

WHAT ARE THE EXPECTATION OF CSOS?

- Transparency and accountability (effective participation in the design and development of the policies of the GCF)
- Effective use of resources (paradigm shift, priority climate actions, real and direct benefits)
- Protection of the environment and human rights in the implementation of programmes and projects.
- Strengthening of national capacities to deal with climate change.

CSOs participation at Board Meetings

decision-making
process

Influencing the
process of decision-
making of the Board

WHAT IS THE SPACE FOR CIVIL SOCIETY PARTICIPATION AT THE COUNTRY LEVEL?

- Effective participation in the design, development and implementation of proposals seeking resources from the GCF.
- Participatory monitoring during the entire cycle of proposals for programmes and projects

WHAT IS THE VALUE ADDED OF THE WORK WITH CIVIL SOCIETY?

- Take advantage of the knowledge and the technical ability of civil society can provide in the design, development and implementation of proposals (knowledge of the local context, historical memory).
- Prioritise activities to be financed by the GCF.
- Generate proposals that promote sustainable development and effective climate results
- Generate programmes and projects that have a crosscutting vision, and that are legitimate and inclusive
- Have a more comprehensive view of the problem and possible solutions including the voices of affected populations at the local level.
