

# Key climate change ambitions and priorities for Serbia

"GCF Structured Dialogue with Eastern Europe and Central Asia,,

- High-level session -

11 - 14 September 2018

# Paris agreement - NDC

## ***Mitigation***

- **Energy:**  
Energy efficiency&RES
- **Waste:**  
Landfills closure&Composting
- **Forestry:**  
Afforestation & Regeneration

## ***Adaptation***

- **Agriculture:**  
Irrigation and water use efficiency & Change times of field operations, practices and cultivation
- **Water resources:**  
Flood protection and monitoring, including early warning system
- **Forestry:**  
Fire protection forest roads & Adequate tree species, provenances, population and genotypes, which show higher tolerance to altered climate conditions.

## ***Cross-cutting***

## *GCF Role*

*The main supporting tool for delivering*  
Increasing ambitions

- Increase of intervention in EEC:*
- Increase visibility on possibilities*
- Increase of number of national accredited bodies*
- Improve cooperation with Ministries of finance*
