Amazon Eco Bio Business Facility (EBBF)

Peruvian Amazon Eco Bio Business Facility (Amazon EBBF)

Project type: Enhanced Direct Access (2023-2033)

Team members and relevant stakeholders:

- Accredited and Executing entity: Profonanpe
- Beneficiaries: 75 Eco and Bio bussiness* (EBBs), Ministry of Environment

Project budget and sources of funds:

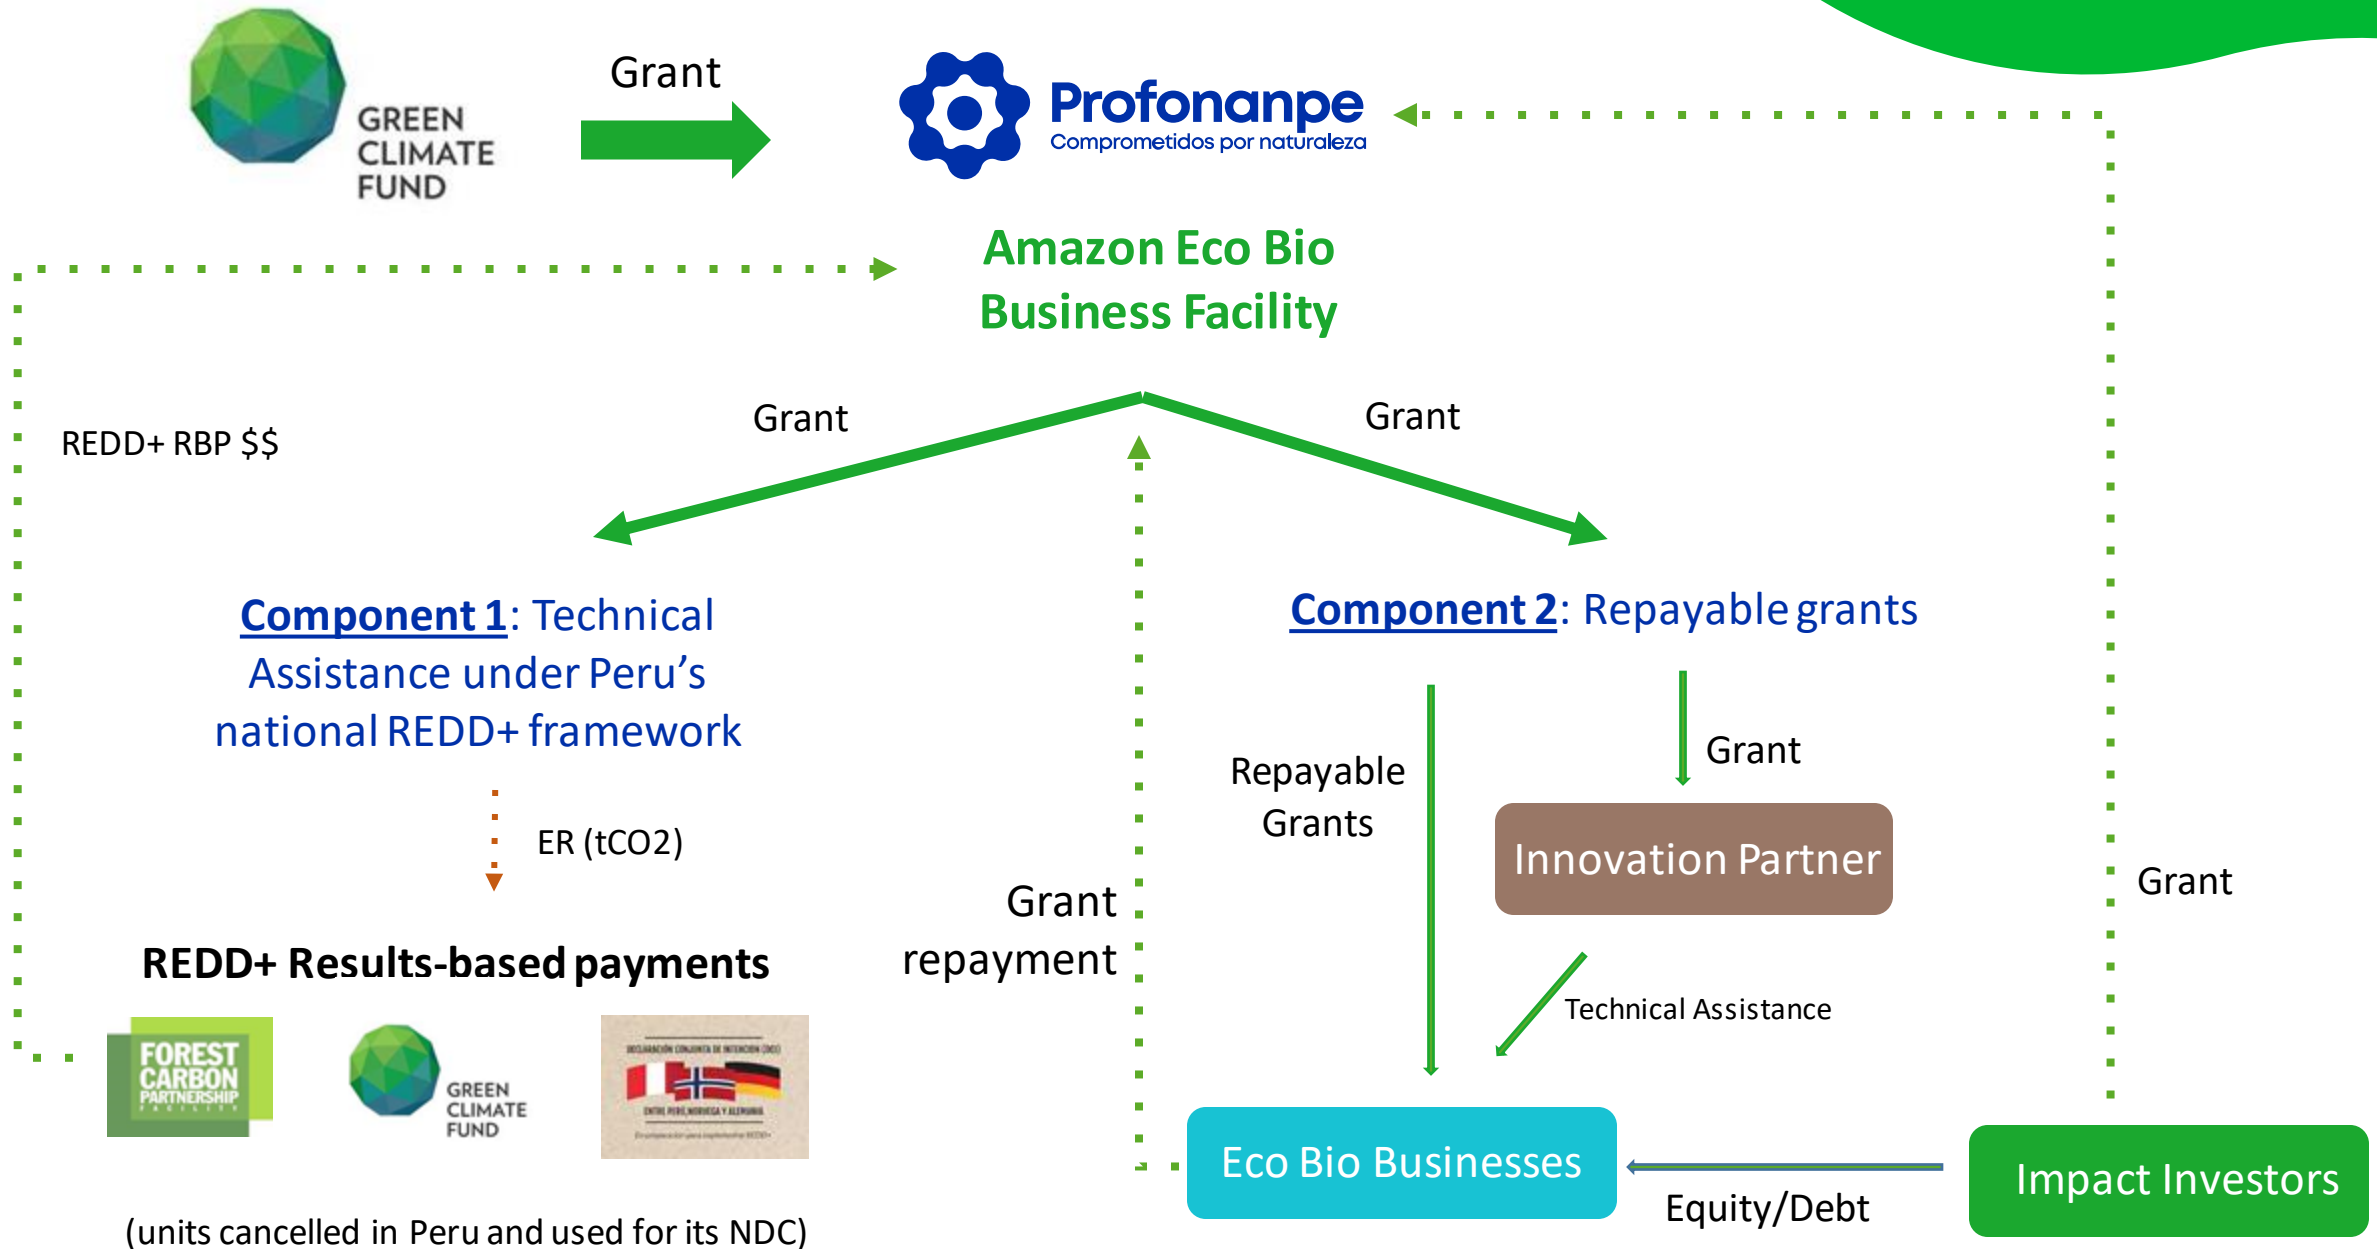

- USD 10,000,000
- GCF Grant: USD 8,972,400
- Co-financing: USD 1,027,600 (Profonanpe and MINAM)

Project objectives:

1. Support the sustainable management and conservation of Peruvian forests by investing in eco bio businesses (EBBs) providing technical assistance and seed capital grant funding (repayable).
2. Support REDD+ infrastructure in Peru and pilot the “nesting” of small-scale interventions under the national framework.

*Businesses that are based on the sustainable use of biodiversity products, taking into account the criteria of environmental, social and economic sustainability

Flow of Funds

Outcomes

1

Strengthen eco bio - businesses
in the **Peruvian innovation**
ecosystem through technical
assistance.

2

Scale **75 eco bio- businesses**
through reimbursable grants
including support for
investment leverage.

3

Promote a **Round Table** of
national and international
Investors as a platform to
connect investors and EBBs.

Co-benefits

Increasing the **resilience** of communities through the creation of **green jobs**.

Biodiversity **conservation** and **ecosystem services**.

Endemic species conservation.

Ensure **economic income** that improves the quality of life of the communities.

Enhance **labor inclusion** of **women**

Contribute to the **professional growth** of **young people**

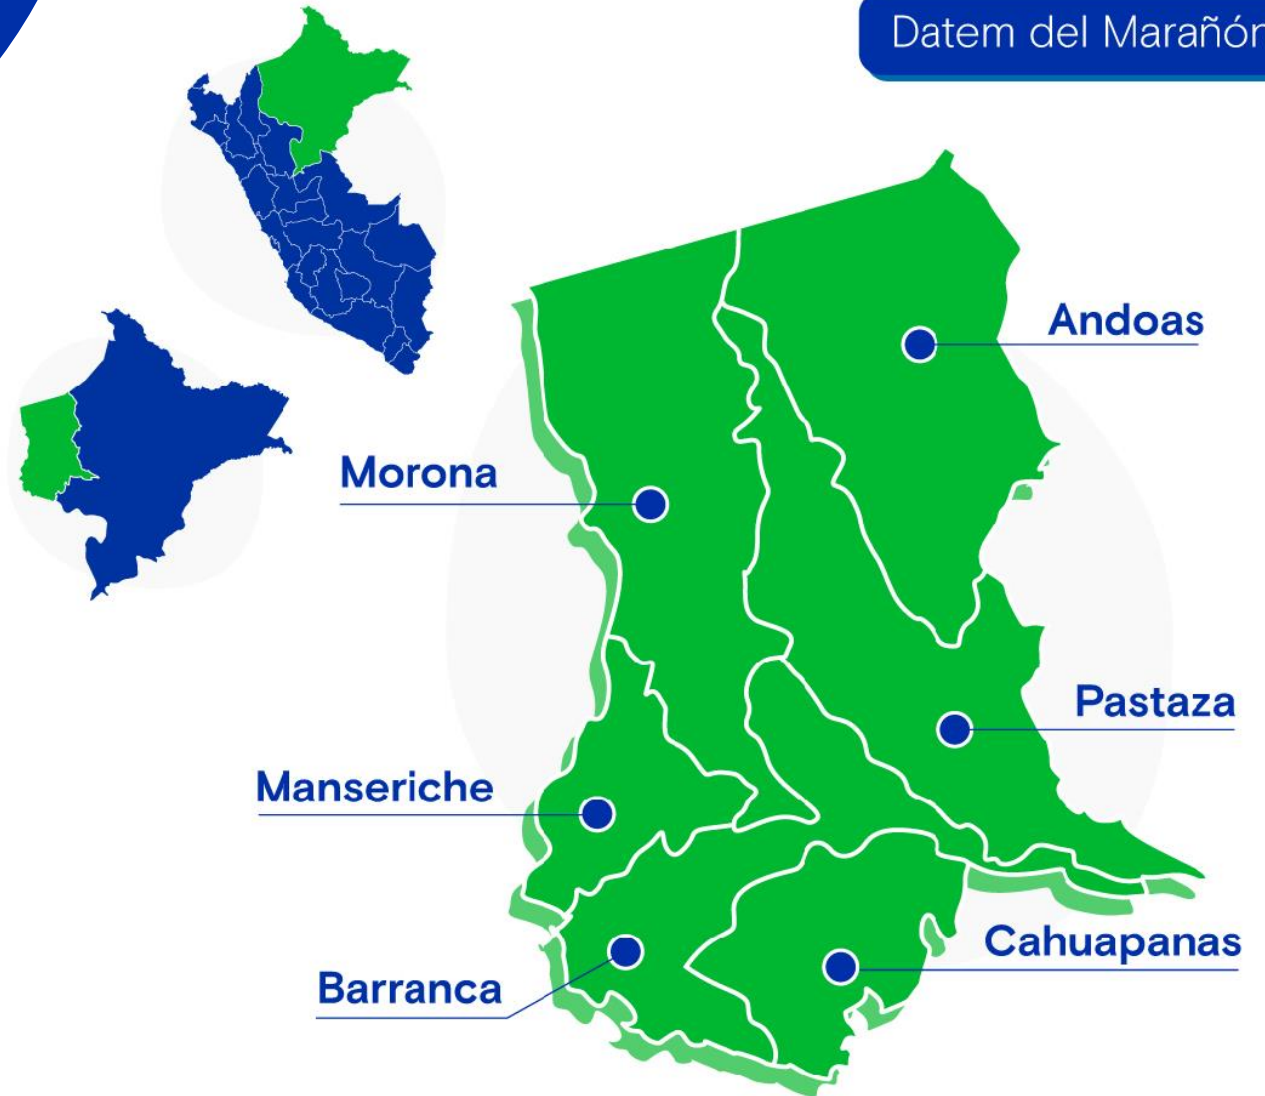

FP 0001- Building the Resilience of Wetlands in the Province of Datem del Marañon, Peru

- By 2021, 418,722 hectares are managed in the project's area of influence with a carbon stock of 234,106,975 tCO₂-e, which represents 9.3% and 9.2% of the province, respectively.
- As of 2021, the project has benefited 10,200 people in the province who belong to 88 indigenous communities and annexes. It is important to highlight that other interventions, public and/or private, are also contributing to the reduction of emissions, which ensures the complementarity of efforts.

Bio businesses in Loreto

Datem del Marañón

14 Anchor biobusiness

49 Business' units

At date we have 10 Anchor Bio Businesses and 36 business units, where around 59 Native Communities participates.
