Report

Kuenzang L Sangey
Bhutan
26 April 2017

Key Feedback

- 7 Presentations from Asian Countries, including Asian SIDS and LDCs
- Key themes presented included Forestry, Agriculture, REDD+, Renewable Energy, Transportation, Water Resources and Eco-systems based adaptation
- Countries have identified the need to access GCF Readiness support to further develop their national pipelines and access GCF (At least 2 have submitted)
- Countries stressed the principle of country ownership and provided examples of how they have applied this nationally
- An opportunity was identified to make higher use of the private sector
Many countries have nominated and are exploring the accreditation of direct access entities
- An opportunity was identified for bottom up design of regional projects
