UNDP Assistance on Climate Finance in Asia-Pacific -Supporting Countries with Access to Vertical Funds-

Supporting Countries to Access Climate Finance

Changing with the World

UNDP STRATEGIC PLAN: 2014-17

Helping countries to achieve the simultaneous eradication of poverty and significant reduction of inequalities and exclusion

*Empowered lives.
Resilient nations.*

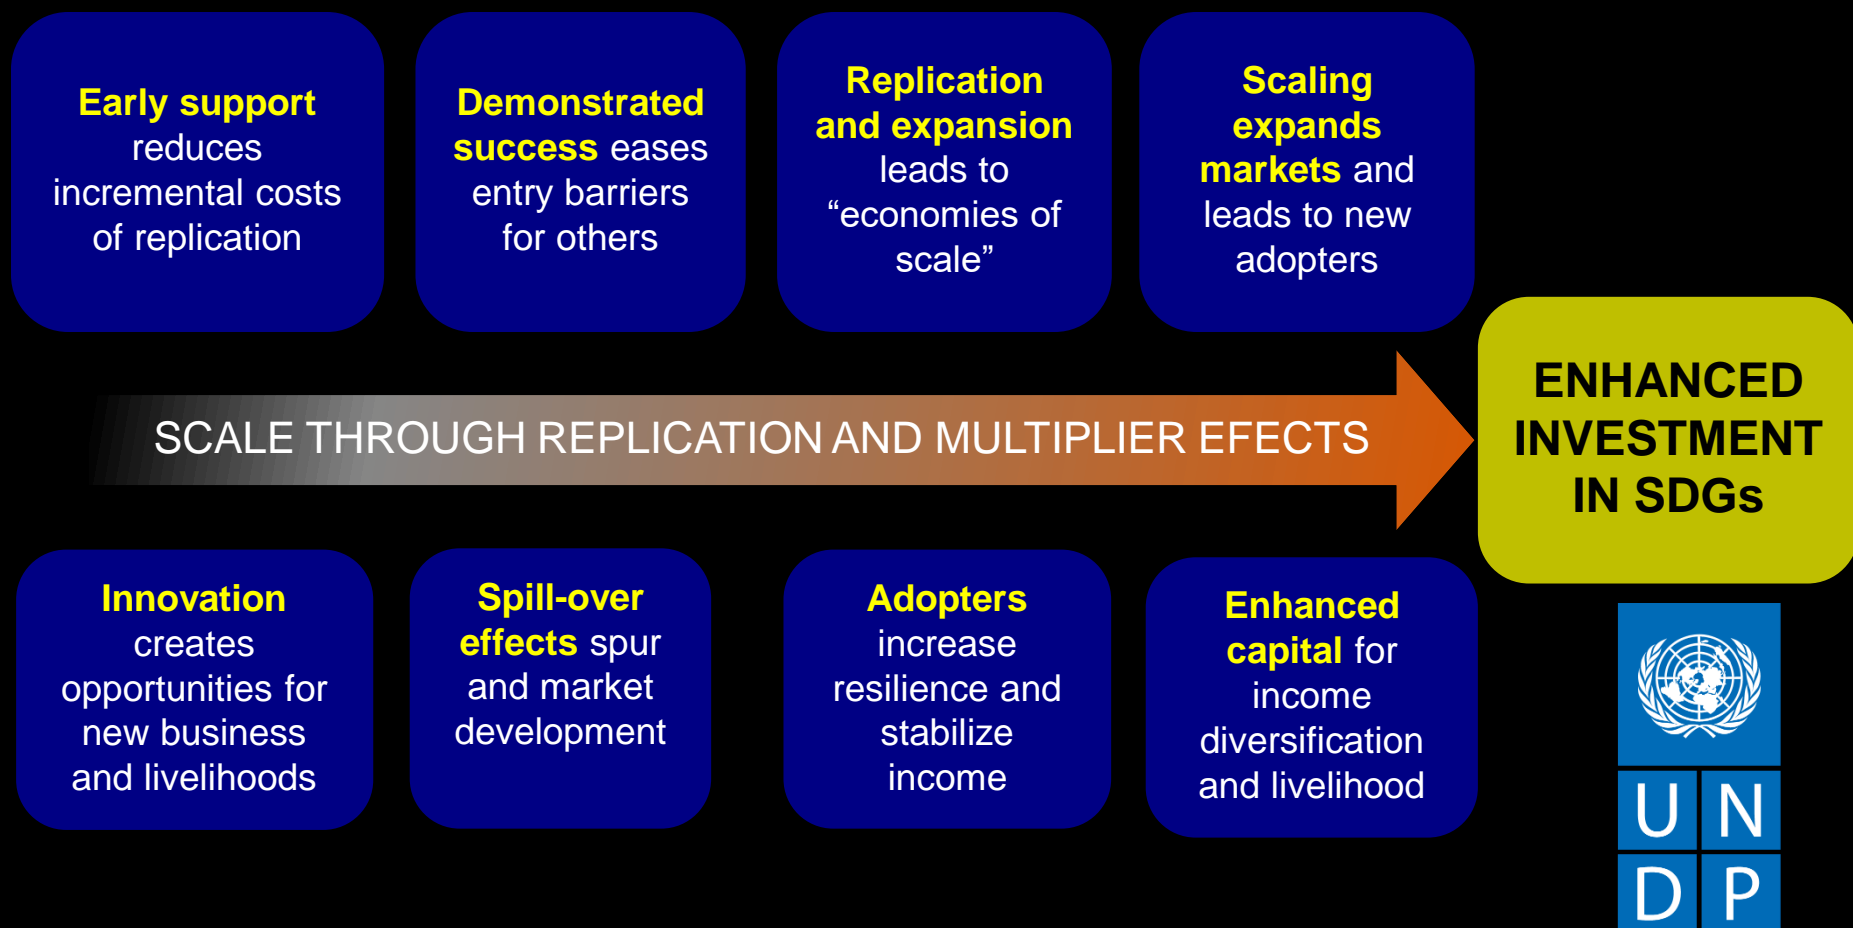

Facilitating country ownership during design and development

*Empowered lives.
Resilient nations.*

In line with UNDP Policies and Procedures (Fiduciary Standards)

Scaling up vertical funds investments towards achieving SDGs

UNDP's approach to 'blended finance': Improving the risk-return profile of investments

Packages of public instruments to catalyze clean energy scale-up

REDUCE RISK

**Policy
Derisking**

Examples:

Clear regulations

Streamlined customs

TRANSFER RISK

**Financial
Derisking**

Examples:

Loan guarantees

Public loans

COMPENSATE FOR RISK

**Financial
Incentives**

Examples:

Tax incentives

Grants

DIVERSIFY RISK

Aggregation

**(By Private
Sector)**

**UNDP's long-held area
of expertise**

**Partnerships with
IFIs and/or develop
our own policies**

**Using grant
resources sparingly
and in a targeted,
efficient manner.**

Linking GCF Projects to Paris and Key lessons from UNDP's country engagement

*Empowered lives.
Resilient nations.*

- NDA must signal focus of project idea to UNDP
- Linking national development targets, SDG targets and Paris Agreement targets
- Catalyzing and re-directing public and private sector finance
- Information requirements for proposal formulation often do not exist
- Project development takes time
- Securing stakeholder buy in (FPIC) takes time
- GCF funds need to fit within broader ecosystem of financing and development partners.
- Partnerships and fit for purpose accreditation is critical to help countries move closer to Paris targets
