Lessons learned and experience on project implementation from FP022:

Development of agriculture orchards in degraded environment (DARED)

Ms. Meryem Andaloussi, Head of Environment Service, ADA

Rabat, Kingdom of Morocco
24–28 June 2024

Project Overview

- This project aims to **enhance rural resilience, support argan producers, and improve livelihoods**, particularly for women, while sequestering significant carbon.
- Total project value: USD 49.2M (100% Grant)
 - GCF Financing USD 39.3M (80%), Co-financing USD 9.9M (20%)
 - The use of GCF grants is justified by the lack of locally available funding for this type of project
- Entities:
 - Accredited Entity: ADA
 - Executing Entity: The National Agency for the Development of Oases and Argan tree Zones (ANDZOA)
- Project period: approved in 2016, to be completed in 2025

Project Components

1. **Planting** argane tree orchards on an area of 10,000 hectares

2. Organization of the **upstream components** of the argane value-chain

3. **Capacity building, knowledge management,** Comanagement of Natural Argan Forest and scientific research promotion

Lessons learned & Experiences on project implementation

Thank you
