Country Climate Platform- Nepal Initiative

Ms. Prashamsa Bhusal,
Climate Finance Unit, NDA Nepal

GCF REGIONAL DIALOGUE with EAST AND SOUTH ASIA

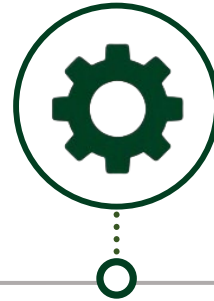

Colombo, Sri Lanka
14–17 September 2026

Country Climate Platform: Nepal Initiative

Platform Focus

- Strengthen climate finance governance and institutional coordination
- Institutionalize pipeline governance and prioritization
- Facilitate private sector engagement and GESI mainstreaming
- Build sustainable institutional capacities beyond readiness support

Core Functions

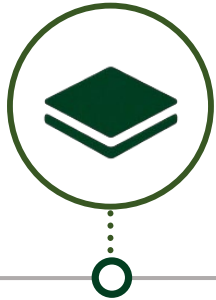

- Establish inclusive **National Climate Finance Country Platform**
- Operate through **Climate Finance Investment Digital Platform (CFIDP) – the digital backbone**
- Integrate policies, pipelines, proposals, investment data, monitoring, and knowledge products
- Enhance transparency, accountability, coordination, and evidence-based decision-making

Institutional Structure

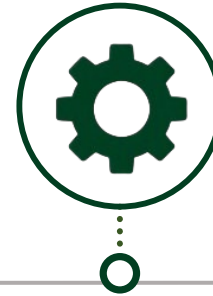

- Ministry of Finance (Climate Finance Unit) as coordinator and system administrator
- Supported by CFSC, CFTC, IMCCCC, PLCCCCs, and DCCs.
- Direct Access Entities: AEPC and NTNC
- Engagement of line ministries, provincial/local governments, private sector, civil society, academia, and development partners
- Anchors DFIMS-linked oversight of climate finance information and reporting

National Designated Authority (NDA)

Coordination & Oversight

- Coordinates and administers CFIDP as system lead
- Guided by CFSC and CFTC for oversight and SOPs
- Aligns policy via IMCCCC and local coordination bodies
- Builds DAE/AE readiness for direct access

Responsibilities

- Institutionalize **climate finance governance in planning & budgeting**
- Ensure **transparency, accountability & evidence-based decisions**
- Mobilize public and private climate finance for NDC 3.0, NAP and LTS implementation
- Engage stakeholders across government, private sector, academia and civil society

Setting up a country platform

1

Early GCF engagement

- ✓ **Policies**-NAP, NDC and LTS
- ✓ **Priorities**-Landscape restoration, adaptation and resilience, Energy, DRR, CRA, Transport
- ✓ **Financial** Gap – limited finance tracking, no centralized, real-time view of climate finance
- ✓ Host Agency: MOAFE; Sectors: adaptation, mitigation, cross-cutting

2

GCF Readiness Support

- ✓ CFSC (oversight), CFTC (technical guidance), IMCCCC (policy alignment), and provincial/local coordination committees
- ✓ Engage ministries, sub-national governments, DAEs, private sector, civil society, & development partners through CFIDP,
- ✓ Provide the access to stakeholder to CFIDP as per their role.
- ✓ Climate Finance Unit (NDA) as secretariat, supported by CFSC, CFTC, in close coordination with IMFCCC

Setting up a country platform

We expect functional comments and feedback as we are in the process of finalizing readiness proposal to institutionalize the Climate Finance Investment Digital Platform as a foundation of the Country Climate Platform in Nepal.
