Re: Internal Approval to implement Funded Activity

To Whom It May Concern,

I am the Senior Vice President and General Counsel of World Wildlife Fund, Inc. (the "**Accredited Entity**"), and in such capacity I am duly authorized to issue this certificate in accordance with the Accreditation Master Agreement between the Accredited Entity and the Green Climate Fund (the "**Fund**"), dated 16 November 2017, as amended and restated on 12 December 2022.

For the issuance of this certificate, I have reviewed the Bylaws of WWF-US, which provide that the President of the Corporation shall exercise general supervision and control over the day-to-day operations of Corporation and may be assisted in the performance of duties by one or more Vice Presidents, or such other management employees of the Corporation as are necessary for the proper operation of the Corporation. Lucas Black, Vice President Climate Finance of WWF-US, is a management employee with responsibility for WWF-US' role as an Accredited Entity for the Fund. Mr. Black has presented *Fiji Coral Reef Resilience Project* (the "**Funded Activity**") to WWF-US' senior management and relevant program, safeguards, and operational teams for approval.

I am of the opinion and confirm that:

- (a) All required internal approvals have been obtained by the Accredited Entity to undertake the Funded Activity; and
- (b) The Accredited Entity has the capacity and authority to implement the Funded Activity.

Sincerely,

Jocelyn Starzak

Senior Vice President and General Counsel
