Existing National Climate Change Priorities	Potential Readiness or Project Preparation support	Delivery Partner / Accredited Entity
<p>Mitigation priorities :</p> <ul style="list-style-type: none">• Renewable energy and energy efficiency• Low carbon transport• Forestry/landscape management/RED D+	<p>Concept note stage (solar)</p> <p>Ongoing project preparation</p>	<p>UNDP</p> <p>Not yet</p> <p>Conservation Internal (CI)</p>

Funding Proposals to be submitted

- Local governments and climate change (NCDD-S) – direct access
- Landscape management (CI)
- Solar energy (UNDP)
- Eco-system based adaptation (UNEP)

PPF applications

Readiness proposals

- Support to NDA and country programme development (approved)
- Support to NAP formulation and implementation (focus on downscaling and vulnerability analysis in key sectors - to be submitted in 2018)

Project Title: Mitigating climate change impacts through forest management and private sector investment in Cambodia

Organisation: Conservation International (CI)

Objective: Reduce emissions from deforestation in ecosystem service-rich landscapes by stimulating private investment in low emission agriculture and forestry (*and renewables for the fund TBD*) and advancing subnational REDD+ activities in important natural forest landscapes.

Budget: 40 million

Project Name: Local Governments and Climate Change (LGCC)
Organization: National Committee for Sub-national Democratic
Development Secretariat (NCDDS)
Duration: 2018-2022
Total Budget: USD14,460,000.00
Target Districts: 100 Districts

- GOAL (aligned with CCCSP): Reducing Vulnerability to climate change impacts of people and critical systems (natural and societal) in the most vulnerable rural Districts of Cambodia
- OBJECTIVE: Cambodia's local governments (rural Districts and Communes) are enabled to plan, finance and implement investments to reduce climate change vulnerability
