

# WEBINAR: CY2023 APR Reporting and PPMS

Green Climate Fund

7 November 2023

# Agenda

AGENDA	TIME
<b>Part 1: Introduction and updates on PPMS</b>	<b>45 min</b>
1. Opening remarks	5 min
2. PPMS Overview and APR Form Evolution	5 min
3. Changes in APR CY2023 Forms (Demo)	25 min
4. Updated Project Stories Tab (Demo)	10 min
<b>Part 2: Facilitated Q&amp;As</b>	<b>45 min</b>

# Part 1: Introduction and updates on PPMS (45 minutes)

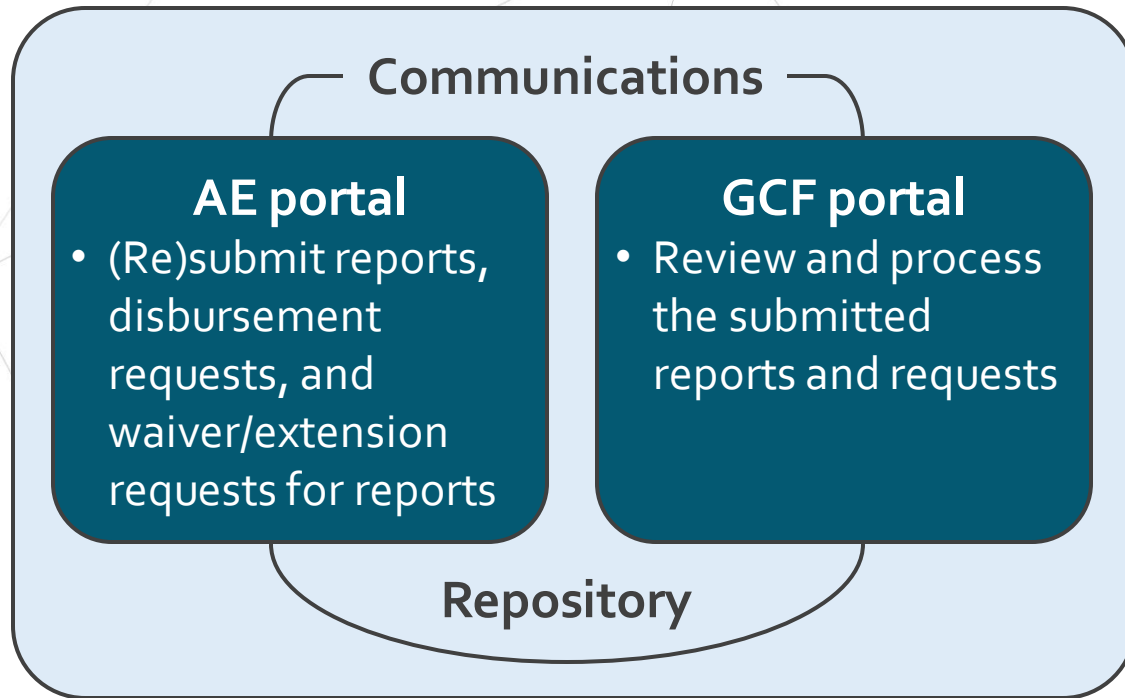

# 1. Opening Remarks

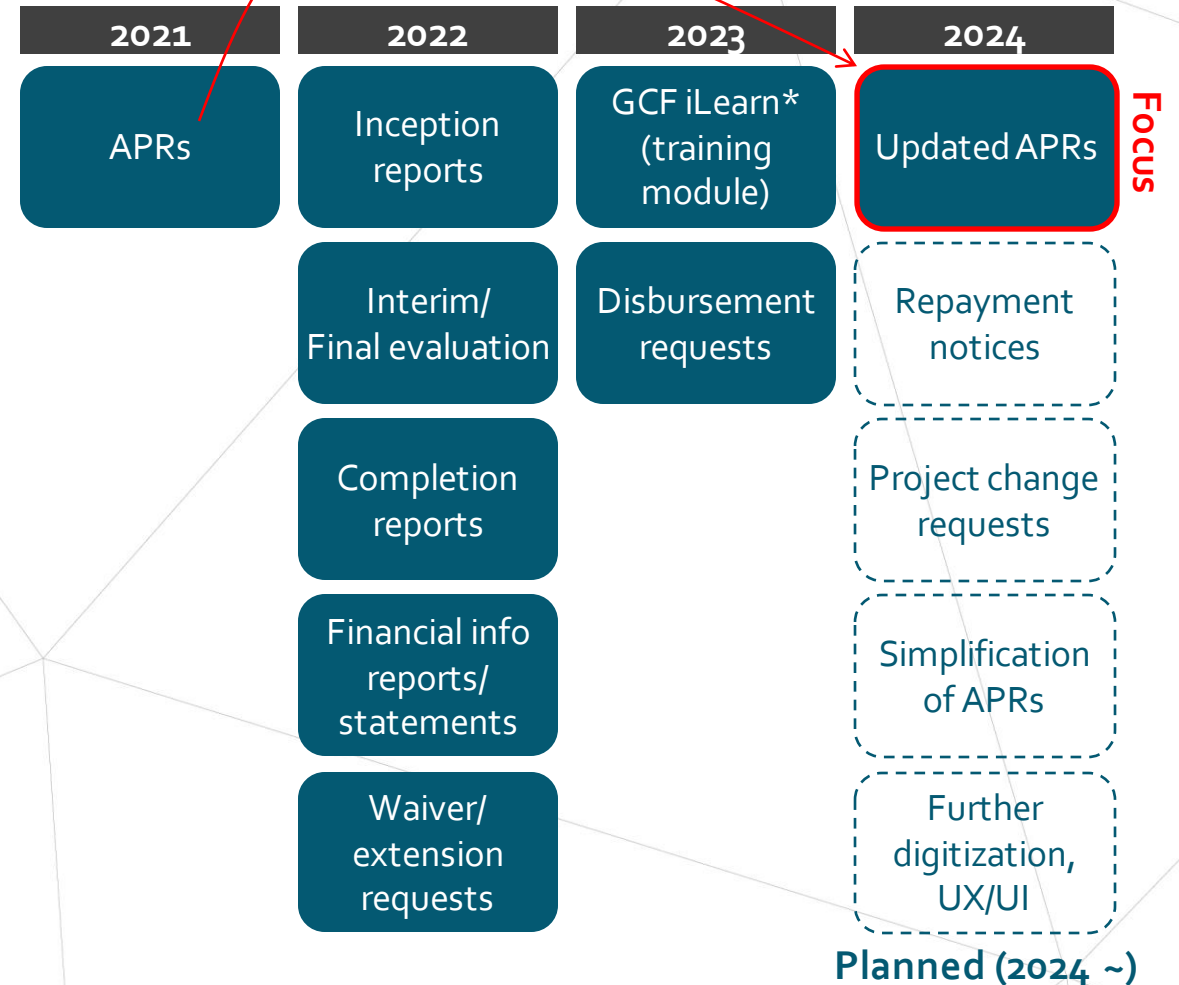

**Gareth Zahir-Bill**  
**Deputy Director of Portfolio Management**

## 2. PPMS Overview and APR Form Evolution

### Portfolio Performance Management System

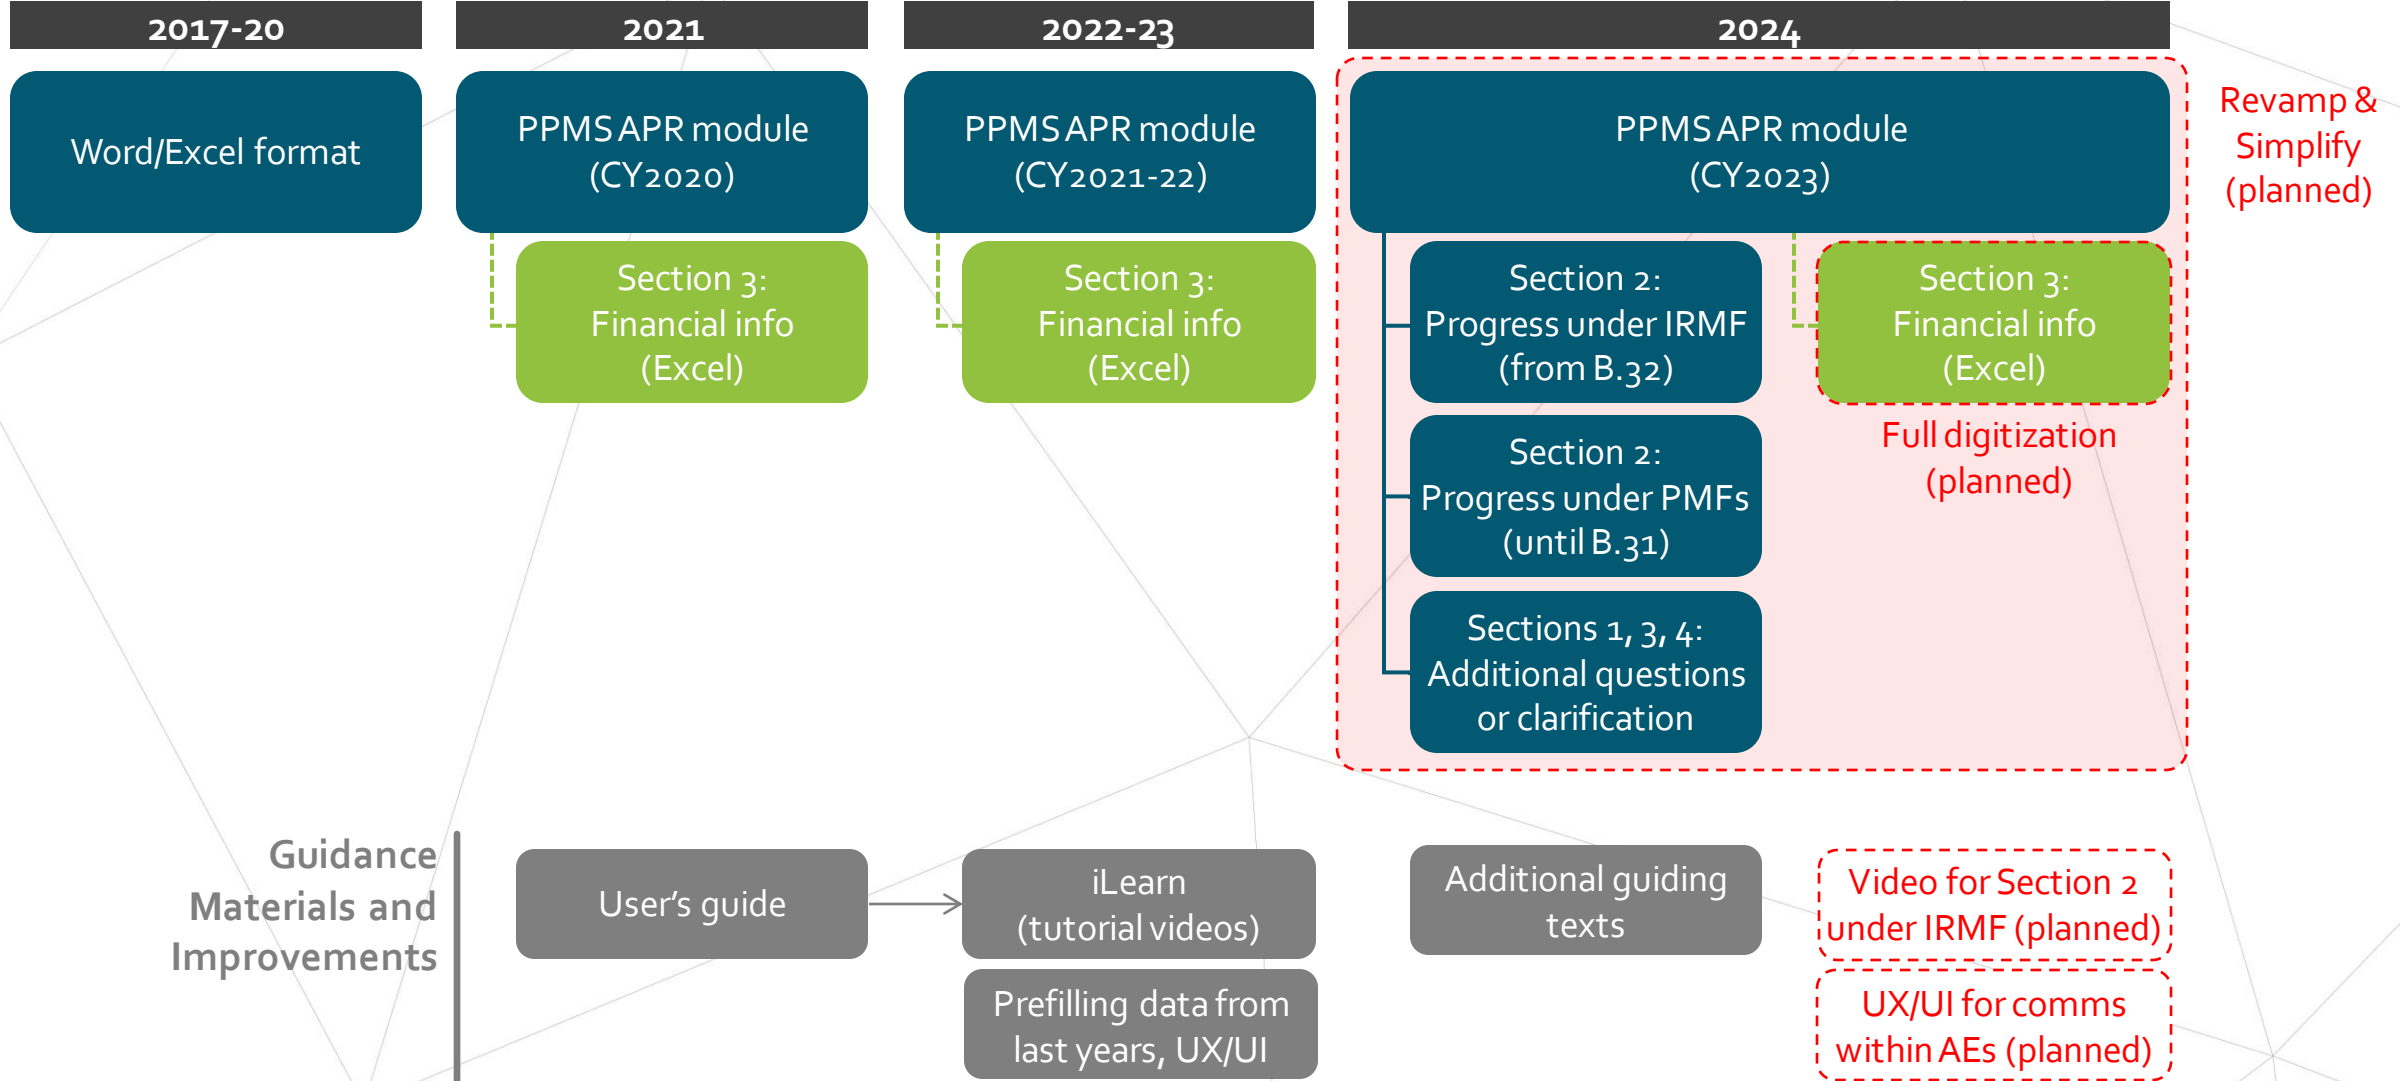

### PPMS modules

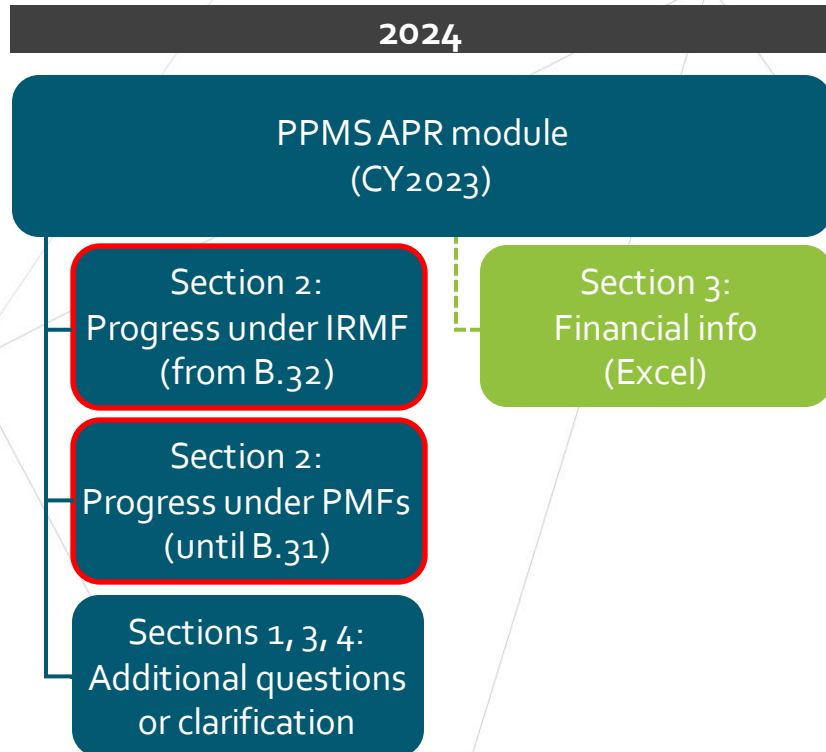

\*Link to [GCF iLearn](#)

# 2. PPMS Overview and APR Form Evolution

## 3. Changes in APR CY2023 Forms (Demo)

### Section 2: Implementation Progress

#### Both under IRMF and PMFs\*

- Detailed guidance on definitions/measurements
- Prefilling from FPs (IRMF); from last year (PMFs)
- Simplified Investment Criteria reporting
- Additional info on ultimate beneficiaries/investors (asset owners/managers)

*NB. Private sector co-investment platform only*

#### Under IRMF (from B.32)

- Log frame changes to reflect new Core Indicators and Supplementary Indicators approved under the IRMF
- Additions to capture progress on co-benefits

#### Under PMFs (until B.31)

- Additions with fund-level outcome indicators (M 5.1 onwards and A 5.1 onwards)

\*Links to [IRMF \(Integrated Results Management Framework\)](#) and [PMFs \(Performance Measurements Frameworks\)](#)

## 3. Changes in APR CY2023 Forms (Demo)

2024

PPMS APR module  
(CY2023)

Section 2:  
Progress under IRMF  
(from B.32)

Section 3:  
Financial info  
(Excel)

Section 2:  
Progress under PMFs  
(until B.31)

Sections 1, 3, 4:  
Additional questions  
or clarification

### Additional info to be requested

#### Section 1: General Information

- Subsection 1.7
- List of Executing Entities (EEs) and HQ country AND outputs that EEs are actually implementing

#### Section 3: Financial Information

- Subsection 3.3
- Indicative disbursement projections for two calendar years (2024-2025) per financial instrument  
*NB. Internal planning purposes only*

#### Section 4: Environmental and Social Safeguards & Gender

- Subsection 4.1.5
- List of CSOs, NGOs, other platforms, initiatives, and organizations that were involved or continue to be engaged according to the approved funding proposal's Annex 7. Summary of Consultations and Stakeholder Engagement Plan
- List of any other stakeholders involved in the stakeholder engagement process

## 4. Updated Project Stories Tab (Demo)

\*Formerly, Success Story tab

**'Those who tell the stories,  
rule the world'**

- Plato

**'When the whole world is silent,  
even one voice becomes powerful'**

- Malala Yousafzai

**'Content is  
(Queen)'**

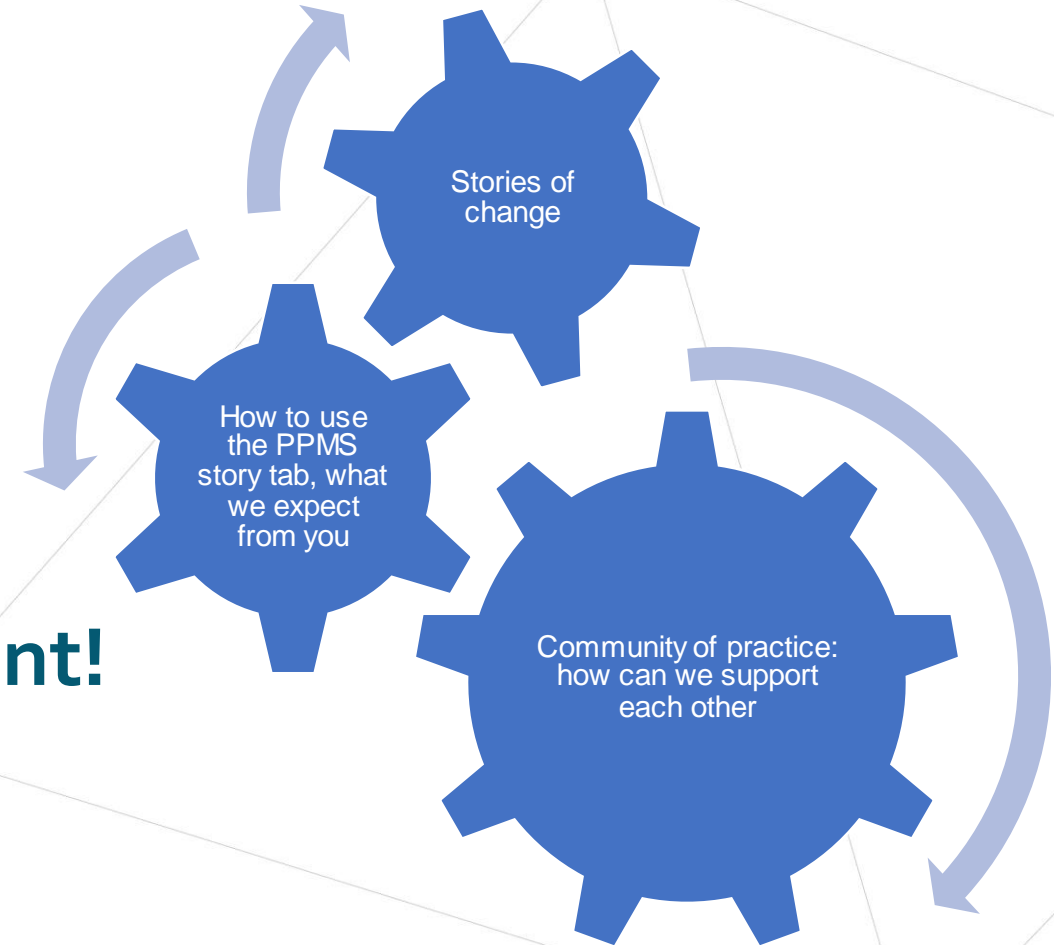

- Bill Gates

## WHY stories of change?

- GCF uses public funds; we have a **reporting responsibility**
- The more we can showcase how funds are being transformed into impact on the ground, the more contributor countries are encouraged to **maintain their commitment to GCF and climate action**.
- Our projects are changing lives – let's honour the people who we are supporting by **giving their voice and story a platform**
- Solution stories **travel, and last**

## Great stories don't happen by accident!

- **Structured approach** to regularly exchange: input, stories, materials that show change
- We want to be a **partner: better together** = multiple channels and exposure
- Resources, capability, **desire!**

**GCF story ecosystem**

# WHAT to include in your story?

1. What is the **climate issue** your project is addressing?
2. How is the GCF-funded initiative **solving** the issue?
3. What **activities** are planned for the future?
4. Has anything occurred that has **surprised** you?
5. Is there a **person** in your community who has been positively impacted by the change your initiative has brought?

GCF-1 PROGRESS REPORT

## The voices of Datem del Marañón: protecting one of the most biodiverse ecosystems in the world

**D**atem del Marañón, located in northern Peru, is home to one of the largest and most biodiverse peatlands not only in Peru, but in the entire world. Spanning more than 3.8 million hectares, this remote province is home to a diverse ecosystem with more than 261 species of birds, unique marine life, and *agujaje*, one of the most abundant palm trees in South America.

For hundreds of years, the Amazonian people have understood that to live in kinship with nature, they must listen to it with respect and admiration. Climate change has caused profound impacts on the region, with frequent droughts, flooding, heatwaves, and changes in primary productivity, affecting indigenous people and their native land. The Datem del Marañón project (hereafter project) is currently being implemented by Proforanpe, the Environmental Fund of Peru, a GCF direct access entity, and the first organisation approved for funding by the GCF Board in 2015. This USD 9.1 million

project helps indigenous communities in this northern Peruvian province manage their wetland resources in ways that avoids deforestation and the large-scale release of greenhouse gases stored in local peatlands.

While peatlands cover only three to five per cent of the Earth's surface, they are key in addressing climate change, estimating to hold more than 39 per cent of the planet's carbon stocks.

Indigenous engagement and local support are core values of the project and necessary in mitigating the effects of climate change in the region. In Musa Karusha, a native community in the Datem del Marañón province, fishing is considered a traditional and ancestral communal activity, a sustainable means of living, and an essential protein of the native diet.

Gunter Yandari, President of the Association of Katinbaschi Artisanal Fishermen, leads the commercialisation of artisanal

OPPOSITE: Guillermo Yambato, VP of the Katinbaschi Autonomous Territorial Government, and member of the Association of Katinbaschi Artisanal Fishermen.

STORIES OF REAL-LIFE IMPACT

57

# How to use the PPMS project story tab

## Live demo

- Success Stories renamed to “Project” Stories
- Additional data fields on the submission date, submitters’ name and contact details
- New function to show submission status of the reports (draft, in review, complete)

# Comms community of practice & opportunities

## Collaborating

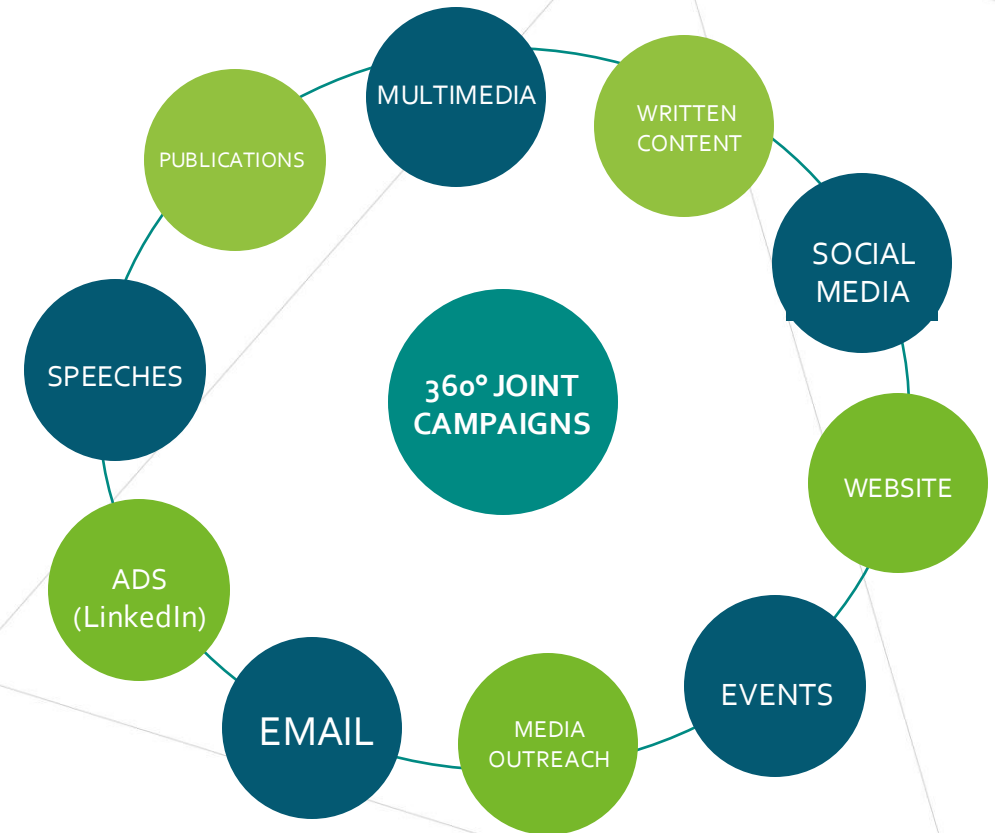

- Identify stories and exposure opportunities
- 1:1 meetings together every quarter to share GCF updates and communications plans & upcoming campaigns
- Shared opportunities: COP, Board mtgs,...

## Exchanging

- What's working (and what isn't)
- Good practice examples

## Building capacity

- Designing communications plans
- How to tell a story, how to promote it
- Invite the Solutions Journalism Network for training and instructive work on how to frame positively
