## **Terms of Reference**

### **I. Background**

The Green Climate Fund (Fund or GCF) has been established by 196 Parties to the United Nations Framework Convention on Climate Change (UNFCCC). The Fund was established by a decision of the Conference of the Parties (COP) to the UNFCCC. Its headquarters are based in Songdo, the Republic of Korea and the principal place of business is G-Tower 175, Art Center-daero, Yeonsu-gu, Incheon 22004. The Fund seeks to contribute to the achievement of the ultimate objective of the Convention. In the context of sustainable development, the Fund promotes the paradigm shift towards low-emission and climate-resilient development pathways by providing support to developing countries to limit or reduce their greenhouse gas emissions and to adapt to the impacts of climate change, taking into account the needs of those developing countries particularly vulnerable to the adverse effects of climate change. The Fund is guided by the principles and provisions of the Convention.

The Fund plays a key role in channeling new and predictable financial resources to developing countries. GCF seeks to catalyze climate finance – both public and private, and at the national, regional and international levels. The Fund is intended to operate at a larger scale than other comparable funds to promote the paradigm shift towards low-emission and climate-resilient development pathways. The Fund makes an ambitious contribution to global climate action and channels significant financial resources into developing countries to help build low-emission and climate-resilient societies. It is country-driven and undertakes actions that reflect the circumstances of each country concerned and its national aspirations. The GCF is a key enabler of the 2015 Paris Agreement on Climate Change.

GCF was designated as an operating entity of the UNFCCC's financial mechanism, which it is ultimately accountable to. The COP provides guidance to the Board, including on matters related to policies, programme priorities and eligibility criteria. The Board takes appropriate actions in response to this guidance and reports to the COP annually.

Since its establishment, the GCF has approved 190 projects in 199 countries and has committed USD 10 billion in climate finance. In addition, it has built up an extensive program to support developing countries to identify the needs of the most vulnerable to climate change impacts.

GCF operates through a network of over 200 Accredited Entities (AEs) and delivery partners (DPs) who work directly with developing countries for project design and implementation. AEs are institutions or organizations that are accredited by GCF through the accreditation process. Accredited Entities partner with GCF to implement projects. Guided by GCF's investment framework and the priorities of developing country governments, Accredited Entities convert concepts into action. They work alongside countries to come up with project ideas and submit funding proposals for the GCF Board to approve.

National Designated Authorities (NDAs) are government institutions that serve as the interface between each country and the Fund. They provide broad strategic oversight of the GCF's activities in the country and communicate the country's priorities for financing low-emission and climate-resilient development. The NDA/focal point plays a key role throughout the project cycle in ensuring country ownership and a country-driven approach, which are core principles of the GCF business model.

GCF's has developed an online platform, consisting of the GCF Applications Portal (GCF Apps Portal), which is available for GCF Board members, NDAs / Focal Points, and AEs. The objectives of the applications in the

portal are to enable NDAs and AEs to engage efficiently with GCF and to serve as a platform for creating awareness of the Fund’s activities, policies, and guidelines. Furthermore, the GCF Apps Portal acts as a centralized source of information for efficient communications and project implementation.

Currently, the following Apps are used by NDA and AEs:

|                           |                                |
|---------------------------|--------------------------------|
| <b>Country<br/>(NDAs)</b> | Country Portal                 |
|                           | Fluxx (Readiness)              |
|                           | SAP Online Submission System   |
| <b>Entities<br/>(AEs)</b> | Entity Portal                  |
|                           | Document Review                |
|                           | Document Review (User Guide)   |
|                           | PPMS                           |
|                           | Digital Accreditation Platform |
|                           | SAP Online Submission System   |
|                           | Tracking Platform for Entities |

- 1<sup>st</sup> Phase: Audit at GCF Secretariat
- 2<sup>nd</sup> Phase: Fact-finding at AEs and NDAs

OIA will recruit an external consulting firm to perform the fact-finding exercise under the supervision of the OIA, as described in Section III below.

## **II. Objective of the service**

The objective of this engagement is to obtain sufficient and appropriate evidence from the AEs and NDAs to support OIA in assessing whether the use made of the GCF Apps Portal is supporting GCF’s overall objectives.

## **III. Scope of the service**

The engagement will be a fact-finding exercise, consisting of

- Interviewing senior representatives of the AEs and NDAs;
- Asking questions developed by OIA;
- Identifying and asking any necessary follow-up questions; and

The engagement will cover the period from 1 January to 31 October 2021.

The exact scope of the engagement (the AEs and NDAs to be interviewed (roughly 11 AEs and 14 NDAs, including representatives from all the regions in which GCF operates), the questions to be asked, etc.) will be determined on the basis of the results of the 1<sup>st</sup> phase of the audit.

- OIA will develop an interview questionnaire during the inception phase. The Consulting firm will be expected to review the questionnaire and work with the OIA to finalize the questions and any accompanying tools.
- The Consulting firm will arrange and conduct interviews with AEs and NDAs; these interviews may be face-to-face or online but should be conducted in the interviewee's mother tongue or working language.
- During the interviews, the Consulting firm will identify and ask any follow-up questions that appear necessary, based on the interviewee's responses; and
- The Consulting firm will also consider whether additional corroborative evidence is needed to support the interviewee's responses. Where appropriate the Consulting firm will obtain appropriate additional evidence.

#### **VI. Deliverables**

The consulting firm is expected to:

- Prepare and submit a work plan to perform the engagement, including the proposed timeline;
- Communicate any significant issues and challenges to OIA as they arise;
- Submit weekly update reports to OIA regarding the progress of the work;
- Prepare a draft report after the completion of the interviews for discussion with the Head of Internal Audit; and

Technical proposals that score at least 75 points out of 100 will be considered as qualified for the review of financial proposals. Any proposal less than that will be disqualified from proceeding to the next step and its financial proposal shall be returned unopened following the award of the contract.

**D. Evaluation of Financial Proposal**

The financial proposal of all proposers who have attained the minimum score in the technical evaluation will be evaluated subsequently. The lowest evaluated Financial Proposal (Fm) is given the maximum financial score (Sf) of 100. The formula for determining the financial scores (Sf) of all other Proposals is calculated as follows:

$Sf = 100 \times Fm / F$ , in which “Sf” is the financial score, “Fm” is the lowest price, and “F” is the price of the proposal under consideration.

**E. Consolidated evaluation**

The weights given to the Technical (T) and Financial (P) Proposals are:

$T = 0.80$ , and  $P = 0.20$

Proposals will be ranked according to their combined technical (St) and financial (Sf) scores using the weights (T = the weight given to the Technical Proposal; P = the weight given to the Financial Proposal;  $T + P = 1$ ) as following:  $S = St \times T\% + Sf \times P\%$ .

The firm achieving the highest combined technical and financial score will be invited for contract negotiations.

**F. Award**

The Award will be made to the responsive proposer who achieves the highest combined technical and financial score, following negotiation of an acceptable contract. GCF reserves the right to conduct negotiations with the Proposer regarding the contents of their offer. The award will be in effect only after acceptance by the selected proposer of the terms and conditions and the technical requirements.

### **GCF Model Contract**

By submitting a proposal to this RFP, Bidders are considered to have carefully reviewed the GCF Model Contract and be in agreement with all its terms and conditions. Where the bidder has specific issues of concern, those must be raised and indicated in the Technical proposal clearly for consideration during evaluation. Any request of amendments to GCF Model Contract and terms and conditions must be accompanied by detailed and compelling justification for review and consideration by GCF. It should be noted that request of amendments to GCF Model Contract and terms and conditions may negatively affect evaluation of the proposal and, in some cases, where such amendments are incompatible with GCF's binding policies and rules, may prejudice the final award.

\*Note: The Board adopted at the recent meeting a new policy on SEAH (Sexual Exploitation, Sexual Abuse and Sexual Harassment) and therefore the GCF is required to include new provisions in the General Conditions of Contract. While the specific wording is yet to be formulated, the eventual contract will need to include such new provisions.
