<p>Year 6</p>	<p>EE</p>

Activities	Indicators	Timeline	Responsibilities
<p><b>Impact Statement:</b> Increased resilience and improved livelihoods of vulnerable communities, including women and girls, to the negative impacts of climate change</p> <p><b>outcome statement</b> Improved adaptive capacity and reduced exposure to climate risks of women and girls in the region covered by the programme</p> <p><b>Output(s) Statement:</b> ; (i) Equal access for women to adoption of diversified, climate-resilient livelihood options; (ii) Gender responsive and equal participation of women in institutions, coordination mechanisms and regulatory frameworks; (iii) Improved capacity of gender mainstreaming climate change and resilience at national and regional level</p>			
	<ul style="list-style-type: none"> <li>Gender impact analyses conducted to identify gender-specific needs and protection measures related to floods, droughts, and other climate change related disasters in the basin.</li> </ul>		
vi) Promotion of improved climate resilient pastoral and agriculture activities for women farmers	<ul style="list-style-type: none"> <li>Number of women and men receiving environmental services payments for protecting watersheds or areas of high biodiversity in PIDACC program areas</li> </ul>	Year 6	EE
<b>C 2: Development of population resilience</b>			
<b>S/C 2.1, Implementation of Climate Resilient Growth Infrastructure</b>			
vii) Policy support to facilitate access to production inputs and financial services in place—this will include (i) provision of support for the establishment of 30 SMEs for women (ii) financing of 60 integrated sub-projects supported by women	<ul style="list-style-type: none"> <li>Percentage of increased income for pastoral and agriculture activities for women</li> </ul>	Year 6	EE
<b>S/C 2.2 Strengthening of the community capacity for adaptation to Climate Change</b>			
viii) Baseline and targets for Gender Interventions established and integrated into work planning, reporting, Monitoring and evaluation	<ul style="list-style-type: none"> <li>Sex-disaggregated indicators established for project performance M&amp;E system<sup>14</sup></li> </ul>	Year 1	
ix) Integration of strategies in human capital development programs to increase women’s participation in the workforce and improve their productive contribution to the program	<ul style="list-style-type: none"> <li>Gender Specialist recruited at the regional (NBA) level</li> <li>National social development/gender expert recruited for each NPCU at country level</li> </ul>		

<sup>14</sup> ; monitoring will be on-going to ensure activities are effectively carried out and targets reached; progress reports to include gender-related achievements and constraints.
