Subject: On some changes regarding the Albanian focal point to the Green Climate Fund

Dear Mr. Bamsey,

Let me start by congratulating You on behalf of the Government of the Republic of Albania and the Ministry of Environment, as well as by expressing my appreciation on the Green Climate Fund, which gives a valuable support to our country to address its climate change mitigation and adaptation needs.

Being aware on the importance of this initiative, as well as to provide an all-inclusive process and better coordination of the actions that Albania will undertake to combat the unavoidable impacts of climate change, I would like to inform you that the Ministry of Environment has decided to transfer the focal point responsibilities to the Institution of the President of the Republic of Albania. From now on, the designated focal point for the Republic of Albania to the Green Climate Fund will be the Secretary General of the Institution of the President of the Republic of Albania, **Mr. Alqi Bllako** (e-mail: abllako@president.al).

Please, accept the assurances of my highest consideration for the Green Climate Fund and yourself.

Sincerely Yours,

Lefter KOKA
MINISTER OF ENVIRONMENT
