GREEN  
CLIMATE  
FUND

## Objectives

**1.** Support development of project ideas with strong climate rationale

**2.** Focus upstream GCF (especially NAP) implementation to build successful investment pipelines

## Outcomes:

- Capacity increased to produce project pipelines with strong climate rationale
- Specific project ideas strengthened
- Linkages increased between outputs of adaptation planning and project development
- Methods shared for engaging private sector actors through adaptation planning
- Recommendations from participants to improve GCF guidance

# Steps to enhance the climate rationale of GCF supported activities

(document GCF/B.21/Inf.08)

## Step 1: Climate driver

Understanding the earth climate system and its drivers

## Step 2: Hazard

Understanding how climate services are generated and applied for adaptation planning

## Step 3: Impacts, exposure, vulnerability and risks

Understanding/identifying climate impacts, exposure, vulnerability and risks. Understanding how risks are derived from hazard, exposure and vulnerability

## Step 4: Problem identification and analysis

Defining core problem based on climate rationale as a starting point for project design

## Step 5: Transformation of problem to project objectives

Reversing negative statements from the problem analysis into projects objectives and desired effects

## Step 6: Creation of theory of change

Creating theory of change tree to lay out a detailed strategy to achieve expected results

## Step 7: Development of Logical Framework from theory of change

Translating the theory of change tree into projects' goals, outcomes, outputs and activities

## Step 8: Concept note development

Understanding how a proposed design fit into GCF Project idea/concept

Establishing the climate  
case

Developing interventions

## 1) Climate Science Basis

Scientific underpinning for evidence-based climate rationale and theory of change of all GCF funded projects and activities

### Adaptation

2a) Climate impacts to be addressed

2b) Vulnerabilities and risks of impacts to human wellbeing

### Mitigation

2c) Emission trajectory

2d) Pathways to emissions shift trajectory

## 3) Solutions

Interventions for addressing barriers based on analysis of options

## 4) Integration

Integration into broader policy and decision-making processes

## Webinar | Gender-Responsive NAP Processes

Angie Dazé, Na-Hyeon Shin, UnaMay Gordon

PUBLICATION DATE: March 26, 2018

RESOURCE TYPE: Webinars

This webinar explores how countries can make their NAP processes more gender-responsive. Watch a recording and review the webinar's presentations below.

## Webinar | International Public Finance for the NAP Process

Jason Spensley, Asrat Yirgu Senato, Jo-Ellen Parry

PUBLICATION DATE: December 12, 2017

RESOURCE TYPE: Webinars

This webinar explores how can countries mobilize domestic public finance to help develop and implement recording and review the webinar's presentations below. Agenda Overview of international public finance NAP Global Network Secretariat) Green Climate Fund support for NAP processes (Jason Spensley, [...]
