Dear colleagues,

We are pleased to have this opportunity to engage in the update of the GCF Strategic Plan. As an accredited entity of GCF, FECO pay more attention on the project development and approval mechanism, and the capacity development supporting from the GCF. The followings are our suggestion and inputs for the Strategic Plan:

1. Reviewing the current procedures on project approval and management, improving decision-making efficiency and scientificity by introduction of a voting mechanism to improve the overall operating efficiency of the fund.
2. Supporting the capacity development of Direct Access Entities for climate change adaptation and mitigation project development and implementation by means of GCF policy training and knowledge sharing, enhancing the country ownership of GCF projects.

We believe the Strategic Plan of GCF will be updated successfully under your efforts and with the supports from all stakeholders. If there is anything we could help, please let us know.

Best regards,

Yan Wei
