Break-out Group: Samudra *Report*

*Elizabeth Philip
Country
26 April 2017*

Key Feedback

- 4 countries presented (Thailand, Malaysia, Jordan, China-FECO)
- Selection criteria for AE's to access funding not clear- guidelines would be provided by GCF
- Increasing the direct access to entities- GCF could put advisory services to various countries
- Countries need a communication process to disseminate information about their priorities, roles of entities etc
- The various countries need to finalize the country programmes and prioritize their needs
- 2 learning experiences- Jordan: Private sector interventions to access funding to meet country priorities
- FECO(China): It is a direct access entity and is helping the country liaise between the NDA and GCF
