PHILIPPINES: MOST AT RISK TO CLIMATE CHANGE

CLIMATE CHANGE IS A NATIONAL SECURITY THREAT

**GREEN
CLIMATE
FUND**

FIRST

GCF could pave the way for a climate-smart and climate-resilient Philippines where climate financing remains complex and sporadic.

Sustainable Integrated
Area Development
Framework (SIAD)

Climate Risk Management

GCF could support projects such as climate risk management through mangroves, bamboos, seagrass, and coral reef rehabilitation and protection.

Solar-powered Irrigation Facilities

SECOND

The GCF could support existing laws and modalities that encourage private sector participation as well as opening more avenues for partnerships.
