

# GCF Structured Dialogue with the Caribbean

## Session 3: Caribbean Regional Road Map (advanced)

Presenters:

Mr. Mahendra Saywack, Country Programming Division

19-22 June 2017 | Placencia, Belize

# Readiness support portfolio

## Global: \$34.7M for 81 countries (107 proposals)

### CARIBBEAN

#### Portfolio:

**11 approved**

(USD 3.7 M, 10 countries)

(2-Antigua and Barbuda, Bahamas, Barbados, Belize, Dominican Republic, Grenada, Guyana, Haiti, Jamaica, and St. Vincent and the Grenadines)

**4 under implementation (disbursed)**

(2-Antigua and Barbuda, Dominican Republic and Guyana)

#### Pipeline:

**8 proposals**

(USD 12.7 M, 6 countries)

3 submitted

(Antigua and Barbuda, Dominica and Dominican Republic)

5 to be submitted

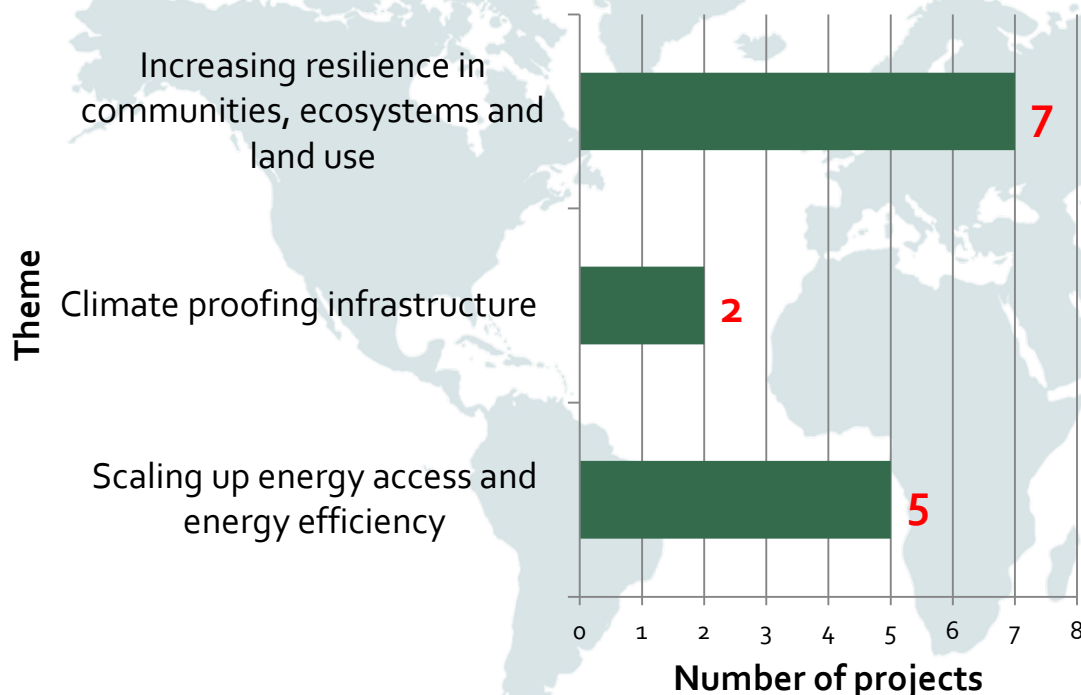

(2-Dominica, Haiti, St. Kitts and Nevis, and St. Lucia)

# Caribbean Project Preparation Pipeline

## 14 potential projects from 6 countries (GCF req: USD 406.3 mil)

Caribbean PPF pipeline by theme

Caribbean PPF pipeline by category

# Caribbean Regional Road Map

## 42 potential projects covering 15 countries (USD 1.2 bil)

### Caribbean project pipeline by theme

### Caribbean regional pipeline by category

# Key Takeaways from the High-Level Segment

# High-Level Segment Key Takeaways

---

## Sectors

energy (waste), agriculture, tourism

---

## Themes

resilience, water, institutional capacity

---

## Modalities

regional cooperation, complementarity  
between national/regional

---

## Steps

# Actionable regional initiatives

## Managing climate risk

- **What:** Build platform for climate risk data management
- **Who:** A&B, Grenada lead
- **How:** Regional readiness proposal to develop concept & identify institutional arrangements

## Expand capacity at regional level

- **What:** Increase quantity of quality of expertise in region (e.g. RE, water or project development)
- **Who:** Jamaica leads
- **How:** Regional readiness proposals for direct access entities or other institutions

## Others??

- **What??**
- **Who??**
- **How??**

# Outcomes of the 4<sup>th</sup> Council of Ministers of Environmental Sustainability COMES (27 April, 2017 in Grenada):

**WELCOMED** the support provided by Member States to the OECS Commission and the progress being made to accelerate access to climate finance;

**ENCOURAGED** Member State National Designated Authorities (NDAs) to accelerate the programming of readiness support from the GCF to enable them to strengthen their capacities to access project funds from the GCF and other sources of climate finance at the national and sub-regional levels;

**ENCOURAGED** Member State NDAs that have not done so to accelerate actions to gain accreditation for Direct access accredited Entities to the GCF and other climate funds at the national and sub-regional levels, noting that the region is yet to accredit private sector entity;

**ENDORSED** the recommendation that Member States urgently make available, to the extent possible, the necessary human resource, financial and material investments to effectively secure access to climate finance;

# Outcomes of the 4th COMES:

**ENCOURAGED** Member States, in collaboration with the OECS Commission, to explore opportunities for formulating an integrated OECS climate finance strategy and the establishment of a regional framework for Climate financing, including the funding instruments of the OECS Secretariat and Antigua and Barbuda and the Virgin Islands, and other accredited or financing entities from other participating Member States;

**MANDATED** the OECS Commission to explore opportunities for securing such human, financial and material resources as may be necessary, to enable the Commission to effectively enhance climate finance access in the region to implement the Convention and the Paris Agreement, including the feasibility of a sub-regional approach to the Nationally Determined Contributions (NDCs);

**ALSO MANDATED** the OECS Commission to transmit a letter to the Secretariat of the GCF, inviting a dialogue to discuss issues concerning opportunities for engaging all OECS Overseas Territories in GCF initiatives; and

**FURTHER MANDATED** the OECS Commission through its Climate Finance Working Group to build the case/context and refine the framework for future dialogue in order for all OECS Member States to benefit from multilateral and bilateral mechanisms.

# Key Takeaways from the High-Level Segment

- Jamaica urged the **facilitation and improvement of communications** between parties to address priorities such as **water resources, human health, tourism, agriculture, coastal resources and energy**.
- There should be **more public awareness on climate change** due to the severe impact on the ecosystem, erosion of coastlines, agriculture due to change on the weather patterns that are causing severe droughts, flooding and storms. **Irrigation programs are necessary to help to assist with proper water management.** – St. Vincent & the Grenadines
- The main priorities of Barbados are **tourism, solid waste management and energy**. Shorelines are eroding on a daily basis and a lack of land makes it impossible for the Government to address solid waste.
- Haiti stated that **adaptation and resilience is a priority** for the country. Mention was made that climate change is causing **erosion of coastlines affecting the infrastructure and the tourism sector**.
- **Food security, water security, improved agriculture and coastal and marine adaptation** are the main priorities of Belize.
- **Food, water, energy and waste management** are priorities of Grenada. Limited land mass and limited capacity of waste management is becoming an immediate problem to the country.
